

TANDY® 1000 SX

Runs the same software fifty percent faster than the IBM® PC. Includes two disk drives, 384K RAM and DeskMate® II six-in-one software.

New Tandy 1000 SX Gives You PC Compatibility and Much More

Our MS-DOS® family of computers is growing to meet your needs. After its introduction, the Tandy 1000 went on to become the hottest IBM® PC compatible to hit the market. Now it's even better.

Packed With the Features You Need

The Tandy 1000 SX (25-1051) is the perfect computer for your business. It's fifty-percent faster than the IBM PC and is software compatible with it as well. Also, because the Tandy 1000 SX features the MS-DOS® 3.2 operating system, there are thousands of software programs available right off the shelf—including some of the hottest software programs on the market today!

The DeskMate® Advantage

The Tandy 1000 SX comes with user-friendly DeskMate II multifunction software. We've improved DeskMate by adding a special task-switching feature that allows you to enter and exit programs

with greater ease. Of course the applications that make DeskMate so popular are included: Text Processing, Spreadsheet Analysis, Electronic Filing, Calendar/Alarm, Telecommunications* and Electronic Mail*. DeskMate II can also be used in a local area network because it's compatible with ViaNet.

Packed With "Extras"

Many features that are standard on the Tandy 1000 SX cost extra on other systems. We include adapters for a monochrome or color monitor, as well as adapters for a printer, light pen and joysticks. Whatever your computer needs, you'll find the Tandy 1000 SX is the most powerful computer for the money.

*DeskMate communications require optional modem.

The Tandy 1000 SX is Packed With Features For High Speed Performance

Engineered With Your Business in Mind

The Tandy 1000 SX is centered around the 8088 microprocessor. This ensures compatibility with industry-standard MS-DOS software. But with the 1000 SX, you can run virtually all of your software one and one-half times as fast as the other "industry-standard" computers.

Expands Easily

To complement this new level of sophistication, the Tandy 1000 SX comes with 384K RAM, expandable to 640K on the main board, and two 5 $\frac{1}{4}$ " floppy disk drives.

We've also included 5 expansion slots so you can easily expand your system as your business requires. The expansion boards are user-installable, and you can choose from memory expansions, internal modems—even a 20-megabyte hard disk card!

You can also add an 8087 Math Co-Processor so you can perform complex math functions while performing other functions at the same time.

More Features and "Extras"

The Tandy 1000 SX features a keyboard with 90 keys, including a numeric-entry keypad. There are also 12 programmable function keys for your own special applications.

With the Tandy 1000 SX, most of the "options" you'd expect to pay more for are included. Adapters are built in for easy hookup to a monochrome or color monitor. You can even display high-resolution graphics on our lowest-priced monitor. You also get adapters for a printer, joysticks and light pen.

Compare the Tandy 1000 SX to the IBM® PC

Feature	Tandy 1000 SX	IBM PC
Microprocessor	8088	8088
Clock Speed	7.16/4.77 MHz	4.77 MHz
Memory Size	384K	256K
Monochrome Graphics	Yes	Option
Color Graphics	Yes	Option
Printer Interface	Yes	Option
Joystick Interface	Yes	Option
Light Pen Interface	Yes	No
Floppy Disk Drives	2	1
PC Expansion Slots	5	5*
MS-DOS/BASIC Included	Yes	Option
Bundled Applications Software	Yes	No

*One each used for floppy and video support

Network Ready

With the Tandy ViaNet local area network, you can connect your existing MS-DOS based computers to the Tandy 1000 SX and communicate with your staff in an expedient, time-efficient manner. Users and departments are able to work together more effectively than ever before. Send memos, accounting reports and other important messages via computers, eliminating lost memos, forgotten meetings or incomplete reports. ViaNet can use any mix of MS-DOS computers. Computer power can be physically located where it's needed, so ViaNet reduces the duplication of computer resources.

SPECIFICATIONS

Microprocessor: Intel 8088, Clock Speed: 7.16/4.77 MHz, software selectable.

Operating System: Includes MS-DOS 3.2 with GW-BASIC. Reference manuals extra.

Memory: 384K RAM, expandable to 640K. Includes power-up diagnostics.

Keyboard: Integral 90-key sculptured, including numeric entry keypad. Special keys include HOLD, ESCape, BREAK, CTRL, INSERT, DELETE and HOME. Twelve programmable function keys.

Video Display: Optional high-resolution, non-glare 12" Monochrome (green) or 13" RGBI Color Monitor. 80 or 40 characters per line by 25 lines. 256 characters. Reverse

video, blank, blink. 16 colors and 8 background colors. High-resolution monochrome and color graphics (640 x 200 pixels). Displays 8 of 16 colors.

Disk Drives: Two double-sided, double-density, 360K (formatted) thin-line 5 $\frac{1}{4}$ " mini-floppy drives. (48 tracks per inch)

Internal Expansion: Five user-accessible IBM PC-compatible card slots (10" maximum length), 8087 Math Co-Processor socket.

External Connections: Standard parallel port, composite video out, line level audio out, light pen port, two joysticks, RGBI Color Monitor. AC outlet.

Power: 120 VAC, 50/60 Hz.

Hardware Options That Will Enhance Your Tandy 1000 SX

We offer the monitor that is right for your business and your budget. The new VM-4 Monochrome Monitor (25-1020) features a 12" screen with 80×25 text, 640×200 graphics. Color monitor options include the new CM-5 RGBI (25-1023), 13" screen with 80×25 text, 320×200 graphics or the new CM-10 (25-1022), 13" with 640×200 graphics. Our new Dual Display Graphics Adapter (25-3045) lets you display up to 720×348 graphics on the VM-3 monochrome monitor.

For greater cursor control get the Two-Button Digi-Mouse (26-1197) or Deluxe Joystick (26-3012). Both are ideal for graphics programs and give you easy cursor movement.

Access information services with our 1200-Baud PC Modem (25-1013) with auto dial. Compatible with most communications software, the 1200 bps operation cuts long-distance "on-line" time to a minimum.

When you need to expand or upgrade, Radio Shack offers the best in expansion options. Our 256K Parity Memory Kit (25-3062) adds 256K memory to your system. Our Hard Disk Controller Board (25-1007) lets you add hard disk drives for up to 70 million characters of storage for data and programs. And with the Digi-Mouse Controller/Calendar Board (25-1010) you won't ever have to enter time and date again.

The PLUS Upgrade Adapter Board (25-1016) allows you to use PLUS boards in a Tandy 1000 SX card slot. There are a number of PLUS upgrade boards to choose from, including the RS-232C Option Card (25-1014) that lets you talk to other computers with appropriate software, and the PLUS Digi-Mouse Controller/Calendar Board (25-1015). PLUS boards

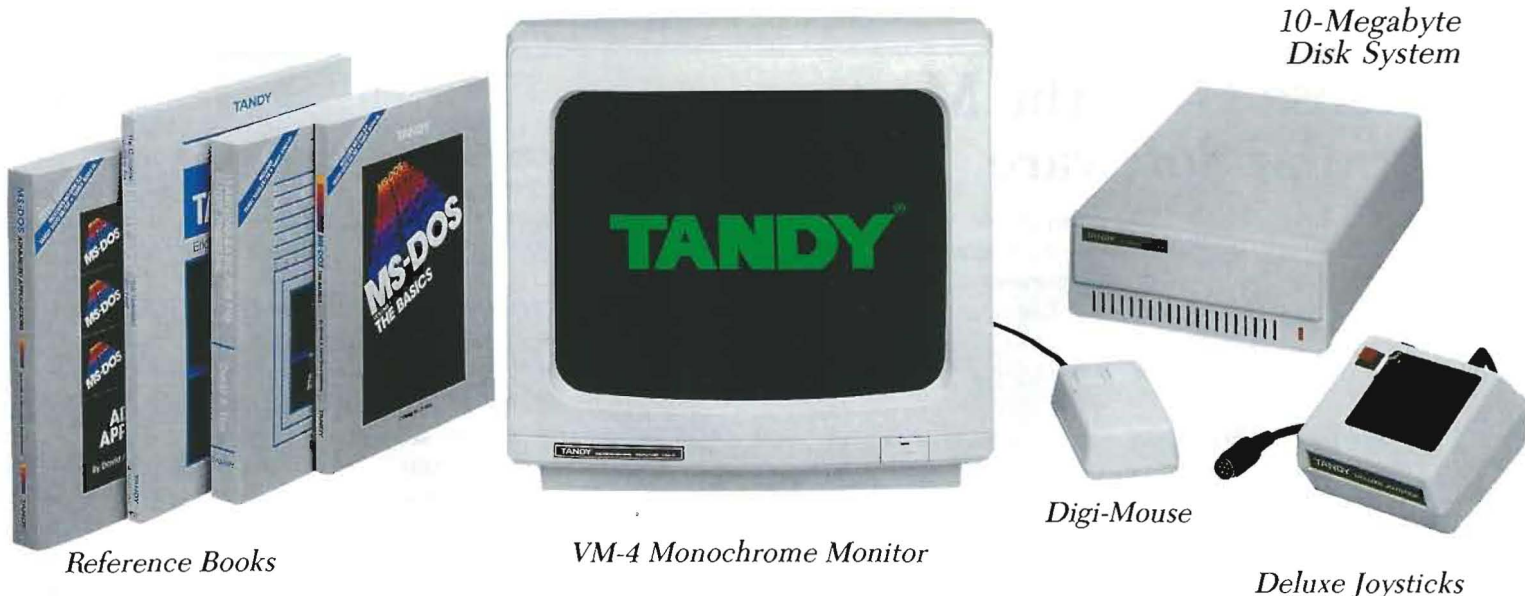

are also available for telecommunications, including the 300-Baud PC Modem Board (25-1017) and our 1200-Baud PC Modem Board (25-1018). As a low-cost educational tool, we offer the PLUS Network 4 Interface (25-1019).

For fast access to volumes of data, get the 10-Megabyte Hard Disk Drive (25-1025), which allows 10 million characters of data storage. For hard disk storage that saves space, get our new 20-Megabyte Hard Disk Card (25-1029). It allows 20 megabytes of storage on a 10" card slot on your 1000 SX. As an external data storage device, our Disk Cartridge System is hard to beat. The Disk Cartridge System is available with two twenty-megabyte drives (24-4066) or with one ten-megabyte drive (26-1245). You can store an unlimited amount of data just by adding more removable cartridges. Requires Interface Kit. Don't lose important data when you can back it up easily on our TCS-100 Tape Cartridge System (25-3021). The TCS-100 uses 1/4" cartridges for over 48 megabytes of archival storage.

Increase your computer reference library with some great books from Radio Shack. Titles include *MS-DOS: The Basics* (25-1506) and *MS-DOS: Advanced Applications* (25-1507), and the *MS-DOS/GW-BASIC Reference Guide* (25-1508).

For an excellent tutorial in BASIC programming choose *Learning BASIC for Tandy Computers* (25-1500). Finally, for a thorough examination of our most popular personal computer get *The Complete Guide to the Tandy 1000* (25-1505).

Event Calendar

Function Menu Displays The Files
You Have Created For Each
Separate Function

Simple Control-Key Commands
Are Displayed For Easy Quick
Reference

The Tandy 1000 SX beats the crowd because this multifunction disk software is included at no charge. DeskMate II is user-friendly, using the same commands throughout all applications. Each day you'll be greeted by a menu that displays a calendar, appointment schedule and a list of each file stored for every function.

The new DeskMate II includes a task-switching feature so you can exit DeskMate II, enter an applications program, then return to DeskMate II—all with just a few keystrokes. And now you can use DeskMate II in a network capacity with the ViaNet local area network system. DeskMate II includes six popular programs:

Text. Word processing made simple. Control-key editing features make it easy to compose and edit letters, memos and reports right on the screen. Then print as many correction-free copies as you wish with an optional printer.

Worksheet. This electronic spreadsheet uses simple "plain English" entries to make complex calculations instantly. Perfect for everything from personal finance to marketing.

File. Create a name and address file, small inventory list and more. Sorts and prints files in any order.

Telecom*. Communicate with a host computer or access national information services. You can even dial the phone number of anyone listed in your FILER at the touch of a key!

Mail*. Lets you send and receive messages to and from other DeskMate and DeskMate II users over the phone.

Calendar. Sets up an agenda for an entire month and keeps track of daily appointments as well. Includes an alarm to remind you of special dates.

*DeskMate communications require optional modem. DeskMate II requires 80-column monitor.

Choose From the Most Popular Software

Since the Tandy 1000 SX is compatible with the IBM® PC, there are thousands of programs currently available, and the list is growing every day. Many powerful MS-DOS software packages are available off-the-shelf at Radio Shack Computer Centers. Plus, you can order some of the hottest names in software from our exclusive Express Order Software service.

Put your Tandy 1000 SX to work with our Quartet™ Integrated Accounting system—four programs in one. For spreadsheet analysis use Multiplan. Or choose an integrated program like Lotus 1-2-3™ that combines spreadsheet analysis, graphics and information management.

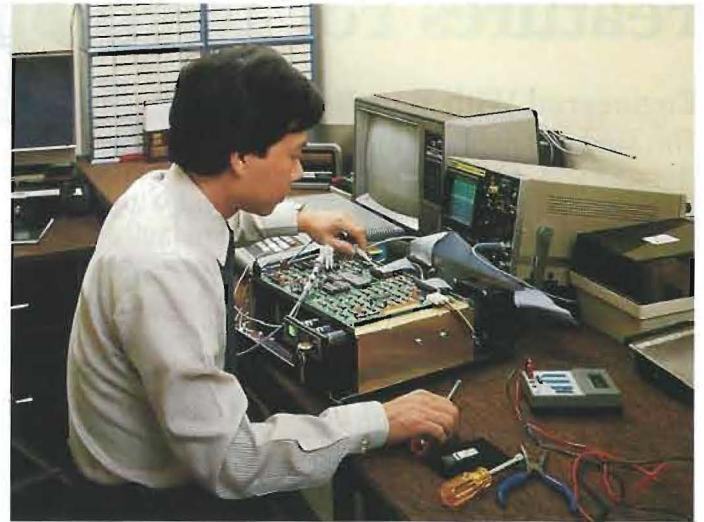

For database management you can choose pfs:file, which integrates with the other pfs:series of software productivity programs or choose a powerful database management system such as dBASE III Plus or R:BASE 5000. For the best in word processing choose from our popular SCRIPSIT®, WordStar or Microsoft Word. And with Microsoft Chart or DecisionResources Chart-Master, you can produce impressive charts and graphs for those important presentations.

We also carry a wide selection of low-cost personal software, like Managing Your Money by Andrew Tobias. Choose from easy word processing programs to exciting games and helpful education packages. The Tandy 1000 SX is your key to great software—whatever your business or personal needs.

Tandy Computers are Backed With Total Support

Professional Training. Radio Shack's training and support is unequalled in the industry. You can select from a variety of courses taught at over 60 Computer Centers across the country. Or choose on-site instruction available through Customer Training and Support Centers in 60 major metropolitan areas.

Nationwide Service. 188 strategically located company-owned Radio Shack Computer Service Centers assure convenient service nationwide—performed by employees of the same company that manufactured and sold you your computer. We back the products we sell.

Customer Support. Radio Shack provides more support operations at less cost (much of it free of charge, in fact) than any other microcomputer company. Our support specialists are your "on-demand" experts, and can be reached by telephone hotline at 60 nationwide support operations centers.

Commercial Leasing. Your business may lease computer systems on a 37-month lease. Payments may be fully tax deductible since ours is a true lease. Leasing terms are also available for non-profit, governmental and educational organizations, too. Get details at any Radio Shack Computer Center.

Available at over 1200
Radio Shack Computer Centers and at
participating Radio Shack stores and dealers.
