TANDY INTRODUCES TWO-DISK DRIVE TANDY 1200 COMPUTER FOR CUSTOMERS WHO PREFER FLOPPY DRIVE STORAGE

Tandy Corporation is introducing the Tandy® 1200 personal computer with two 360K floppy disk drives. The new Tandy 1200 computer, priced at \$1,499, features an industry-standard keyboard, 256K RAM, expandable to 640K on the main board, and functions like the IBM® PC XT, using the same software and option cards.

It joins the Tandy 1200 HD, an extremely popular business computer, recently redesigned to include seven card slots - six full size and one half size. After adding a monitor board, the user has five full size slots and one half size slot available for expansion. A similarly configured PC XT has three full-size and two half-size slots open.

The floppy disk and printer circuitry is on the main board of the Tandy 1200 and Tandy 1200 HD computers, so it doesn't occupy an expansion slot as it does on similar systems.

Two-Drive Floppy Disk Tandy 1200 Personal Computer -- ADD ONE

"The new Tandy 1200 responds to customer demand for the capabilities of the Tandy 1200 HD with the lower cost of two floppy disk drives. Some of our customers do not need a hard drive system," said John V. Roach, Chairman and CEO of Tandy Corporation.

"The Tandy 1200 is the right choice for anyone who requires complete keyboard compatibility or full 14-inch expansion slots. The additional expansion capabilities of the Tandy 1200 and redesigned Tandy 1200 HD computers now exceed those of IBM's PC and PC XT," he added.

The Tandy 1200 personal computer (Cat. No. 25-3001) and the Tandy 1200 HD personal computer (Cat. No. 25-3000) are available this November at Radio Shack Computer Centers, Radio Shack Plus Computer Centers, and participating dealers nationwide.

Tandy Corporation/Radio Shack is a leader in the business computer market.

TANDY 1200 PERSONAL COMPUTER

FACT SHEET

The Product

- o The Tandy 1200 computer - which runs Microsoft's MS-DOS® 2.11 operating system - is an excellent choice for offices already using a large number of MS-DOS operating system based computers.
- o The Tandy 1200 computer includes 256K RAM, expandable to 640K RAM on the main board.
- o Independent testing by Future Computing Inc., a Dallas, Texas, market research firm, found the Tandy® 1200 computer to be "operationally compatible with the IBM® personal computer."
- o The Tandy 1200 computer is right for offices which require full keyboard compatibility and 14-inch expansion slots.
- o Seven expansion slots (six full-size, one half size) support option boards from Tandy and a variety of leading vendors.
- o The floppy disk and printer circuitry is on the main board, so the user does not have to use an expansion slot for printer support.
- o Five full-size expansion slots and one half-size expansion slot are available after adding a monitor board.
- o A standard parallel printer interface is included.
- o The Intel 8088 microprocessor operates at 4.7 MHz.
- o An 8087 math coprocessor, from other sources, readily can be added to the main logic board.
- o The Tandy 1200 computer is available at Radio Shack® Computer Centers and participating Radio Shack Dealers nationwide.

The Software

- o The Tandy 1200 computer has been certified by Lotus Development Corp. to run 1-2-3™ and Symphony™ software.
- o Programs available from Radio Shack include:
 - Framework™
 - WordStar™
 - Offix™
 - the pfs®: series
 - dBase II™
 - dBase III
- o Runs a wide variety of software for the IBM PC and PC XT.

The Hardware

- o Tandy 1200 \$1,499.00
 - Includes:
 - Two 360K (formatted) thinline 5 1/4-inch drives
 - 84-key professional keyboard with LED indicators for caps lock and number lock
 - User's guide for initial set-up and use
- o Expansion Options:
 - VM-3 High-Resolution Monochrome Monitor \$ 219.00
 - Graphics Display Adapter \$ 299.00
 - CM-2 High-Resolution Color Monitor \$ 459.95
 - Captain™ Multifunction Board \$ 795.00
 - Includes:
 - 384K RAM
 - RAM spooler
 - appointment alert
 - clock/calendar with battery backup
 - an RS232C port
 - RAM disk
 - parallel printer interface
