NEW TANDY 102 LAPTOP COMPUTER GIVES USERS TRUE PORTABILITY

Tandy Corporation's newest addition to its line of laptop computers, the Tandy® 102 portable computer, is now available at more than 7,000 Radio Shack® Stores, Computer Centers® and participating dealers nationwide.

The 102 is an improved version of the industry's best-selling laptop computer, the Model 100 portable computer. The 102 is compatible with all Radio Shack hardware and software for the Model 100 portable computer.

Weighing only three pounds, the Tandy 102 portable computer has a thinner profile (1.5" x 11.8" x 8.5") than the 100 yet contains exactly the same features.

The Tandy 102 portable computer uses an 8-bit 80C85 microprocessor with a clock speed of 2.4 MHz. The standard 24K memory is expandable to 32K.

The Tandy 102 portable computer features a 40 character x 8 line LCD display with large upper and lower case easy-to-read ASCII characters and a full-size 56-key typewriter style keyboard with embedded 10-key datapad, eight programmable function keys, four command keys and four cursor control keys.

(more)

Tandy 102 Portable Computer
Add One

The 102 includes five built-in ROM software programs, BASIC, TEXT, TELCOM, ADDRSS and SCHEDL, for text editing, address/telephone filing, appointment record-keeping, telecommunications and BASIC language programming.

Users have the ability to access other computers or national information services by phone with the computer's internal 300-baud direct-connect auto-dial modem.

Interfaces for the 102 include the RS-232C serial communications port, parallel printer, cassette tape and bar code reader. An improved system bus connector has been moved to the back panel of the computer, from its bottom location on the Model 100 portable computer.

The Tandy 102 portable computer will operate up to 20 hours using four "AA" alkaline batteries (not included). An optional U.L. listed AC power supply is available. Internal rechargeable nickel cadmium batteries will maintain memory intact for 30 days if power is off (depending on the amount of RAM installed) and are automatically recharged from the AA batteries or AC power.

Suggested retail price for the 24K Tandy 102 portable computer (Cat. No. 26-3803) is \$499.

FACT SHEET
TANDY 102 PORTABLE COMPUTER

- o The Tandy 102 portable computer is an improved version, with software and hardware compatibility, of the industry's best-selling Model 100 portable computer.
- o The Tandy 102 portable computer weighs less (3 lbs.) and has a thinner profile (1.5" x 11.8" x 8.5") than the Model 100 portable computer yet offers exactly the same features.

HARDWARE

- o 24K RAM is standard, expandable to 32K with 8K RAM upgrade kit, priced at \$14.95.
- o 40 character x 8 line LCD display. Easy-to-read upper and lower case ASCII characters, 240 x 64 dot-matrix graphics.
- o Full-size typewriter style keyboard with embedded 10-key datapad, eight programmable function keys, four command keys and four cursor control keys.
- o Internal 300-baud direct-connect auto-dial modem for easy access to other computer systems or national information services.
- o 8-bit 80C85 microprocessor, 2.4 MHz clock speed.
- o The Tandy 102 portable computer includes interfaces for standard RS-232C serial communications, parallel printer, cassette tape and bar code reader. The system bus interface is located on the back of the computer as opposed to underneath on the Model 100 portable computer.
- o Up to 20 hours of operation on four "AA" alkaline batteries (not included) or optional U.L. listed AC power supply. Internal rechargeable nickel cadmium batteries will maintain memory intact for up to 30 days with power off (depending on the amount of RAM installed) and are automatically recharged from "AA" batteries or AC power. Low battery indicator light.

ACCESSORIES

- o The Model 102 portable computer has the following accessories available: printers, a floppy disk drive/video interface, portable 3 1/2" micro floppy disk drive, bar code reader, cassette and disk software, additional memory upgrades and a soft carrying case.

AVAILABILITY/PRICE

- o The Tandy 102 portable computer (Cat. No. 26-3803) is now available for a suggested retail price of \$499 at all Radio Shack Stores, Radio Shack Computer Centers, Plus Computer Centers and participating dealers nationwide.
