RELEASE NO.: RS-83-151

SUBJECT: SuperSCRIPT™

FOR IMMEDIATE RELEASE

Radio Shack announces SuperSCRIPT™, a powerful new word processing program for TRS-80 Model I/III microcomputers.

Radio Shack, a division of Tandy Corporation, now offers high-level word processing features in a new disk software program for the TRS-80® Model I/III microcomputers. SuperSCRIPT™ (26-1590), is available for \$199.00 at Radio Shack Computer Centers and participating stores.

SuperSCRIPT offers true proportional-spaced printing, multiple line spacing (including half-space), storage of multiple paragraph formats, align tabs, automatic pagination and user-definable print codes. Additional features include underline, double underline, boldface, super/subscript and multiple-column printing capabilities.

SuperSCRIPT offers ten user-defined keys to recall commands of up to 127 pre-defined keystrokes to allow instant display of frequently-used words or phrases. A convenient "help" functions serves as a reminder for proper execution of program options.

SuperSCRIPT comes with a self-paced training course on audio cassettes, training manual and reference manuals and a reference card. The program requires a 48K 2-disk TRS-80 Model I system or a 48K 1-disk TRS-80 Model III system.
