

# TANDY TRS-80 MODEL 2000 PERSONAL COMPUTER INTRODUCTION

REMARKS BY: JOHN V. ROACH

CHAIRMAN OF THE BOARD, CHIEF EXECUTIVE OFFICER AND PRESIDENT  
TANDY CORPORATION

Welcome to our new product introduction today. I along with a large number of other Tandy/Radio Shack representatives are present for an announcement that is very important to Tandy, and we believe, to the microcomputer industry. As one of the leaders and survivors in this industry both today and in the future because of our distribution and support organization, we continue to evolve a strategy for profitable growth.

Today's product announcement is significant in at least two respects. First, it gives an indication of how Tandy will leverage off the MS-DOS operating system and hardware that has been increasing the level of standardization in the industry, and yet not be highly vulnerable to the strategic decisions of other manufacturers. A further indication is that a new software program for the product, which is an integrated productivity tool, will be offered by Radio Shack not only for this product but other manufacturers as well. These are just two of several steps in coming months to leverage off other manufacturers.

Since Tandy is first and foremost a distribution company and retailer, with a commitment to technological product excellence, we feel it both appropriate and desirable that the level of standardization be increased in some respects. At the same time, I want to emphasize Tandy/Radio Shack's continued commitment to our

existing and previously announced products and software. Second, because of this product's high performance and because of the environment that this machine is designed to be utilized in -- the office -- we have chosen a new name, Tandy TRS-80 Model 2000. A name that clearly differentiates the product from our consumer image - Radio Shack - and implies the future as we look to the year 2000. Now let's take a look at the Tandy 2000 Personal Computer and hear about its high performance capabilities from product manager, Don White.
