Tandy 3000 HL 1699⁰⁰

Only \$65 Per Month on
Our Commercial Lease
(Plus Applicable Use/Sales Tax)

- Fully Compatible With The IBM® PC/XT
- MS-DOS® System Allows You to Use the Hottest Names in Software
- Network Compatible With All MS-DOS Computers

Microprocessor: Intel 80286 processor with 16-bit data path.

Operating System: Optional Microsoft MS-DOS 3.2.

Memory: 512K RAM with parity, expandable to 640K.

Disk Drive: Built-in 5 1/4" floppy reads 360K formats.

Video Display: Optional mono or color monitor.

Internal Expansion: Seven plug-in card slots (three 16-bit, four PC/XT-compatible).

IBM/Registered TM International Business Machines Corp. MS-DOS/TM Microsoft Corp.

Tandy 3000 HL. Our latest IBM® compatible. The 3000 HL is the basic building block of business systems. We made it faster than the PC/XT and gave it plenty of memory—and that's good news for your business. The 3000 HL comes with 512KB memory, and expands to 640K (or up to 4 megabytes using the expansion slots).

The Tandy 3000 HL uses the most popular MS-DOS packages available off-the-shelf—so you can get all the software you need, when you need it.

We also made the 3000 HL network compatible with all MS-DOS-based computer systems. This allows you to send memos, reports and other data around your company quickly.

For PC/XT compatibility with more power and versatility, at a much lower cost, the Tandy 3000 HL is the business computer for you.

A DIVISION OF TANDY CORPORATION

Tandy® brings it all together!

ViaNet®

Today's most flexible local area network for MS-DOS® based computers

Our new ViaNet local area network (LAN) lets you interconnect your Tandy, IBM® PC and PC-compatible computers.

The advantages of working together.

With ViaNet, you can still use your pc as a stand-alone system. But since it's linked with the other pc's in your office, you can get the information you want*, when you want it, without walking around swapping diskettes. Add software like The Network Courier (26-1228, \$695) and send messages, files and other "electronic mail" with just a few keystrokes.

But that's not all. Since you can also share accessories, you could pull the latest sales figures from the system at point B

and print a spreadsheet on your printer or the letter-quality printer at point C.

Networking isn't new. ViaNet is.

Some networks require a dedicated file server—a pc that "serves" the network, but doesn't serve much else. ViaNet lets you use one of your hard disk based computers as a file server and for other tasks. Installation is extremely simple, and operators must learn only four new commands.

And the cost? Putting ViaNet to work in a small network can cost less than what you'd expect to pay for a single workstation. For a brochure and a demonstration, visit your Radio Shack Computer Center today.

The PC/AT® Compatible Tandy 3000 HD

**Our Most Powerful Computer—
The Affordable Solution to
Your Business Demands**

Tandy 3000 HD with
40-Meg Hard Disk

4299⁰⁰

- Software and Hardware Compatible with the IBM® PC/AT and PC/XT
- Uses the MS-DOS 3.2 Operating System
- 8-Megahertz 80286 CPU—Twice the Speed of Industry Standards

System Overview

Microprocessor: 8-megahertz, 16-bit 80286.

Memory: 640K RAM, expandable to 12 megabytes under XENIX.

Disk Storage: One 1.2-megabyte floppy and one 40-megabyte hard disk drive.

Optional Graphics: 320 × 200 in 16 colors, 640 × 400 in 4 colors.

Optional Operating Systems: MS-DOS® 3.2, XENIX® multiuser.

Expansion: 7 PC/AT-compatible slots, 2 PC/XT-compatible slots, 1 PC/XT-compatible half-slot for the serial/parallel adapter (included at no charge).

The powerful new Tandy 3000 HD is the affordable answer to the IBM PC/AT. Here's all the power you'll need to manage your business, to network computers, or to create a multiuser system for your office. The Tandy 3000 HD is compatible with software designed for the IBM PC/AT and the PC/XT. Choose from advanced word processing packages to heavy-duty database management to accounting software. But when it comes to the 3000's versatility, compatibility is just part of the story.

The Tandy 3000 HD is designed to use the XENIX 5.0 multiuser operating system. In such a configuration, multiple display terminals will be able to tap the high-performance

80286 microprocessor. Thanks to its high processing speed, two to six users throughout an office will be able to use the Tandy 3000 HD simultaneously. Each user can work independently on such projects as accounting, word processing and electronic filing.

The Tandy 3000 HD comes with an Intel 80286 microprocessor for the ultimate in speed and performance. Its 16-bit architecture is designed to operate at 8 megahertz—twice that of the industry standard. And, with the new 40-megabyte hard disk, you'll have the storage capacity for the most demanding business data needs. (25-4011)

New

Tandy 1000 SX

Introducing Our Newest, High-Performance
IBM® PC-Compatible With DeskMate® II Software

1199⁰⁰

Less Monitor

Low As
\$55 Per Month
See Page 8

The new Tandy 1000 SX is an enhanced version of America's #1 PC compatible, the Tandy 1000 computer. The Tandy 1000 SX is centered around the 8088 microprocessor, ensuring compatibility with industry-standard MS-DOS software. But unlike other "industry standard" computers, you can run virtually all of your programs *one-and-one-half times faster* on a 1000 SX. To complement this new level of sophisticated performance, the 1000 SX comes with 384K RAM, expandable to 640K on the main board, and two built-in 5 1/4" disk drives. Adapters are built in for easy hookup to a monochrome or color monitor. Also included are adapters for a printer, joysticks or light pen, as well as the disk operating system (MS-DOS version 3.2) and BASIC. Best of all, we've included an improved version of our popular DeskMate® software at no charge. The new DeskMate II* features six applications on one disk: Text Processing, Spreadsheet Analysis, Electronic Filing, Calendar/Alarm, Telecommunications and Electronic Mail. And with the special task-switching feature, you can exit DeskMate, enter an applications program, then return to DeskMate—all with just a few keystrokes. (25-1051)

Powerful Business Printer Allows Customized Fonts

1295⁰⁰

Lease for
Only \$50
Per Month¹

DMP 2110. A fast dot-matrix printer that rivals a daisy wheel in print quality. The DMP 2110 (26-2810) is IBM® PC compatible and prints up to 240 characters per second. A Font Editing Package (sold separately) allows you to load different type styles for professional-looking reports and dramatic attention-getting letters. Includes a data processing mode for high-speed printouts, a single-pass word processing mode for letter-quality text, and a dot-addressable mode for graphics. The bi-directional tractor allows you maximum printing efficiency. You can use fanfold paper, pin-fed labels and pre-printed multi-part forms. Precision 24-wire print head and parallel interface. UL listed.

¹Plus applicable use/sales tax. IBM/Registered TM International Business Machines Corp.

Sale! Multiuser Database System

3-User Tandy 6000 HD
With Printer and Software

5499⁰⁰ Reg. Separate
Items 8057.65

Lease for Only \$185 Per Month¹

Multiply office productivity! Three employees can access, update and use the same file at the same time. Ideal for keeping track of personnel or customers, inventory, billing, mailing lists and much more. It offers the high operating speeds and large memory capacity that many business users require. And it handles complex jobs and highly sophisticated programs that only a 16-bit computer can. The Tandy 6000 HD features over 1 megabyte of memory, a built-in 15-megabyte hard disk drive and the XENIX® multiuser operating system. You also get a DMP 2200 printer, two DT-100 terminals, Profile 16 database software and cables.

¹Plus applicable use/sales tax. Complete system includes 26-6022, 26-1279, Two 26-6052, 26-6412, Two 25-3062, Two 26-1491, Two 26-1496, 26-6460 and 26-4401. XENIX/Reg. TM Microsoft Corp.

New

Get the Efficiency of a Phone and Modem in a Single Unit!

99⁹⁵ Low As \$20 Per Month (See Page 8)

Modemfone™ 100. Now for about the same price you would expect to pay for just a modem, you can get a full-feature telephone as well! The Modemfone 100 connects to any modular phone jack and to the RS-232 port of your computer—putting an end to confusing cable hookups. Forget about the added expense of an extension phone. Access national information services or talk to other computers directly from this integrated unit. The Modemfone 100 has a full-duplex, originate/answer modem that operates at 300 bps and is Bell 103 compatible. The telephone includes one button touch-redial and switchable touch-tone/pulse dialing. The Modemfone 100 is also hearing-aid compatible and has an adjustable ringer volume. FCC registered. UL listed AC. (26-1386)

Use only with Bell-compatible equipment. Direct-connect modems are not for multi-line use without optional extra controller.

Great Sale Prices in Computing
