Dear Jim:

The Tandy 1000 personal computer is one year old today. In less than a year, the Tandy 1000 has become one of our best selling computer. This Fall, Future Computing credited Tandy with 20.5% of the IBM PC-Compatible marketplace, only 2% behind record-setting Compaq. It's quite possible that by now, the Tandy 1000 is *the* best selling PC-Compatible! Consumer's Digest for November named it as a *best buy in personal computers*, and we don't think they'll be alone. Our Tandy 1000 Christmas package which includes a color monitor for \$999, has to be the best computer buy this holiday season!

Success like this takes a team effort, so we held a party at our plant, where Tandy's CEO, chairman and president John V. Roach thanked the entire Tandy team for a job well done. You received a press release about the birthday party. Enclosed are photos. Your staff has played a big part in helping us achieve this success, so we want you to share in our celebration. Nobody likes stale cake, so please accept and enjoy the enclosed hand-carved chocolate replica of a Tandy 1000. It was specially prepared by the Dallas Fairmont Hotel's expert chef, for the occasion. Along with it comes our sincere thanks for your continued help and support. We wish you and your staff an especially wonderful holiday season.

Sincerely,

Ed Juge
