

TANDY 1000 EX COMPUTER  
FACT SHEET

The Product

- o The Tandy® 1000 EX computer, at \$799, is the lowest-priced PC-compatible offered by a major manufacturer.
- o Runs 50 percent faster than the PC. The 7.16 MHz clock speed is software switchable to the standard 4.77 MHz.
- o It is the successor in the home and education markets to the best-selling Tandy 1000 computer.
- o One-piece CPU with 90-key keyboard features a built-in, 5-1/4 inch, 360K floppy disk drive.
- o Comes with Personal DeskMate™, an easy-to-use, graphics-oriented productivity program. Features word processing, spreadsheet, electronic filing, graphics, calendar and telecommunications.
- o The Tandy 1000 EX personal computer and Personal Deskmate software come with an easy-to-understand tutorial manual, a reference manual and a quick-reference guide. The tutorial easily takes even the newest computer user through all of the computer's basic functions.
- o MS-DOS® 2.11 disk operating system and GW-BASIC® software are included in the base price. (Full MS-DOS/GW-BASIC reference manuals sold separately.)
- o Allows addition of one PLUS expansion board or two PLUS expansion boards when used with the Memory PLUS Expansion Adapter.
- o Available at more than 7,000 Radio Shack® Stores, Radio Shack Computer Centers, and participating dealers nationwide.

The Software

- o Personal DeskMate, an easy-to-use, graphics-oriented program, is an introduction to a variety of application programs. It introduces the user to applications without the expense of purchasing additional software.
- Personal DeskMate includes:
  - Tandy Desktop, to help visually organize and manage program and data files. Any combination of applications can be installed on the screen.

- Text, a simple word processor, for composing and editing text on the screen, and printing.
- Worksheet, an electronic spreadsheet application with 99 rows and 99 columns of numeric, text, or calculated cells.
- Filer, for tracking recipes or other frequently used data.
- Paint, a simple graphic picture editor that includes functions for drawing basic shapes (solid or outline), lines, points, fonts and pattern fills.
- Calendar, an electronic personal calendar for keeping track of appointments and activities.
- Telecom, a basic telecommunications package for communication with information services or uploading and downloading files.
- Notepad to give the user a place to leave notes for personal use right on the menu screen.
- Calculator, for basic math. Adds, subtracts, divides, and multiplies.
- Phone Directory, for storing telephone numbers and addresses.

#### The Hardware

- o Uses the Intel 8088 microprocessor.
- o Base price of \$799 includes:
  - One-piece CPU/90-key keyboard.
  - 256K RAM, expandable to 640K RAM with Memory PLUS Expansion Adapter
  - One built-in, double-sided, double-density, 360K formatted, 5-1/4 inch, floppy disk drive.
  - Built-in high-resolution monochrome and color graphics.
  - Standard external connectors include:
    - parallel printer port.
    - connector for 5-1/4 inch, 360K, or 3-1/2 inch, 720K, external disk drive.
    - composite video outlet.
    - 1/8 inch headphone jack with volume control.
    - two joystick ports.
    - RGBI color monitor port.
