## EXPRESS ORDER SOFTWARE

---

### EXPRESS ORDER SOFTWARE TANDY 2000 SOFTWARE MEMORY REQUIREMENTS

Most Tandy 2000 Express Order Software programs require a minimum memory of 256K, unless otherwise indicated in the Directory of Reviewed Software. Accounting Partner I (90-0112) requires only 128K on the Tandy 2000. However, EasyWriter I System (90-0115) is listed as requiring only 128K but it actually requires 256K. This discrepancy in the Directory will be corrected.

R:Base 4000 (90-0136), R:Base XRW (90-0138), R:Base Clout (90-0271), and AutoCad (90-0181) all require 384K. Please be aware of these requirements and advise your customers accordingly.

### VENDOR SUPPORT OF TANDY HARDWARE

We DO NOT provide our vendors with all of our computers, printers and other peripherals when they are doing a port. Most of the EOS vendors provide a high level of support, but they cannot know all of our equipment inside-out, like we do. If you have a problem customer, and have to get involved (which shouldn't happen) with contacting a vendor for customer support, please be aware that they may not be familiar with the equipment you're working on. The vendor will probably have to contact us for information.

### GREAT PLAINS HARD DISK ACCOUNTING - WITH MS-DOS

If you are having problems with "crashes" when using Great Plains Hard Disk Accounting programs.....IT MAY BE THE MS-DOS VERSION. The system does not work under MS-DOS 02.00.02. If during recent weeks (awaiting 02.11.02) you have been formatting under 02.00.02 and "SYSing" under 02.11.01 to avoid formatting errors, you will run into problems with the Great Plains software. Versions previous to 02.00.02 seem to work. The best bet is to use 02.11.02. The vendor is aware of the problem, as of matter of fact they solved it.

### GREAT PLAINS HARD DISK ACCOUNTING - CHARGING FOR CUSTOMER SUPPORT

Great Plains is now charging for customer support. Prior to this move the company was returning calls collect to customers, with no other charge. This move should create better customer relations. Many EOS vendors do charge for customer support (Tandy is one of the few companies that does not charge), so your customers should be made aware of that fact. All accounting software companies (on EOS) do charge.

### TELECOMMUTER (90-0210) - MODEL 100 UPGRADE NOTICE

An addendum is included in the manual which alerts customers with "OLD" Model 100's that a free upgrade is available at Radio Shack. The upgrade they are talking about is the resistor replacement in the RS-232C, which fixed a communications problem with the Model 12. This same problem occurs with the Tandy 2000. Please be aware that this fix is not a free upgrade in most of Canada.

AMORTIZER III (90-0238) - LOAN PROCESSING PROGRAM

This program is best described as a "Loan Processing" package, as opposed to "Real Estate", which has been the description of the product in previous issues of the TRS-80 Update.

EXPRESS ORDER SOFTWARE PRODUCT AVAILABILITY

The following is a complete list of EOS 90-series numbers for Computer Software. The date under STATUS is when you can expect TEW to ship a new order.

NOTE: These products are listed in alphabetical order by product title.
