RADIO SHACK INTRODUCES GRAPHICS-ORIENTED PERSONAL DESKMATE 2 SOFTWARE

NEW YORK CITY--Radio Shack®, a division of Tandy Corporation and leading retailer of personal computers and computer products, introduced today Personal DeskMate™ 2 software, the second generation of its graphics-oriented Personal DeskMate applications productivity package.

Personal DeskMate 2 software is supplied with the new Tandy® 1000 TX and Tandy 1000 HX personal computers, along with MS-DOS® operating systems and GW-BASIC® programming language. Especially when used with a mouse, the Personal DeskMate 2 software brings a graphics-oriented user interface--rivaling the best available today, yet in color--to low-cost PC-compatible computers. It also provides the software necessary to start using the computer right away at no additional expense.

Using Microsoft's® Windows conventions, the Personal DeskMate 2 program features easy-to-use pull-down menus and pop-up dialog boxes for selecting applications such as Text, Worksheet, Filer, Calendar and Telecom plus special functions including a Phone Directory, Calculator and Notepad.

PERSONAL DESKMATE 2
Add One

All of these applications can easily be accessed by a joystick, newly simplified keyboard interface or a mouse, the more popular pointing device used in many classrooms, homes and business offices.

The program also includes an improved 16-color Paint program and a new Music composition program that take advantage of the computers' three-voice sound and enhanced graphics. In the Tandy 1000 HX personal computer, the simplified keyboard interface and support of Personal DeskMate 2 software in read only memory (ROM) create a faster, more user-friendly operation.

Current owners of Tandy 1000, Tandy 1000 EX and Tandy 1000 SX personal computers may also purchase Personal DeskMate 2 (Cat. No. 25-1177) for a suggested retail price of \$99.95. Prices are good at more than 7,000 Radio Shack Stores, Radio Shack Computer Centers®, Radio Shack Plus Computer Centers™ and participating dealers nationwide.
