TANDY 1000 PERSONAL COMPUTER HOLIDAY BONUS COMPLETE PACKAGE WITH COLOR MONITOR JUST \$999

The Tandy® 1000 personal computer with DeskMate™ software has been acclaimed an exceptional value at \$999. This Christmas Radio Shack is offering consumers an even more exceptional value. Between now, October 20, and December 24, a CM-4 Color Monitor will be included as a bonus with every Tandy 1000 computer system purchased. This complete system, which would regularly cost \$1,298.95, will be offered for only \$999 during this period. This holiday bonus represents a customer savings of \$299.95.

The Tandy 1000 computer features built-in color and monochrome adapters, and connectors for use with a parallel printer, joysticks, and light pen. It is expandable by plugging in additional IBM-compatible accessories. Every Tandy 1000 computer includes a special six-function program called DeskMate, which includes a simple word processor, telecommunications, a filer, electronic mail, and a calendar function. With the

Tandy 1000 Personal Computer Holiday Bonus -- ADD ONE

addition of the color monitor, Tandy's holiday bonus package offers a complete IBM PC-compatible personal computer system, ready to run on Christmas morning for less than \$1,000.

"This popular computer will be the best buy in the computer market this Christmas. The Tandy 1000 computer makes full IBM compatibility affordable to the home user," said Ed Juge, director of market planning for Radio Shack.

The Tandy 1000 personal computer is sold at nearly 7,000 Radio Shack® Stores, Radio Shack Computer Centers and participating dealers nationwide.

Tandy Corporation/Radio Shack is a leader in the personal computer industry.
