Tandy® Daisy-Wheel Printers

**Get letter-quality
results for personal
or professional use.**

DWP 520. With features usually found in printers costing much more, the business-minded DWP 520 produces incredible high performance and durability. And with printing at up to 500 words per minute, the DWP 520 is sure to save your office plenty of time as well. Designed to meet almost any task, this printer supports bold-face, strike-through, double-underline, super and subscripts, and it allows you to use print wheels with different pitch or special characters.

DWP 230. For crisp, clear correspondence, reports and memos, this IBM® PC-compatible printer delivers an "electric typewriter" look. The DWP 230 is our lowest-priced daisy-wheel printer, yet it delivers letter-quality printing at up to 200 words per minute. Very much a quality performer, the DWP 230 utilizes interchangeable 96-character print wheels—you can give what was once "ordinary" correspondence an attention-getting new look. The DWP 230 also features forward and reverse paper feed, 1/2-line feed, underline and programmable backspace.

Tandy Daisy Wheel Features

High-Speed Operation

Tandy Daisy Wheel Printers can print with each pass of the carriage—from left to right and back again from right to left. And the carriage travels no further than necessary, printing indented blocks of text faster than full-width blocks. You'll get your professional-quality reports—in record time.

Interchangeable Print Wheels

Both printers come with a Courier 10 print wheel, and both accept a wide variety of print wheels. You have the freedom to change to a print wheel with a different type font to give your printed reports real style.

PC Compatible

Tandy Daisy Wheel Printers are compatible with Tandy and IBM PC software, opening the door to a wide selection of programs.

Flexible Print Formats

Both printers accept standard $8\frac{1}{2} \times 11$ " single sheets, plain or letterhead. And because they accept paper up to 16" wide, you can print 132-column spreadsheets, charts and tables with the same crisp, typewriter-quality look you give your correspondence.

Fanfold Option

For non-stop printing, a bi-directional tractor can be added. A tractor aligns fanfold paper and keeps it in place during printing to eliminate uneven lines. Paper is pulled through the printer automatically, providing even, consistent printing.

Ready to Use

A standard Centronics-style parallel printer interface lets you use Tandy Daisy Wheel Printers with any Tandy desktop or portable computer as well as most other PC compatible computers. The DWP 230 is also compatible with the Tandy Color Computer. Each printer comes with print wheel and easily-replaceable carbon ribbon—just add cable.

DWP 520 Specifications

Print Speed:	19.5 lines per minute at 10 characters per inch, 132 column. 43 characters per second.
Carriage Motion:	Bi-directional, optimal motion seeking.
Character Set:	96 (modified ASCII, plus special and international), 21 control codes.
