

COLOR COMPUTER FACT SHEET

The Product

The Color Computer™, initially introduced in July 1980 with 4K RAM, has the most dedicated user base of any home computer.

The Color Computer is now available in two versions:

- o 16K Color Computer 2 with Standard BASIC, \$119.95;
- o 64K Color Computer 2 with Extended BASIC, \$219.95.

The Color Computer is a low-cost, easy way to get into computing.

The customer determines the cost of the Color Computer system by selecting the machine and peripherals he needs.

A Color Computer system can expand along with the user's growing computer knowledge - all the way up to multi-tasking functions and UNIX type programming, using the OS-9 operating system.

More than 150 software packages for the Color Computer are available through Radio Shack.

Operates with Program Pak™, cassette or disk software and BASIC programs.

The Color Computer has a proven track record for reliability backed by Radio Shack's dependable support and service.

The Color Computer is sold at Radio Shack Computer Centers, Radio Shack Stores and participating dealers nationwide.

The Hardware

The 16K Standard Color Computer 2 comes with:

- o a 6809E 8-bit microprocessor;
- o a 53-key keyboard;
- o a clock speed of .894 MHz;
- o video display capabilities of 16 lines of 32 upper case characters;
- o color graphics capabilities ranging from 32 x 64 (8 colors) to 192 x 256 (1 color and background color) with three intermediate formats. Higher resolutions in the same range are available through machine language, Extended BASIC or Program Paks.
- o color BASIC in 8K ROM and 16K internal dynamic RAM.

Includes the following input/output ports:

- o 1500-baud cassette (recorder optional)
- o Two 2-dimensional joysticks (optional)
- o RS-232C serial port
- o standard TV connection (300 ohms).
- o Program Pak™ port.

The 64K Extended BASIC Color Computer 2 also includes:

- o 16K ROM and 64K internal dynamic RAM
- o extended BASIC
- o a wide variety of commands/statements and functions.

Peripherals

Orchestra-90 CC Cat. No. 26-3143 \$79.95
A unique combination of hardware and software that transforms any 16K Color Computer into a programmable music synthesizer. Features six octave ranges and up to five simultaneous voices using two stereo channels.

Color Thinline Disk #0 Kit Cat. No. 26-3129 349.95
Turns a Color Computer with Extended BASIC into a complete disk system. The kit includes a 5 1/4 inch double density, 35-track floppy disk drive and plug-in Program Pak Cartridge containing the Color Disk Operating System. The full 156K byte disk capacity is available for user storage.

Appliance/Light Controller Cat. No. 26-3142 99.95
The Appliance/Light Controller connects lights and appliances to Plug 'n Power™ remote control modules (sold separately at Radio Shack) so times of appliance use can be programmed. All data is transferred to the controller, leaving the computer free for other uses.

Sound/Speech Cartridge Cat. No. 26-3144 99.95
The Sound/Speech Cartridge creates three music voices and one-voice speech with certain software packages, and enables the user to write programs for speech and music functions.

CCR-82 Cassette Recorder Cat. No. 26-1209 49.95
A cassette recorder designed for use with computers featuring a sound monitor, volume control with preset marker and pause.

CCR-81 Cassette Recorder Cat. No. 26-1208 59.95
A cassette recorder designed for use with computers. It features cue/review and a tape counter.

Touch Pad™ by Koala Technologies Cat. No. 26-1185 59.95
The tablet's surface can be touched with a finger or the included drawing pen to create free-hand graphics. The Touch Pad also can be used like a paddle controller or joystick with Color Computer games and programs.

Electronic Book Cat. No. 26-3141 24.95
The book's touch-sensitive surface allows kids to answer questions and participate in interactive routines. Six optional educational programs work with the book to make learning fun.

Deluxe Joystick Cat. No. 26-3012 39.95 each
The Deluxe Joystick features dual-axis trim controls to give accurate cursor control and quick response. Features self-centering or free-floating bat control on both axis.

Color Mouse Cat. No. 26-3025 49.95
The Color Mouse rolls across the tabletop for greater speed and accuracy in games and graphics applications. Can be used alone or with a joystick.

Joysticks Cat. No. 26-3008 19.95
Each of this pair of joysticks features fast 360 degree movement and a single-shot button.

Multi-Pak™ Interface Cat. No. 26-3124 99.95
Up to four Program Pak cartridges can be connected to the Color Computer at once with the Multi-Pak Interface. The interface also connects disk drives and other accessories.

Deluxe RS-232 Program Pak Cat. No. 26-2226 79.95
The Deluxe RS-232 Program Pak is used with a modem to communicate with information services such as CompuServe and Dow Jones News/Retrieval and with other computers over telephone lines.
