TANDY CORPORATION ANNOUNCES THE TANDY 1000 SX COMPUTER

FORT WORTH, TEXAS -- Tandy Corporation today announced the Tandy® 1000 SX computer, a PC-compatible business computer priced at \$1,199, that runs 50 percent faster than the PC. The Intel 8088 microprocessor-based system runs most MS-DOS® software at 7.16 MHz, and is software switchable to 4.77 MHz. The Tandy 1000 SX computer features two disk drives, more memory, and more expansion slots than the original Tandy 1000 computer.

"Business and serious home users tell us they want a dependable, low-cost computer that runs the software they already own but at a higher speed. Greater memory and expansion capabilities are also in high demand by our business users," said John V. Roach, chairman, CEO and president of Tandy Corporation.

"The Tandy 1000 SX computer meets these needs and is the logical successor to the popular Tandy 1000 -- the best-selling PC-compatible in U.S. retail sales," he said.

-MORE-

Tandy 1000 SX Computer -- ADD ONE

The Tandy 1000 SX computer features 384K RAM expandable to 640K RAM on the main board, two built-in 5-1/4 inch, 360K floppy disk drives and five 10-inch, PC-compatible card slots. It also supports the ViaNet™, Network 4 and PC Net® networks.

Every Tandy 1000 SX computer comes with DeskMate® II software, an updated version of Tandy's popular six-in-one applications package, featuring word processing, spreadsheet analysis, electronic filing, calendar/alarm, telecommunications, and electronic mail functions.

A new task-switching feature permits the user to exit from DeskMate II, enter an applications program, then return to DeskMate II, with just a few keystrokes. DeskMate II is compatible with ViaNet, so the computer is software-ready for use in a local area network. Microsoft's MS-DOS 3.2 operating system with GW-BASIC® also is included with every Tandy 1000 SX computer.

The Tandy 1000 SX computer (cat. no. 25-1051) is available now at more than 7,000 Radio Shack® Stores, Radio Shack Computer Centers, and participating dealers nationwide.

The Tandy 1000 SX computer is made in the United States by Tandy Corporation, the leading manufacturer of PC-compatible computer products.

TANDY 1000 SX
FACT SHEET

The Product

- o The Tandy 1000® SX computer succeeds the Tandy 1000 computer in the business and serious home computer market.
- o It offers greater speed, more memory, and more expansion capabilities than the original Tandy 1000 computer, for an affordable \$1,199.
- o It runs 50 percent faster than the PC. The Intel 8088 microprocessor operates at a 7.16 MHz clock speed and is software switchable to the standard 4.77 MHz.
- o ViaNet™, Network 4 and PC Net local area networks are supported by the Tandy 1000 SX computer.
- o Comes with DeskMate® II, an updated edition of the popular Tandy DeskMate six-in-one applications software package.
- o The Tandy 1000 SX personal computer and DeskMate II software come with an easy-to-understand tutorial manual, a reference manual and a quick-reference guide. The tutorial easily takes even the newest computer user through all of the computer's basic functions.
- o MS-DOS® 3.2 disk operating system and GW-BASIC® software are included in the base price. (Full MS-DOS/GW-BASIC reference manuals are sold separately).
- o A wide variety of expansion options are offered from Radio Shack and other sources through Radio Shack's Express Order Hardware program.
- o Available at more than 7,000 Radio Shack® Stores, Radio Shack Computer Centers and participating dealers nationwide.

The Software

- o DeskMate II, an easy-to-use, Tandy-developed program is an easy introduction to a variety of application programs. It introduces the user to applications without the expense of purchasing additional software.
- o A task-switching feature permits the user to exit from DeskMate II, enter an applications program, then return to DeskMate II, with just a few keystrokes.
- o DeskMate II software supports the ViaNet™ local area network.

- The Integrated DeskMate II package includes six programs:
 - Text, a simple word processor, for composing and editing text on the screen, and printing.
 - Worksheet, an electronic spreadsheet that uses simple "plain English" entries to make complex calculations. Displays "What if...?" situations in seconds.
 - Filer, for creating a name and address file, small inventory lists, etc. Files can be sorted into one or more fields and printed in any order desired.
 - Telecom, when used with a telephone modem, is for telecommunications with a host computer, information service or another terminal. Provides autodial and auto log-on plus terminal functions.
 - Calendar, for managing an agenda, as well as a daily appointment calendar. A schedule of events can be placed in an alarm file that will sound an alarm through the Tandy 1000's built-in speaker.
 - Mail, a special program for sending and receiving messages to and from other DeskMate II software users over the telephone. Uses DeskMate II's "Host" mode.

The Hardware

o Base price of \$1,199 includes:

- 384K RAM expandable to 640K RAM on the main board.
- Two built-in, double-sided, double-density 360K formatted thin-line 5 1/4 inch, floppy disk drives.
- Standard external connectors for:
 - printer
 - two joysticks
 - light pen
 - monochrome monitor
 - composite video and audio
 - RGBI color monitor

OPTIONS:

- | | |
|----------------------------|--------------------|
| - VM-4 Monochrome Monitor | (25-1020) \$129.95 |
| - CM-5 RGBI Color Monitor | (25-1023) 299.95 |
| - CM-10 RGBI Color Monitor | (25-1022) 459.95 |

o Internal expansion available through five user-accessible PC-compatible card slots (10 inch maximum) and socket for 8087 co-processor.

Expansion boards and other options include:

- 256K Parity Memory Kit	(25-3062)	\$ 129.95
- 8087 Math Co-Processor	(25-1012)	229.95
- Digi-Mouse™ Controller/Calendar	(25-1010)	99.95
- Digi-Mouse	(26-1197)	99.95
- 1200-Baud PC Modem	(25-1013)	199.95
- Dual Display Graphics Adapter	(25-3045)	249.95
- Hard Disk Controller Board	(25-1007)	299.95
- PLUS RS-232C Option Card	(25-1014)	79.95
- PLUS Digi-Mouse™ Controller/Calendar	(25-1015)	99.95
- PLUS 300-Baud PC Modem	(25-1017)	99.95
- PLUS Network 4 Interface	(25-1019)	299.95
- PLUS Upgrade Adapter Board	(25-1016)	14.95
- PLUS 1200-Baud PC Modem	(25-1018)	199.95
- 20-Meg Hard Disk Card	(25-1029)	799.00
- 10-Meg Hard Disk Drive	(25-1025)	699.00
- TCS-100 Tape Cartridge System	(25-3020)	1999.00
- TCS-100 Interface Kit	(25-3021)	149.95
- 20 + 20-Meg Disk Cartridge System	(25-4066)	3499.00
- 10-Meg Disk Cartridge System	(26-1245)	2195.00
- Secondary 10-Meg Disk Cartridge	(26-1246)	999.00

Select list of options for the Tandy 1000 SX Computer
Available through Radio Shack's Express Order Hardware program

Shorthaul Modem™	(90-2004)	\$ 125.00
(Modem/line driver for linking any RS-232-based devices.)		
Linkup System XT™	(90-2010)	395.00
(A half-height board allowing high speed communications.)		
Linkup System XT SNA 3270	(90-2011)	390.00
(Emulates REMOTE 3270 display station using SNA/SDLC protocol.)		
Linkup System XT BSC 3270	(90-2012)	390.00
(Emulates REMOTE 3270 display station using BSC protocol.)		
Linkup System XT BSC 3780	(90-2014)	390.00
(Emulates REMOTE 3780 or 2780 RJE Display Station.)		
Warp Speed™ Light Pen	(90-2069)	199.99
Lite-Pen Company Light Pen	(90-2085)	179.95
X RAM™ Memory Expansion Board	(90-2079)	299.95
(Adds up to two megabytes of memory.)		
Color Commander™	(90-2077)	359.00
(Adds color variety to graphics. RGB, CM-2, CM-4 and CM-10 monitors.)		
2400 Baud Half-Card Modem™	(90-2067)	695.00
