VERSATILE COLOR COMPUTER 3 ADDS COLORFUL SAVINGS TO CHRISTMAS

Looking for an affordable and versatile computer for the family? Radio Shack®, the largest retailer of computer and consumer electronics, can add a splash of colorful savings to this Christmas and please any budget with the powerful, new Tandy® Color Computer 3™.

Sale priced at \$129.95, the Color Computer 3 displays a greater range of colors than many personal computers on the market today, including previous Color Computer models. Its advanced graphics resolution lets users choose 16 of 64 different colors to create vivid, detailed charts, graphs and drawings.

The ready-to-run Color Computer 3 can be used for a variety of purposes including budgeting, word processing, graphics design, database management and spreadsheet analysis as well as entertainment for the entire family. A popular choice of many school education programs, the Color Computer 3 is also an excellent home education tool to teach children BASIC programming, vocabulary, reading and mathematics skills.

Color Computer software make great Christmas stocking stuffers. More than 150 educational, entertainment, personal, business and household software programs plus an assortment of

accessories, including a color mouse, deluxe joysticks, hard disk interface and direct-connect modem, are compatible with the Tandy Color Computer 3. DeskMate 3™, a popular version of Radio Shack's integrated personal productivity software series designed specifically for the Color Computer 3, gives users seven, easy-to-use applications in one package.

The Color Computer 3 can be connected to any television set or a high-resolution CM-8 color monitor featuring a 13-inch screen and built-in speaker with volume control. All connectors and accessories needed to connect the computer to a television are included.

The Color Computer 3 comes with 128 kilobytes of memory, expandable to 512Kb, and Extended BASIC programming language built-in. It is compatible with most software and accessories for the Color Computer 2®.

To expand your color system, add the FD-502 Color Thinline Disk Drive, affordably priced at \$219.95 for Christmas. The disk drive is capable of storing more than 156,000 characters of data and allows the user to take advantage of Radio Shack's library of ready-to-run Color Computer disk software.

The Tandy Color Computer 3 is backed by Radio Shack's commitment to quality and dependability through the largest service and support system of any computer manufacturer.
