

Why Tandy® Computers?

Because there is

The best decision for
millions of businesses,
educators and home users.

Quality.

Reliable performance is our design objective. Our engineering team takes pride in the exceptional quality they can produce utilizing our proprietary test equipment. The result: a 33,000-hour mean time between failure.

Compatibility.

Our MS-DOS® based computers are the best-selling PC compatibles in America. Tandy 286 and 386-based business systems are OS/2™ ready as well.

no better value.™

Technology.

Innovative design, custom circuitry and distinguishing features make our computers more than just clones. Plus, every Tandy desktop computer is designed and built in our own USA manufacturing plants.

Connectivity.

Tandy PC compatibles can be linked into a workgroup for communications with other PCs and mainframe computers alike.

Longevity.

Technology has been our business for sixty-six years. In 1977, we became the first company to successfully manufacture and market a personal computer—nobody's been in the business longer.

High performance, great prices and the best service and support in the industry.

Tandy Computers:
Because there is no better value.

Tandy Computers:
Because there is
no better value.

The New Tandy® 4000

A price breakthrough
in high-performance
80386 technology.

Put a Tandy 4000 on your desk and unleash the incredible power of the 80386 microprocessor. The 4000 is so cost effective you can actually configure a 386 system for less than you'd pay for a competitor's 286 model. And when used with the XENIX operating system, your Tandy 4000 can become the heart of a multiuser office system. Or configure the Tandy 4000 with a 3Com workgroup file server to achieve maximum productivity.

The 80386 is a 32-bit microprocessor operating at a 16 megahertz clock speed. New operating systems and applications software that once would only run on mini and mainframe computers can now be implemented on a Tandy 4000 desktop.

The 80386 microprocessor can function in four modes. In the real mode, it runs PC and AT software with 16 MHz clock speed. This software will come alive with incredible new speed. The virtual mode will allow multitasking between applications when used with appropriate software. And when new operating systems such as OS/2 become available, two other modes will deliver the full potential of the 80386 processor. (25-5000)

SPECIFICATIONS. Microprocessor: Intel 80386 processor with 32-bit data path. Clock speed, 16 MHz. Object code compatible with 8086/8088/80286. Real-time clock with battery backup. **Operating System:** Optional MS-DOS 3.2 with BASIC or XENIX System V. **Memory:** 1 Megabyte RAM (expandable to 4 megabytes using expansion slots). Includes power-up diagnostics. Sound included. **Keyboard:** 101-key enhanced keyboard. **Video Display:** Optional high-resolution, non-glare, non-interlaced 12" monochrome (green) or 14" color monitor. 80 or 40 characters per line by 25 lines. **Disk Drive:** 3 1/2" floppy disk drive (1.4 megabytes). Three front drive slots. **Internal Expansion:** Six AT and two XT slots. Optional 80287 math co-processor can be added. **External Connections:** Standard serial and parallel printer ports. **Dimensions:** 6 1/2 x 19 x 18". **Weight:** 32 lbs. **Power Requirements:** Input: 120 VAC, 60 Hz. Output: 192 watts. UL listed.

*Monitor, display adapter, MS-DOS and XENIX sold separately. IBM and AT/Reg. TM International Business Machines Corp. MS-DOS and Microsoft Windows/386, OS/2 and XENIX/TM Microsoft Corp.

Prices apply at Radio Shack Computer Centers and participating stores and dealers.

Tandy® Workgroup Solution

**People and PCs
working together™ —
efficiently, affordably**

Now you can use your PC to share information with your colleagues, update files in a common database and route messages and other mail—electronically.

Just connect your Tandy computers and other PC compatibles on 3Com's proven network.

You'll still be able to work independently, but you'll have the added advantage of working together as a group—a workgroup.

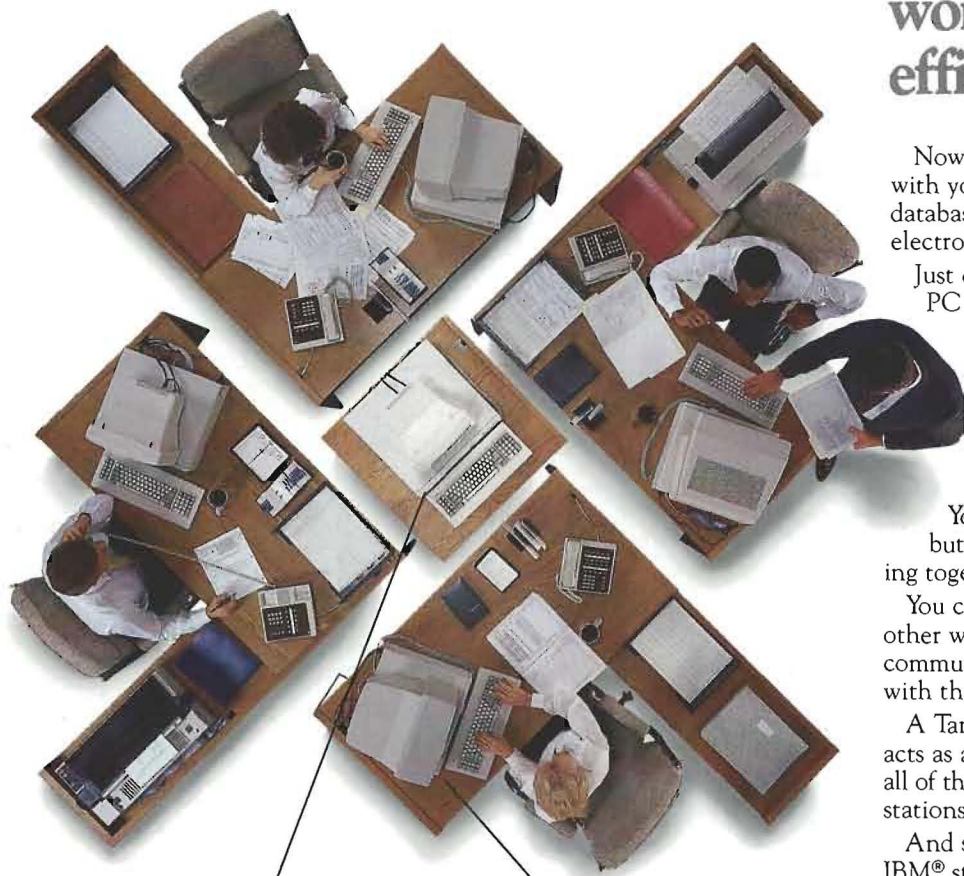

You can share printers and communicate with other workgroups in your office. You can even communicate with your company mainframe, or with the computers at your branch offices.

A Tandy 3000 or 4000 computer with hard disk acts as a file server, providing the information for all of the Tandy and other PC-compatible workstations in the workgroup.

And since 3Com's network software is based on IBM® standards, you can use leading software packages like WordPerfect and dBASE III Plus.

Installation is simple and worry free, because Radio Shack handles all of the details. We'll even arrange to train your employees, as well as provide the professional service and support your business can rely on.

Come into a Radio Shack Computer Center and find out how your business can benefit from a Radio Shack/3Com workgroup today.

A Tandy 4000 computer with hard disk acts as the file server, providing the information for all of the workstations. Tandy 3000, Tandy 1000 and most other PC compatibles can be used as workstations.

Each workstation can run a variety of applications: write memos and letters, send messages, do spreadsheet planning and more.

3Com/Reg. TM 3Com Corporation. dBASE III Plus/TM Ashton-Tate. WordPerfect/TM WordPerfect Corp.

The New Tandy® 3000

**Discover high-speed
286 performance
that's multiuser ready.**

Our Tandy 3000 is compatible with software designed for the IBM PC AT™ and the PC XT®. Just as important, the 3000 can also run software designed for the soon-to-be-released OS/2 operating system. And that's not all.

The Tandy 3000 is also capable of using the XENIX System V/286 multiuser operating system. In such a configuration, multiple display terminals will be able to tap the high-performance 80286 microprocessor. Two to six users can work independently on accounting, word processing and electronic filing.

Operating at a superfast 12 megahertz, your programs will race through the Tandy 3000's 16-bit architecture. A high capacity 1.2 megabyte, 5¼" slim-line floppy disk drive is included. 3½", 1.44 MB or 720 KB floppy disk drives are also available as add-on options.

For maximum storage capacity, add a high-performance hard disk drive to the Tandy 3000.

Choose from an internal 20-megabyte or 40-megabyte drive for high-speed access to volumes of files.
(25-4002)

SPECIFICATIONS. Microprocessor: Intel 80286 processor with 16-bit data path. Clock speed, 12 MHz, 1 wait state (switchable to 6 MHz). Object code compatible with 8086/8088. Real-time clock with battery backup. Operating System: Optional Microsoft MS-DOS 3.2 with BASIC or XENIX System V/286. Memory: 640K onboard RAM, expandable to 1 MB on the main board. By using the expansion slots, memory is expandable to 16 megabytes under XENIX. Includes power-up diagnostics. Sound included. Keyboard: 101-key enhanced keyboard. Video Display: Optional high-resolution monochrome or color monitor. Disk Drives: Built-in high-density, thin-line 1.2-megabyte 5¼" floppy disk drive. Disk storage is expandable to include two floppy disk drives and one hard disk drive, or one floppy disk and two internal hard disk drives. Total internal storage capacity can exceed 80 megabytes. Internal Expansion: 9 plug-in card slots, including 2 XT and 7 AT. Optional 80287 math co-processor. External Connections: Standard parallel printer port, RS-232C serial communications port.

Tandy Computers:
Because there is
no better value.

The New Tandy® 3000 HL

**An AT®/XT™ compatible
ready for tomorrow's
OS/2™ software.**

OS/2 is being widely acclaimed as *the* operating system of the future for business PCs. Once it becomes available, OS/2 will be ready to run on the high-performance Tandy 3000 HL. But for now, the 3000 HL is already compatible with current PC XT™ and AT® programs. The Tandy 3000 HL offers you the best of both worlds in software.

The 3000 HL comes standard with a 360K 5¼" disk drive. And its highly expandable design lets you add a high-capacity 3½" drive later on. A third front-panel drive slot lets you add the hard disk of your choice—20 meg, 40 meg, even an internal disk cartridge system.

Powered by an 8 MHz 80286 microprocessor, the Tandy 3000 HL lets you run programs faster than ever. Seven card slots let you "build" just the configuration you need.

You can even connect the 3000 HL with other computers in a work-group to share information, update files in a common data base and route messages and other mail electronically. (25-4071)

SPECIFICATIONS. Microprocessor: Intel 80286 processor with 16-bit data path. Switchable clock speed, 8/4 MHz. Object code compatible with 8086/8088. Real-time clock with battery backup. Operating System: Optional Microsoft MS-DOS 3.2 with BASIC. Memory: 512K RAM with parity. By using the expansion slots, memory is expandable to 4 megabytes. Includes power-up diagnostics. Sound included. Keyboard: 101-key enhanced keyboard. Video Display: Optional high-resolution, monochrome or color monitor. Disk Drives: Built-in 360K 5¼" floppy disk drive. Total internal storage capacity can exceed 80 megabytes. Internal Expansion: Seven plug-in card slots, including three AT-compatible and four XT-compatible slots. Optional 80287 math coprocessor. External Connections: Standard parallel printer port.

*Monitor, display adapter and MS-DOS sold separately.

The New Tandy 1000 TX[®]

**The most-affordable
80286-powered
PC compatible
made in America.**

Our new 1000 TX features an 8 MHz 80286 microprocessor, for far greater processing power than ordinary PCs. This brings true 16-bit technology, previously found only in "AT" class machines to an affordable PC.

The Tandy 1000 TX is outfitted with a new 3 1/2" disk drive, and there's room to add a second internal 3 1/2" or 5 1/4" disk drive.

The 1000 TX includes features you'd pay extra for on ordinary PCs: monochrome and color graphics adapters, a printer adapter, joysticks adapter, and a RS-232C serial port.

The Tandy 1000 TX also includes MS-DOS and BASIC—even our new integrated software program: Personal DeskMate™ 2.

The Tandy 1000 TX comes with 640K RAM and five card slots for expansion. Add more memory, an internal modem, a hard disk card—or an interface card for connecting the 1000 TX to your workgroup environment. (25-1600)

SPECIFICATIONS. Microprocessor: Intel 80286. Clock Speed: 8/4 MHz. Operating System: Includes Microsoft's MS-DOS 3.2 with GW-BASIC. Memory: 640K RAM, expandable to 768K (640K for MS-DOS, 128K for video memory.) Includes power-up diagnostics. Keyboard: Integral 90-key sculptured, including numeric-entry keypad. Video Modes: Text: 80 or 40 characters per line by 25 lines. 256 character types. Graphics: CGA compatible with enhancements; 640 x 200 pixels, 4 color; 320 x 200 pixels, 16 color. Higher resolution available with optional expansion boards. Disk Drives: One double-sided, double-density 720K (formatted) thin-line 3 1/2" mini-floppy. 96 tracks per inch. Internal Expansion: Five user-accessible IBM PC-compatible card slots (10" maximum length), 80287 Math Coprocessor. External Connections: Standard parallel port, composite video out, line level audio out, RS-232 serial port, two joysticks, RGBI Color Monitor. 1/8" headphone jack with volume control.

Tandy Computers:

The New Tandy® 1000 HX

The first desktop
PC compatible with
MS-DOS built in.

The low-priced leader in 3½" disk-based PC compatibles. Best of all, MS-DOS (in ROM) loads automatically in just seconds—just insert your program diskette and you're ready!

The Tandy 1000 HX has 256,000 characters of memory and a built-in keyboard with the same layout as the popular Tandy 1000 SX.

A high-capacity, 3½" disk drive is built in—and there's room for a second 3½" drive. The Tandy 1000 HX is PC-compatible so you can use all of the popular MS-DOS® programs available on 3½" disks.

Your first program is included—a new, enhanced version of our popular Personal DeskMate seven-in-one software.

You'll be able to plug in joysticks, a monitor, a printer—even a second disk drive—without buying extra-cost adapters.

The Tandy 1000 HX is expandable, too! By adding the Memory PLUS Expansion Adapter you can add boards for modem telecommunication and classroom network options. (25-1053)

SPECIFICATIONS. Microprocessor: Intel 8088-2. Clock Speed: 7.16/4.77 MHz. Operating System: Includes Microsoft's MS-DOS 2.11 with GW-BASIC. Memory: 256K RAM, expandable to 640K. 128K ROM and 256 bits EEPROM with MS-DOS resident, BIOS Diagnostics, System Configuration and User Interface. Keyboard: Integral 90-key sculptured, including numeric-entry keypad. Video Modes: Text: 80 or 40 characters per line by 25 lines. 256 character types. Graphics: CGA compatible with enhancements; 640 x 200 pixels, 4 color; 320 x 200 pixels, 16 color. Disk Drives: One, double-sided, double-density 720K (formatted) thin-line 3½" mini-floppy. 96 racks per inch. Internal Expansion: One "PLUS" style expansion board, or two when used with Memory PLUS Expansion Adapter (25-1062). External Connections: 5¼" 360K or 3½" 720K Disk Drive, standard parallel port, composite video out, 1/8" headphone jack with volume control, two joysticks, RGBI Color Monitor. AC outlet.

New Business Printers

**Introducing the latest
laser and dot-matrix
printing technology.**

LP 1000 Laser Printer. Affordable desktop publishing has arrived! The laser-sharp clarity rivals professional typeset quality for brochures, newsletters, sales pieces, letterheads and much more! The LP 1000 produces 300 × 300 dots-per-inch resolution on an 8½ × 11" page. Quietly prints up to six pages per minute. Optional downloadable custom fonts are available. Convenient front panel controls allow you to select fonts and type styles. The LP 1000 is Tandy®, IBM® and HP LaserJet Plus® compatible, features a Centronics parallel interface and does not require a special controller board as some laser printers do. (26-2804)

DMP 2120 Dot-Matrix Printer. The newest addition to our full-line of dot-matrix printers. The DMP 2120 is an ideal high-speed dot-matrix printer for demanding business applications. Use the Font Editing Packages (sold separately) to load different, customized type styles to print letters, memos and reports at up to 240 characters per second. The DMP 2120 includes data processing, word processing and graphics modes and features front panel selection of fonts, character sets and type styles, as well as a precision 24-wire print head. Includes built-in "push-type" tractor so a single form or fanfold sheet can be detached without waste. The DMP 2120 is IBM PC compatible and has a Centronics parallel interface. An optional four-color printer ribbon is available. (26-2811)

Tandy Computers:

The Tandy® 1000 SX & EX

**Still, the best-selling
PC compatibles
made in America.**

Tandy 1000 SX. The 1000 SX is a true PC-compatible computer. But unlike other "industry-standard" computers, you can run many of your programs faster, because the Tandy 1000 SX has a 50% faster clock speed than the IBM® PC. The 1000 SX comes with 384K RAM, expandable to 640K on the main board, and a built-in 5¹/₄" disk drive. You can add an internal second disk drive (5¹/₄" or 3¹/₂"). And with five card slots, it's easy to expand. DeskMate®II software (included at no extra charge) features six applications on one disk. Adapters for a monitor, printer, joysticks, and light pen are standard, as are MS-DOS 3.2 and GW-BASIC. (25-1052)

Tandy 1000 EX. A 256K PC-compatible computer with a built-in 5¹/₄" drive that's ready to use the MS-DOS software you bring home from the office, as well as software designed for the home or classroom. Up to three PLUS-style card slots are available for internal expansion. You can even add an external second disk drive (5¹/₄" or 3¹/₂"). You'll find an advanced three-voice sound circuit for sophisticated sound and music generation through the built-in speaker. There's also a headphone jack with volume control—perfect for the classroom. Graphics-oriented Personal DeskMate* software features six programs and handy pull-down menus and pop-up boxes for selecting functions. Includes MS-DOS 2.11 and GW-BASIC. (25-1050)

*DeskMate II and Personal DeskMate require 80 column monitor. Monitors and monitor platform sold separately. DeskMate/Reg. TM and Personal DeskMate/TM Tandy Corp.

The New Tandy® 1400 LT

**A price breakthrough
in dual-disk MS-DOS
laptop computers.**

Introducing a laptop computer that is a true PC compatible. With a removable rechargeable battery pack built in, the Tandy 1400 LT is perfect for people on the go—like busy executives, sales personnel and journalists. Or you can use it in your office like a desktop computer.

The 8088-equivalent microprocessor has a 7.16 MHz clock speed (vs. 4.77 MHz for most other PC-compatible laptops). Standard equipment includes two 720K 3 1/2" built-in disk drives and 768K RAM—ample memory to run all of your applications.

The Tandy 1400 LT features a high-quality *backlit* liquid crystal display. The 80-character by 25-line resolution is the same display as a full-sized monitor. It's remarkably clear, thanks to the latest "supertwist" LCD technology.

The Tandy 1400 LT also includes a parallel printer adapter, RGB and composite monitor outputs, real-time clock, an RS-232C serial interface and MS-DOS/GW-BASIC 3.2. Avail. 10/31/87. (25-3500)

SPECIFICATIONS. Microprocessor: NEC V-20 (8088 equivalent). Clock Speed: 7.16/4.77 MHz (switchable). Operating System: Includes MS-DOS/GW-BASIC 3.2. Memory: 16K ROM, 768K RAM. 640K accessible by MS-DOS, 128K available for RAM-based disk drive or print spooler. Keyboard: Full-size, 76 keys. LED Indicators: Caps Lock, Num Lock, Low Battery, Scroll Lock, Standby Mode. Display: Backlit "Supertwist" LCD, 640 x 200 pixels, 80 x 25 characters, aspect ratio 1:1.4. Optional RGB Color Monitor. Disk Drives: Two internal 720K 3.5 inch double-sided, double-density. Modem: Optional 1200-baud, Hayes-compatible modem. External Connections: AC Adapter, DB-25 Parallel Printer, DB-9 Serial Port, RGB Color Monitor, Composite Video Out, External Disk Drive, Enhanced Keyboard. AC Adapter: 15 VDC 700 mA, UL listed. Battery: Removeable 12 Volt, 2200 mAh. 4 hours of continuous use. Other Features: Battery-powered Clock/Calendar, Standby Mode and Speaker. Dimensions: 3 1/2 x 14 1/2 x 12 3/8". Weight: 13.5 lbs.
