DATE: August 16, 1983

RELEASE NO.: RS-84-026

SUBJECT: CGP-220 Color
Jet Ink Printer

FOR IMMEDIATE RELEASE

Radio Shack Introduces the TRS-80® CGP-220,

A "Drop On Demand" Ink-Jet Printer That Can Print Seven Colors

The TRS-80® CGP-220 Ink-Jet Printer from Radio Shack, a division of Tandy Corporation, is a drop-on-demand printer that quietly prints text and graphics.

The CGP-220 prints in seven non-smearing colors -- black, red, green, yellow, blue, magenta and violet.

It prints 2600 dots per second in graphics mode with a resolution 640 dots per line. The text mode offers 12 cpi at 37 (7 by 5) characters per second.

Parallel and Color Computer-compatible serial interfaces (600/2400 baud) allow use with any TRS-80 computer. A screen print utility for the TRS-80 Color Computer will allow the CGP-220 to create multi-color printouts of color graphics screens produced from any graphics program.

The CGP-220 Ink-Jet Printer (26-1268) is offered for \$699 at all Radio Shack Computer Centers and participating Radio Shack Stores and dealers nationwide.

(MORE)

In addition, Radio Shack offers replacement Ink Packs that allow printing up to four million characters. A **Black Ink Pack** is available for (26-1281) \$9.95 and a **Tri-Color Ink Pack** (26-1282) for \$14.95.

Roll Paper (26-1333), recommended for the best print quality, is offered for \$9.95 for a package of three, and 8 1/2-inch by 11-inch **Paper** (26-1341) is offered at \$6.95 in 250-sheet packages.
