

TANDY® 1000 EX

Our most affordable PC-compatible computer includes 256K RAM and our new, easy-to-use six-in-one Personal DeskMate™ software.

The Tandy 1000 EX... Affordable.

A True PC-Compatible Computer Designed for the Home or Classroom

There's no reason to settle for a "game" computer. The Tandy 1000 EX (25-1050) is a true PC-compatible computer, ready to use the MS-DOS software you bring home from the office, as well as software designed for the home or classroom. Inside the sleek one-piece case resides a 5 $\frac{1}{4}$ " disk drive and 256,000-character RAM. The integral 90-key keyboard has the same layout as our Tandy 1000 SX, ideal for business programs. You'll find an advanced three-voice sound circuit for sophisticated sound and music generation through the built-in speaker. There's also a headphone jack with volume control for quiet listening—perfect for use in the classroom.

It's Easy to Expand Your Options

The one-piece Tandy 1000 EX offers affordable versatility—just plug in a monochrome or color monitor, or a TV set with an optional RF modulator.

Plug in joysticks, a printer, or a second disk-drive without buying extra-cost adapters. Add the Memory PLUS Expansion Adapter for two additional connectors for more memory, modem telecommunications, Digi-Mouse® and classroom networking options.

The Advantages of Personal DeskMate

Every Tandy 1000 EX comes with our new graphics-oriented Personal DeskMate productivity software, with word processing, spreadsheet analysis, electronic filing, a calendar, telecommunications, and even a fun painting program! Easy-to-use Personal DeskMate features handy pull-down menus and pop-up boxes for selecting functions. Add a Digi-Mouse or joystick for controlling the cursor and you'll have the ultimate in convenience.

Tandy 1000 EX—It Fits Your Needs

Whatever your needs, the Tandy 1000 EX is the personal computer for you. That's because the Tandy 1000 EX has one of the widest selections of software available—spreadsheet, word processing, integrated applications, home education, and entertainment.

Personal DeskMate software, easy user expansion, classroom networking options, superb graphics, and IBM software compatibility make the Tandy 1000 EX ideal for your home or classroom.

The Tandy 1000 EX... Exceptional.

The Tandy 1000 EX is an exceptional system—and it offers more than you might expect from a home computer. More speed. More software compatibility. More expansion. And beyond that, the support and superior price/performance ratio that have kept Tandy in the forefront of the microcomputer industry from the beginning.

Speed and Selection

The Tandy 1000 EX uses an 8088 processor, which makes it compatible with literally thousands of MS-DOS programs. But the 1000 EX operates at higher speed than most other “industry standard” computers. This software-selectable speed control gives you 50% better performance than an IBM PC. It's so fast, in fact, that you may have trouble keeping up with some games like Flight Simulator or One-on-One basketball! Of course, you can slow it down to assure 100% software compatibility. And with 256K RAM already built-in, you have the power you need to tackle advanced applications.

Flexible Design to Meet Your Needs

The 1000 EX has the same keyboard as our advanced 1000 SX, which makes it ideal for business programs. It has twelve programmable function keys, and special keys including ESCape, CAPS, HOLD, INSERT, DELETE, CTRL, and HOME. For your convenience, a numeric keypad is also featured. The 1000 EX has its own built-in 5 $\frac{1}{4}$ " floppy disk drive to give you plenty of storage space.

As your needs grow, the 1000 EX can grow, too. Externally, the 1000 EX has hookups for an extra disk drive, a printer, two joysticks, a headphone, and a monochrome or color monitor. Internally, expand your 1000 EX with user-installable PLUS upgrade boards, for memory expansion, telecommunications, networking, or a Digi-Mouse cursor controller.

The Perfect Classroom Computer

Setting up a classroom? The Tandy 1000 EX has the features, software compatibility and expansion capability to give you more for your budget dollar.

Since the 1000 EX is compact, it won't take up a lot of precious classroom space. The built-in disk drive will make it easy for your students to save their work on 5 $\frac{1}{4}$ " floppy disks. And the 1000 EX's palette of 16 vivid colors helps keep learning fun and exciting, with bold, colorful graphic displays.

The 1000 EX has a volume-controlled headphone jack. With headphones, your students listen to their programs without disturbing others—and your computer lab stays quiet.

With our Network 4 classroom network system, you can link up to 63 computers to share a common hard-disk system and printer, with each station operating as a virtual stand-alone system. Users can quickly access programs, data files, and storage areas on the hard disk as designated by the teacher.

SPECIFICATIONS:

Microprocessor: Intel 8088, Clock Speed: 7.16/4.77 Mhz, software selectable.

Operating System: Includes Microsoft's MS-DOS 2.11 with GW-BASIC (Reference Manuals Extra).

Memory: 256K RAM, expandable to 640K. 16K ROM, includes power-up diagnostics.

Keyboard: Integral 90-key sculptured, including numeric keypad. Special keys include HOLD, ESCape, BREAK, CTRL, CAPS, INSERT, DELETE, and HOME. Twelve programmable Function keys.

Video Display: Optional high-resolution 12" monochrome (green) or 13" RGBI Color Monitor, 80 or 40 characters per line by 25 lines. 256 characters. Reverse video, blank, blink. 16 foreground and 8 background colors. High resolution

Disk Drives: One double-sided, double-density, 360K (formatted) thin-line, 5 $\frac{1}{4}$ " mini-floppy. 48 tracks per inch.

Internal Expansion: One “PLUS” style expansion board or two “PLUS” style expansion boards when used with Memory PLUS Expansion Adapter (25-1062).

External Connections: 5 $\frac{1}{4}$ " 360K or 3 $\frac{1}{2}$ " 720K External Disk Drive, standard parallel port, composite video out, $\frac{1}{8}$ " headphone jack with volume control, two joysticks, RGBI Color Monitor, AC outlet.

Power: 120 VAC, 50/60 Hz.

The Tandy 1000 EX... Expandable.

Display Monitors that Fit Your Needs

We offer monitors for every need and every budget. Our new VM-4 Monochrome Monitor (25-1020) features a 12", non-glare green phosphor screen and 80×25 text—perfect for word processing applications! Or, choose from our line of color monitors, which includes the CM-5 RGBI Color Monitor (25-1023). The CM-5's 13" screen displays 80×25 text and 320×200 graphics in bright, vivid colors. Our new CM-10 High-Resolution RGBI Color Monitor (25-1022) also has a 13" screen with 80×25 text, and it features sharp 640×200 graphics.

Accessories that Add Convenience

For easy cursor movement with Personal DeskMate or other graphics-oriented programs, try our Deluxe Joystick (26-3012). It has a patented stick mechanism for more accurate control and quicker response, with "spring centering" or "free floating" operation. Or, for super control, try our Two-Button Digi-Mouse (26-1197) Controller (requires Digi-Mouse/Clock Controller Board, 25-1015).

An external disk drive gives you more storage space and can make backups much easier and faster. Our 5¼" External Disk Drive (25-1060) can provide 360K of extra storage. Or, get 720K extra with our 3½" External Disk Drive (25-1061)—giving you twice as much storage on smaller, more durable diskettes. For added convenience, the 1000 EX has a special feature that allows you to load programs directly from this external drive.

PLUS Upgrade Boards

PLUS upgrade boards are designed specifically for the Tandy 1000 EX. Add one board or use our Memory PLUS Expansion Adapter (25-1062) to add 128K

(with sockets for an additional 256K) and allow use of two PLUS upgrade boards. The PLUS RS-232C Option Card (25-1014) lets your 1000 EX talk with other computers and access national information services, when combined with communications software and an external modem. The PLUS Digi-Mouse Controller/Calendar Board (25-1015) opens the way for you to use Two-Button Digi-Mouse (sold separately), and it includes a perpetual time/date clock—you'll never have to enter time and date again! There are also two PLUS modem boards—300 baud (25-1017) and 1200 baud (25-1018). Both modems are Hayes® compatible and great for use with on-line services such as CompuServe, Dow Jones News/Retrieval, and many others.

Instructional and Reference Books

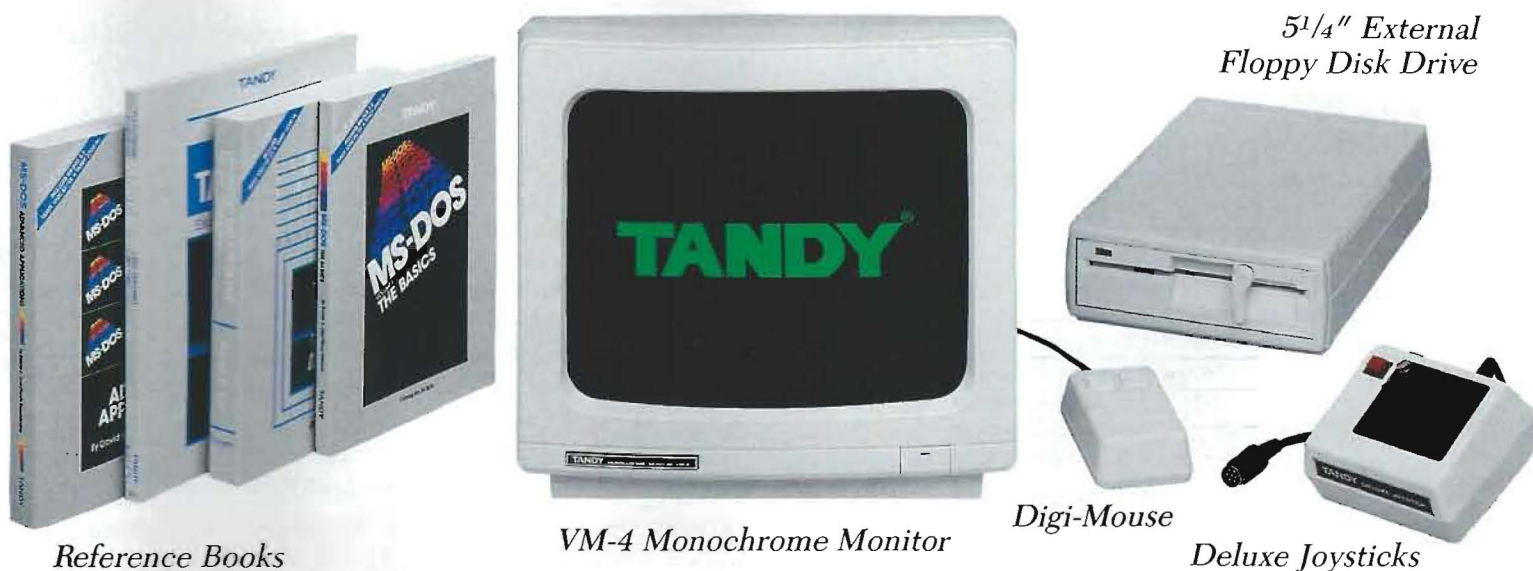

MS-DOS: The Basics (25-1506) takes the beginner on a tour through the basics of the MS-DOS system, its functions and possibilities.

MS-DOS: Advanced Applications (25-1507) discusses working with files and devices, organizing your files, simplifying your work, controlling the flow of data, and personalizing your system.

Learning BASIC for Tandy Computers (25-1500) is an excellent tutorial in BASIC programming by Dr. David Lien, author of our famous Model I manual.

The Complete Guide to the Tandy 1000 (25-1505) is an extremely thorough examination of the power of our most popular computer. It covers basic operations, software options, compatibility issues, mastering MS-DOS, hardware, expansions, and more.

Our *MS-DOS/GW-BASIC Reference Guide* (25-1508) covers all MS-DOS and GW-BASIC commands, including syntax, switches, and all utilities.

Have Created for Each Separate
Function

Built-in Accessory Programs:
Calendar, Calculator, Notepad, and
Phone Directory.

Pull-Down Menus and Pop-Up Boxes
are available for Selecting Functions

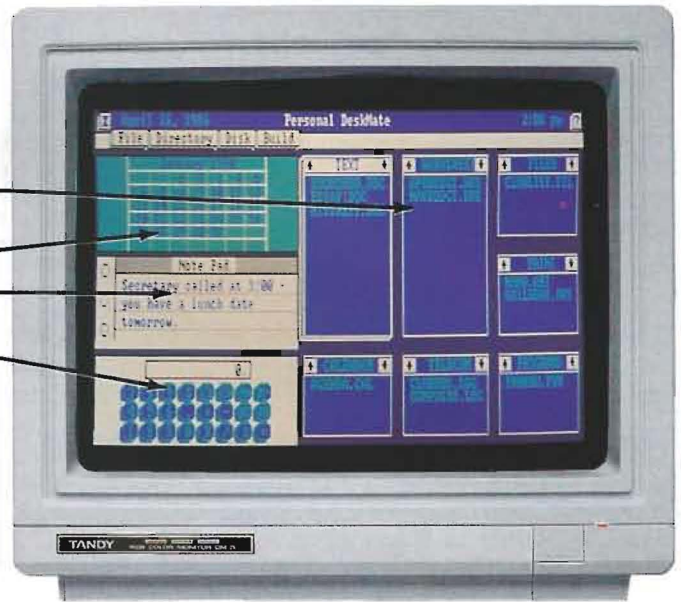

Help is Available From Any Personal
DeskMate Application

Personal DeskMate is a user-friendly, graphics-oriented package that is included with every Tandy 1000 EX at no extra charge! It has the popular applications you need to get started right away!

Text. Word processing made simple. Control-key editing features make it easy to compose and edit letters, memos, and reports right on the screen. Then print as many correction-free copies as you wish with an optional printer.

Worksheet. This electronic spreadsheet uses simple "plain English" entries to make complex calculations instantly. View countless "What if . . . ?" situations in seconds. You can print all or a portion of your spreadsheet. It's perfect for home budgeting and personal finance.

Filer. Create a name and address file, keep track of recipes, or store a file of your valuables for insurance records. Simple commands let you create and find files easily. You can sort files by one or more fields and print your files in any order you wish.

Calendar. Lets you store daily, monthly, or yearly events. Calculates and displays most holidays. With a printer, you can create attractive daily, weekly, monthly and yearly calendars.

Telecom. By adding a telephone modem, Personal DeskMate lets you communicate with a host computer, information service, or another terminal. Information you receive can be printed or stored on diskette for later reference. You can also send files to other computers. Telecom will even dial the phone number of anyone listed in the Phone Directory at the touch of a key.

Paint. Create colorful charts, graphs, and designs. Paint is a simple graphic picture editor that includes functions for drawing basic shapes, lines, points, fonts, and pattern fills.

Personal DeskMate requires 80-column monitor.

Choose from the Most Popular Software

Since the Tandy 1000 EX is compatible with the IBM PC, there are thousands of programs currently available, and the list is growing every day. Many powerful MS-DOS software packages are available off-the-shelf at Radio Shack Computer Centers.

Put your Tandy 1000 EX to work for you. With our easy-to-use HomeWord Plus software, adults or children can start word processing almost immediately. It even checks your spelling with its built-in 45,000 word dictionary. Managing Your Money, a personal financial management package of seven integrated programs, does everything from keeping track of your checkbook to sophisticated portfolio analysis and rental property evaluation. There's also the popular pfs: family of interactive programs, for filing,

spreadsheet, word processing, graphics and tabular reports. The 1000 EX will also run the powerful MS-DOS programs from your office like Lotus 1-2-3, dBASE III Plus, SCRIPSIT®, and Microsoft Word 3.0.

Your 1000 EX makes learning fun, with programs like The FUNdamentals, designed to teach new users general computer basics. The award-winning Rocky's Boots helps develop skills in logical problem solving and creative thinking. There's also Typing Tutor III, Mastering the SAT, and Millionaire, a remarkable stock market simulation.

Ready to unwind? There's a long line of games available for the 1000 EX, including Flight Simulator, King's Quest, One-on-One, and F-15 Strike Eagle.

Whatever your needs, the Tandy 1000 EX is your key to great software.

Tandy Computers are Backed With Total Support

Professional Training. Radio Shack's training and support is unequalled in the industry. You can select from a variety of courses taught at over 60 Computer Centers across the country. Or choose on-site instruction available through Customer Training and Support Centers in 60 major metropolitan areas.

Nationwide Service. 188 strategically located company-owned Radio Shack Computer Service Centers assure convenient service nationwide—performed by employees of the same company that manufactured and sold you your computer. We back the products we sell.

Customer Support. Radio Shack provides more support operations at less cost (much of it free of charge, in fact) than any other microcomputer company. Our support specialists are your “on-demand” experts, and can be reached by telephone hotline at 60 nationwide support operations centers.

Commercial Leasing. Your business may lease computer systems on a 37-month lease. Payments may be fully tax deductible since ours is a true lease. Leasing terms are also available for non-profit, governmental and educational organizations, too. Get details at any Radio Shack Computer Center.

Available at over 1200
Radio Shack Computer Centers and at
participating Radio Shack stores and dealers.
