DATE: Sept. 29, 1982

RELEASE NO.: RS-83-086

SUBJECT: DWP-410 Printer

FOR IMMEDIATE RELEASE

New low-cost DWP-140 Daisy Wheel Printer from Radio Shack give letters and reports electric typewriter quality.

Radio Shack, a division of Tandy Corporation, has added a second full-featured Daisy Wheel Printer to its TRS-80 computer product line. The new DWP-410 (26-1250) is available for \$1495.00 at Radio Shack stores, Computer Centers and participating dealers.

The DWP-410 prints executive-quality correspondence and reports at over 300 words per minute. It features selectable pitch--either 10 or 12 characters per inch--or proportional spacing. Interchangeable 124-character print wheels provide easy type face selection. "External Program Mode" allows the use of print wheels with different pitch or special characters.

The DWP-410 also features forward and reverse full and 1/2 line paper feed, underline, and programmable backspace, plus 1/120-inch minimum space and 1/48-inch line feed. Automatic Paper Set makes paper insertion easy and precise. A sheet of paper is placed at the rear of the 15" platten, and with the pull of an Autoset Lever, the paper automatically rolls up to the first line position.

The DWP-410 Daisy Wheel Printer is U.L. listed and includes a standard parallel interface and comes complete with print wheel and carbon ribbon cartridge.
