The Tandy[®] 3000 HL

An AT/XT compatible
ready for tomorrow's
OS/2TM software.

The Tandy 3000 HL is ready to run today's PC XTTM and AT[®] programs, as well as the OS/2 software of tomorrow—you get the best of both worlds in software.

The 3000 HL features a 5 1/4" disk drive, with room for two more internal drives—3 1/2", 5 1/4", hard disk or disk cartridge systems. Powered by an 8 MHz 80286 microprocessor, the Tandy 3000 HL lets you run programs faster than ever. And you can connect the 3000 HL with other computers in a 3Com[®] workgroup for maximum office efficiency. Its highly expandable design lets you custom tailor the HL to your needs.

Tandy 3000 HL Features:

80286 Microprocessor

Operating at 8 MHz, the Tandy 3000 HL's advanced 16-bit Intel® 80286 microprocessor gives you high performance with today's software—and even more later on. The HL is the affordable AT/XT compatible.

OS/2 Ready

Although capable of running current AT and XT software with remarkable speed and precision, the 3000 HL is configured to use the OS/2 operating system. Programs designed for OS/2 will allow greater utilization of memory.

Wide Software Selection

Because the Tandy 3000 HL also uses the industry-standard MS-DOS® operating system, you can run the hottest names in software—all available off the shelf. Choose from advanced word-processing packages and heavy-duty database management to accounting software.

Remarkably Expandable

Because we know how quickly your business can grow, we made sure the Tandy 3000 HL has room for flexible expansion. It comes standard with seven expansion slots: four 8-bit/XT compatible slots and three 16-bit/AT-compatible slots. Expand with more memory, hard disk drives, communications and more. An optional 80287 math co-processor can be added for high-speed numerical operations.

The 3000 HL comes standard with a 360K 5¼" disk drive. And its open architecture lets you add a high-capacity 3½" drive later on. You can also add the hard disk of your choice—20 meg, 40 meg, even an internal disk cartridge system.

The Tandy 3000 HL comes with 512K memory and can be expanded to four megabytes using the built-in expansion slots.

Workgroup Solutions

The Tandy 3000 HL makes an ideal workstation for a 3Com workgroup. Workgroups allow for the exchange of information between workstations and the sharing of peripherals like modems and printers.

Keylock and Chassis Lock

A system keylock is included to protect your data from unauthorized access. This keylock prevents keyboard use, system reset, and also locks the chassis to prevent cover removal.

Built-In Real-Time Clock

For better office efficiency, the Tandy 3000 HL features a built-in real-time clock with battery backup for automatic date and time-stamping of all jobs, process control and other time-sensitive applications.

Tandy 3000 HL Specifications

Microprocessor:	Intel 80286 processor with 16-bit data path. Switchable clock speed, 8/4 MHz. Object code compatible with 8086/8088. Real-time clock with battery backup.
Operating System:	Optional Microsoft MS-DOS 3.2 with BASIC.
Memory:	512K RAM with parity. By using the expansion slots, memory is expandable to 4 megabytes.
Keyboard:	101-key enhanced keyboard, including separate cursor and numeric pad, 12 function keys. Special keys include ESCape, Num Lock, Alt, Ctrl, Caps Lock, Prt Sc, Sys Req, Scroll Lock, Up, Down, Right and Left arrows. Retractable legs, 6-ft. coiled cable.
Video Display:	Optional high-resolution, non-glare, non-interlaced 12" monochrome or 14" color monitor. 80 or 40 characters per line by 25 lines. Monitor adapter required.
Disk Drives:	Built-in thin-line 360K 5¼" floppy disk drive. Disk storage is expandable to include two floppy drives (3½" or 5¼") and one hard disk drive, or one floppy disk and two internal hard disk drives. Total internal storage can exceed 80 megabytes.
Internal Expansion:	Seven plug-in card slots: three AT-compatible slots, four XT-compatible slots. Optional 80287 math co-processor can be added.
External Connections:	Standard parallel printer port.
Dimensions:	6⅞ × 17 × 15½".
Weight:	35 lbs.
Power Requirements:	Input: 120VAC, 60 Hz. Output: 130 watts. U.L. listed.
