MARKETING INFORMATION DEPARTMENT 817-390-3300

1700 ONE TANDY CENTER, FORT WORTH, TEXAS 76102

Product : TRS-80 Model 4

Introduction: April 26, 1983

Config/Price: 2-disk, RS-232, \$1,999.00

1-disk, no RS232, \$1,699.00

Cassette, 16K RAM, \$ 999.00

Portable, 2-disk, \$1,799.00

Processor : Z-80A @ 4Mhz.

RAM : Disk units, 64K std, 128K maximum. Cassette unit, 16K/48K.

Standard I/O: Parallel printer port.

Cassette port - 500/1500 baud selectable.

RS-232 included on 2-disk unit, optional on others.

Disk Drives : 1 or 2 internal, plus 2 external 5-1/4" SS/DD, 184K each.

Up to 4 external winchesters. 5 and 15Mb available.

Keyboard : 70-Key built-in, with 10key pad.

Three programmable function keys.

Monitor : 80x24 12", high-resolution, black & white built-in.

Graphics : Standard - block graphics.

Opt. - 640x240. Comes with special Graphics BASIC language and its own 32K video RAM on board. Works with disk units only.

Construction: One-piece, with space for 2 internal disk drives.

Color : Fawn Gray (off white).

Languages : Microsoft 5.0 BASIC interpreter furnished.

Optional - FORTRAN, COBOL, Compiler BASIC, CBASIC (for CP/M)

Alcor PASCAL, and Editor/Assembler

D.O.S. : TRSDOS 6.0 (LDOS) and Model III TRSDOS (Model III emulation

mode) included with disk units. CP/M PLUS is optional.

Portable : Uses 1/2-height drives, no cassette port, has 9" monitor and accepts plug-in (internal) 300-baud modem. Maximum of 2 FD's. Otherwise identical to 2-disk standard-size unit.

Features : Runs TRS-80 Model III, Model 4, and CP/M PLUS software.

Second 64K RAM can be used by machine language programs such as VisiCalc...

or used from BASIC as a super-fast, in-memory disk drive emulation.

TRSDOS 6.0 has been described as the most powerful 8-bit operating system available. It includes features like print spooling, routing, linking, filtering, and a Job Control Language. (Advanced features are available on disk units only.) Cassette unit can be upgraded to disk. Owners of previous model (TRS-80 Model III) can have their units upgraded to the Model 4.
