

Tandy® Computers: The broadest line of PCs in America.

The Tandy® 3000 NL

**Affordable 286
power and
remarkable
expansion.**

The Tandy 3000 NL is the right choice for a changing world. From the outset, you'll have an 80286-based system clocked at 10 MHz. You'll have the performance to manage productivity applications more effectively under MS-DOS, and the potential for multitasking under MS OS/2. And with the 10 MHz bus design, the 3000 NL can transfer data across a network at high speeds as a high-performance workstation.

Now take on tomorrow: outfit the 3000 NL with a second 3½" drive, and you still have room for two front panel 5¼" drives. All in a new, compact footprint.

Continue to custom configure your system using four 16-bit and three 8-bit expansion slots. Complete statistical applications faster with an optional 10 MHz 80287 math coprocessor.

The new generation Tandy 3000 NL. From the best-selling family of PC Compatibles made in America.

Tandy® Computers: Because there is no better value.™

Tandy 3000 NL Features:

80286 Microprocessor

Operating at 10 MHz, the Tandy 3000 NL's 16-bit 80286 microprocessor gives you high performance with today's software—and the power to support new software applications in the future. The NL is the affordable AT/XT compatible.

MS OS/2 Ready

Although capable of running current software with remarkable speed, the 3000 NL will run the new MS OS/2 operating system. Programs designed for OS/2 will allow for greater utilization of memory and can be run simultaneously for most efficient use of your valuable time.

Remarkably Expandable

Because we know how quickly your business can grow, we made sure the Tandy 3000 NL has room for flexible, low-cost expansion. It comes standard with seven expansion slots: four 16-bit AT-compatible slots and three 8-bit XT-compatible slots. Expand with more memory, modems, network adapters and more. An optional 10 MHz Intel 80287 math coprocessor can be added for high-speed numerical operations.

The 3000 NL comes standard with a high-capacity, 1.44MB floppy disk drive. Expand with a second 3½" drive and you'll still have room for two 5¼" front-panel devices—either floppy or hard disk, tape cartridge, or a combination.

The Tandy 3000 NL comes with 512K memory and can be expanded to a full 16 megabytes.

Built-In Real-Time Clock

For better office efficiency, the Tandy 3000 NL features a built-in real-time clock with battery backup for automatic date and time stamping of all jobs, process control and other time-sensitive applications.

Keylock and Chassis Lock

A system keylock is included to protect your data from unauthorized access. This keylock prevents keyboard use, system reset and also locks the chassis to prevent cover removal.

Tandy 3000 NL Specifications

Microprocessor:	Intel 80286 processor with 16-bit data path.
Clock Speed:	10 MHz.
Math Coprocessor:	Optional Intel 80287. 10 MHz clock speed.
System Memory:	512K standard, (expandable to 16MB via a dedicated, high-speed memory slot and card slots.
Video Support:	Optional VGA, EGA, CGA color and monochrome graphics.
Display Options:	12" VM-5 Monochrome Monitor. 14" VGM-100 Monochrome Analog Monitor. 13" CM-11 RGB 1 Color Monitor. 14" EGM-1 EGA Color Monitor. 14" VGM-200 RGB Analog Color Monitor with .42mm dot pitch. 14" VGM-300 RGB Analog Color Monitor with .31mm dot pitch.
Mass Storage Devices:	3½" 1.44 MB floppy disk drive built-in. Supports three additional internal drives—either 3½", 5¼", hard disk or disk cartridge.
Hard Disk Controllers:	ST-506 and SCSI options.
Keyboard:	Ergonomic, 101-key enhanced keyboard with tactile feedback. 12 function keys, separate numeric keypad, LED indicators for Num Lock, Caps Lock and Scroll Lock.
Expansion Slots:	Four AT and three XT card slots, plus 32-bit dedicated memory slot.
Standard Interfaces:	Asynchronous communications port (RS-232 serial), bidirectional parallel printer port.
Real-Time Clock:	Built-in real-time clock with battery backup.
Operating Systems:	Optional MS-DOS 3.3 with BASIC, MS OS/2.
Power Supply:	Input: 120VAC, 60 Hz. Output: 135 watts. U.L. listed.
Dimensions:	6¼ x 17 x 15¾".
Shipping Weight:	33 lbs.
Certification:	FCC class B.
