

file
The Tandy 1200 HD personal computer (25-3000, \$2999) is hardware and software compatible with the IBM XT. Its standard features parallel that of the IBM XT by providing a single 360K full height double sided double density 5-1/4" diskette drive and one internal 5-1/4" 10 MB hard disk drive housed in a desktop unit with detachable keyboard. The 1200 HD includes a low profile 84 key detachable keyboard with tilt legs and a 6 ft coiled cable. The placement of the shift keys have been improved over that of the IBM XT but otherwise the keyboard is identical. The Intel 8088 microprocessor is used (operating at 4.7 MHZ). Provisions exist on the main logic board for the addition of an 8087 math co-processor from other sources. The Tandy 1200 HD includes standard 256K RAM on the main board and provides five expansion slots. In the standard configuration one slot is used for the hard disk controller, and one slot for the floppy disk controller. Additional memory may be added to a total of 640K bytes. The Tandy 1200 HD includes a standard parallel Centronics printer interface which is optional on the IBM XT.

Options provided directly by Radio Shack include a monochrome display adapter (25-3040, \$219), and a graphics display adapter (25-3043, \$299) either of which require one slot. The owner selects either option, not both. The graphics display adapter produces color graphics on a suitable color monitor such as the CM-2 high resolution color monitor (26-3212, \$549.95) or monochrome graphics on the VM-3 high resolution monochrome monitor. This green screen non glare 12" monitor (25-3010) is available for \$219.

Additional options include the TECMAR Graphics Master card (25-3044, \$695) which provides 640 by 400 resolution in 16 colors and includes PC Paintbrush software which provides drawing capabilities similar to the Mac Paint software. TECMAR's Captain board (25-3061, \$795) provides an additional 384K RAM, RS232, clock/calendar with battery backup, second Centronics compatible parallel printer interface, and the TREASURE CHEST programs which include RAM disk, RAM spooler, Rolodex and more.

1200 HD includes an introductory user's guide that takes the owner through setup, and introductory use. MSDOS 2.11 and Microsoft BASIC 2.0 along with user's manuals for each are available from Radio Shack (25-3130, \$89.95).

Several top selling software products developed for the IBM personal computer will be stocked in Radio Shack Computer Centers and will be supported directly by the software vendors supplying the software to Radio Shack. These include products like Wordstar Professional from MicroPro International, the PFS series from Software Publishing, DBASE III and Framework from Ashton-Tate. Other products designed for the IBM Personal computer are available from third parties.

The Tandy 1200 HD is 5.75" by 19.03" by 15.31" and is similar in appearance to the IBM XT.

The Tandy 1200 HD with 256K RAM,, one diskette drive, 10 MB hard disk, VM-3 high resolution Monochrome monitor, and monochrome display adapter totals \$3437.00. A comparably equipped IBM XT based on Manufacturer's pricing of June 1984 totals \$4929. See the enclosed comparison.

Monochrome

IBM

PC XT 10 mb, 1-drive, 256K	\$4395.00
Monochrome Display	\$275.00
Display/Printer Adapter	<u>\$250.00</u>
	\$4920.00

1200 HD

1200 HD, 10mb, 1-drive, 256 K	\$2999.00
VM-3 High Resolution Monochrome Monitor	\$219.00
Monochrome Display Adapter	<u>\$219.00</u>
	\$3437.00

Savings IBM XT/1200 HD \$1396.00

Savings 1483.00 on full system.

Color

IBM

PC XT 10mb, 1-drive, 256K	\$4395.00
Color Display	\$680.00

Printer Adapter Card	<u>\$75.00</u>
	\$5394.00

1200 HD

1200HD, 10mb, 1-drive, 256K	\$2999.00
CM-2 Color Display	\$549.95
Color Graphics Adapter	\$299.00
Printer Adapter	<u>N/C</u>
	\$3847.95

Savings \$1546.05 on Color System.

A "trademark" is a word, symbol, or any combination of these, used by one business to identify its products so the consumer may distinguish these products from those of another business. Failure to properly use another's trademark, or failure to use a trademark distinctly different from that used by competition, may confuse or deceive the consumer as to the origin of the product and may ultimately be in violation of various trademark, unfair competition, and other laws.

We at TANDY CORPORATION and its Radio Shack Division have noticed instances where our trademarks have been used improperly. Many times the usage suggests that a product being advertised originates from TANDY CORPORATION or RADIO SHACK, when in fact it does not. This creates problems for both the consumer and us, two of which we wish to mention here.

First, the consumer may erroneously assume that the product advertised is our product. Second, TANDY CORPORATION has invested considerable time and money in creating a good reputation with its customers. This reputation may be blemished if others, beyond the control of TANDY CORPORATION, are permitted to use its trademarks improperly.

TANDY CORPORATION does not intend to prevent others from using its trademarks, as long as they are properly identified and used in reference to our products. The following guidelines are based upon generally accepted business and trademark usage principles as well as various trademark laws. These guidelines should be followed whenever our trademarks are used. If you have any questions concerning use of TANDY CORPORATION trademarks, please write to TANDY CORPORATION, Legal Department, P.O. Box 17180, Fort Worth, TX 76102. Your cooperation is greatly appreciated.

THE TRADEMARK USED MUST BE IDENTIFIED AS A TRADEMARK OF TANDY CORPORATION, e.g. "TRS-80" FOLLOWED BY A FOOTNOTE, TRS-80 IS A TRADEMARK OF THE RADIO SHACK DIVISION OF TANDY CORPORATION.

THE TRADEMARK MUST ONLY BE USED TO IDENTIFY TANDY CORPORATION AND RADIO SHACK PRODUCTS OR SERVICES AND SHOULD NOT BE USED TO IDENTIFY PRODUCTS OR SERVICES PROVIDED BY OTHERS; e.g. USE OF ARCHER ON ELECTRONIC TEST INSTRUMENTS NOT MANUFACTURED BY TANDY CORPORATION WOULD BE IMPROPER.

THE TRADEMARK MUST BE USED AS AN ADJECTIVE MODIFYING THE PRODUCTS GENERIC NAME, NOT AS A NOUN e.g. "THE TRS-80" MICROCOMPUTER" AND NOT THE "THE TRS-80."

THE TRADEMARK SHOULD NOT BE USED BY OTHERS TO SUGGEST AN ENDORSEMENT LICENSE OR APPROVAL BY TANDY CORPORATION OF PRODUCTS PROVIDED BY OTHERS; e.g. THE "TRS-80 NEWSLETTER" WOULD IMPLY AN ENDORSEMENT BY TANDY CORPORATION, WHICH COULD BE IMPROPER.

THE TRADEMARK SHOULD ONLY BE USED BY OTHERS TO STATE THE SPECIFIC RELATION IF THE PRODUCT OFFERED FOR SALE TO THE TANDY CORPORATION PRODUCT; e.g. "THE BRAND X SOFTWARE PROGRAM FOR USE ON A TRS-80" MICROCOMPUTER," INSTEAD OF TRS-80 SOFTWARE" OF "THE XYZ ADAPTER FOR THE REALISTIC RECEIVER" INSTEAD OF REALISTIC ADAPTER."

THE TRADEMARK MUST BE USED IN A SIZE OR STYLE TYPE LESS PROMINENT THAN THE TRADEMARK OF THE PRODUCT OR SERVICE OFFERED FOR SALE BY OTHERS.

THE TRADEMARK SHOULD NOT BE USED AS A COMPOSITE TRADEMARK WITH TRADEMARKS OWNED BY OTHERS; e.g. "BRAND X/TRS-80."

CONFUSINGLY SIMILAR TRADEMARKS SHOULD NOT BE USED TO IDENTIFY COMPETITIVE OR COMPLIMENTARY PRODUCTS PROVIDED BY OTHERS; e.g. TRS-180, TRS-93, OR TS-80.
