

GENERAL LEDGER

Today, any time wasted waiting for information needed for decisions will cost your firm money. Take control of your business' financial picture! Radio Shack has the answer!

General Ledger (Cat. No. 26-4601) gives your TRS-80 Model II a truly professional, comprehensive accounting package. You will not be constrained by inflexible accounting periods or reports designed for another business — you can specify your own! That's right, you can design and print a variety of Financial Statements such as:

- Balance Sheets — with or without budget or last year's comparative figures.
- Profit and Loss Statements — for one or all profit centers and with or without budget figures, comparatives or ratios.
- Statements of Changes in Financial Position — with or without last year's comparative figures.
- Analysis of Changes in Working Capital — with or without last year's comparative figures.
- Cash Flow Statements — with or without last year's comparative figures.
- Statements of Retained Earnings.

You have power and flexibility that until now has only been available on minicomputers costing many times that of the TRS-80 Model II. This General Ledger program is designed to meet *your* needs! It's for use in all types of business, including service firms, merchandising firms and manufacturing firms. So powerful that revenue and expenses may be broken down to individual Profit Centers or Product Lines. It will even produce the Cost of Goods Sold section in your Profit and Loss reports for merchandising firms!

This is not just a General Ledger; it forms the basis for a fully interactive accounting system which can include:

Accounts Receivable	(26-4604)
Accounts Payable	(26-4605)
Payroll	(26-4603)
Order Entry/ICS	(26-4607)
Sales Analysis	(26-4608)

The extensive manual is index-tabbed for easy use. That, combined with extensive sample data furnished on diskettes with the package, makes learning and using this system truly a pleasure.

Minimum System Requirements

TRS-80 Model II with 64K Memory
Expansion Unit with 2 additional Disk Drives
Radio Shack Printer capable of 132 columns
per line on 15" paper (such as the LP V) and
appropriate connecting cable.

System Capacities

400 General Ledger Accounts
4300 Year-to-date Transactions

Cat. No. 26-4601 Suggested Retail Price (may vary at individual stores and dealers) **\$499.00**

Features

- Designed for use by all types of businesses
- Interfaces with our other accounting programs
- User defined Chart of Accounts
- Accumulation of Revenue and Expenses by Profit Centers or Product Line
- User defined Accounting Periods
- Automatic "Out of Balance" detection
- Screen displays "Running Balance" and "Transaction Count" during Transaction Entry
- Complete report generation

Financial Reports

Standard reports are provided for as well as definable reports previously mentioned. These standard reports include:

- Chart of Accounts — with or without Budget and Comparative figures.
- Trial Balance — with or without detail of individual transactions.
- Working Trial Balance.
- Transaction Edit List — allows examination and correction of transactions before actual posting.
- Posting Reports.
- Current Period Transactions Report — grouped by Source Code for easy reference to original journals, registers, etc.
