

**ORDER ENTRY  
INVENTORY CONTROL SYSTEM**

Now, to assist you in better management of your business, there's Radio Shack's Order Entry/ICS System. Designed to work with our Accounts Receivable program (26-4604), it will give you more timely information so necessary for today's business environment.

The Order Entry/ICS System gives you full invoicing and billing as well as thorough reports concerning your inventory movement and level. This system is power-packed with features normally found only in expensive minicomputer systems costing many times that of the TRS-80 Model II.

**Features**

- Accumulates sales, cost of sales (optional), period-to-date and year-to-date totals for each inventory item.
- Allows you to accumulate Sales by multiple profit centers.
- Calculates Sales Tax automatically.
- Allows you to calculate commissions automatically if needed.
- You may devise a sophisticated pricing structure by assigning pricing codes to each inventory item.
- Prints Picking Tickets to simplify physical gathering of items to be shipped.
- Prints Invoices.
- Prints Back Order Reports by item or customer.
- Prints purchasing advice to detail inventory items which have gone below the re-order level.
- Provides perpetual inventory balance using the moving average method of evaluation.

**System Capacity**

1,500 Line Items on Open Orders

1,500 Inventory Items

**System Requirements**

TRS-80 Model II with 64K Memory

Accounts Receivable System (26-4604)

Expansion Unit with Three Disk Drives

Radio Shack Line Printer capable of 132 columns per line on 15" paper (such as LP V) and appropriate connecting cable

**Cat. No. 26-4607    Suggested Retail Price (may vary at individual stores and dealers)    \$499.00**
