Radio Shack's Commitment

We Understand Educational Needs

Our Education Division is dedicated to education. Since 1979, we have devoted a full-time effort to support Tandy/Radio Shack computers in the classroom. We offer one of the most comprehensive libraries of educational software available. Our professional Educational Marketing organization of Regional Educational Coordinators and company-certified Educational Specialists are specially trained to meet the instructional and administrative objectives of educators.

Meeting of the Minds

For the past four years, Radio Shack has co-sponsored the International Conference on Education and Technology with distinguished universities. This conference brings outstanding

worldwide leaders in Educational Technology together to further explore—with educational decision-makers—the applications of computer technology as well as the potential benefits and problems of computer usage in education.

Educational Training and Support

Radio Shack is committed to helping educational customers maximize the return on their investment by realizing their instructional and administrative goals. We offer customized training and installation services, telephone support services, support at your site, System Administrator services, and custom database design. And our new Educational Support Specialist, along with the Regional Educational Coordinator, stands ready to provide the specialized training and support services that you need. Our commitment to education is the same as yours . . . it's our #1 job!

Shared Learning Systems

In 1979, Radio Shack introduced the first low-cost network system designed specifically for classroom use. We followed this Network 1 with the Network 2, Network 3, and Network 4. Each generation of network has brought increased speed and functionality.

The Network 4 system supports both MS-DOS applications on the Tandy 1000 computers and TRS-DOS 1.3 applications on Model III/4 systems.

Your Radio Shack Regional Educational Coordinator has a list of more than 250 programs that various educational publishers support on the Network 4 system. Many of these titles are listed in this catalog—look at the "Network Compatibility" line of each entry to be sure.

This software, the relative low cost of the system, and its support of the MS-DOS standard make the Network 4 today's best value in classroom networking.

Integrated Learning System

Tandy Corporation and Education Systems Corporation have teamed up to offer elementary schools the finest reading and mathematics curriculum available. The rapid advancement in microcomputer technology has brought us to the point where it is now cost effective to deliver individualized instruction that motivates students throughout an interactive curriculum.

The scope and the sequence of each program parallels the major basal textbooks, making the software compatible with ongoing instruction. The lessons are correlated with the leading standardized achievement tests, including CTBS and Iowa.

The software takes advantage of state-of-the-art computer technology provided by Tandy Corporation. All lessons are in color, utilize extensive graphics, friendly characters, voice, music and animation—so students never get bored!

Research indicates that children progress by learning how to think, rather than by performing constant drills and exercises. The approach our system has taken emphasizes thinking skills, positive attitudes toward subject matter, mastery and application of a concept and positive work habits.

For more information, contact your nearest Radio Shack Computer Center for the name of your Regional Education Coordinator.

Administrative Network System

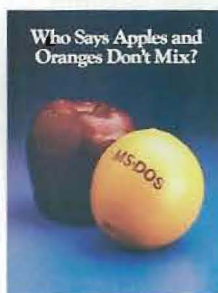

**TANDY
WORKGROUP
SOLUTIONS™**

Our new Tandy/3Com Workgroup Solution can help improve communication between individual schools and your administrative office. School administrators and curriculum specialists can assemble student data and keep grade and attendance records up-to-date. District objectives can be communicated quickly, repetitive paperwork can be reduced, and administrative decisions can be

based on more accurate information. Our Regional Coordinators, Educational Specialists and our new Education Support Specialist are available to discuss how your school can get People and PCs Working Together™ with the Tandy/3Com Workgroup Solution.

Step Up to the Industry Standard

Now you can expand with MS-DOS technology using the Tandy 1000, and still use any existing Apple® software your school may have. The TRACKSTAR 128 board lets you use industry-standard MS-DOS software, as well as educational software designed for the Apple II, II+, IIc and the IIe computers. TRACKSTAR supports Apple text and graphics modes, Apple joystick and connector devices, and

for even more fun in learning, it supports music and sound, as well. MS-DOS skills will be a valuable tool in your students' future—now you can provide these features without losing any previous software investment.

to Education

How to Use This Catalog

The RSC-19E describes software available for Tandy/Radio Shack computers—including Radio Shack and Express Order programs.

There are two indexes: one organized alphabetically by title and one organized by computer model. The software descriptions are arranged by the categories described below.

Category Descriptions:

Business Education/Vocational. Includes a range of useful programs from typing/keyboarding instruction to college-level business simulation to professional computer-aided drafting and design systems.

Computer Literacy. Provides introduction to computers and their uses, keyboarding, and programming instruction. Also has operating systems.

Desktop Publishing. Programs for creating newsletters, forms, announcements and documents.

Foreign Language. French, German and Spanish vocabulary and spelling programs. Word processor and exercise program to use in any foreign language class.

Logic/Problem Solving. Sharpen thinking and reasoning skills.

Math. A lifetime of programs! Ranging from addition/subtraction for the preschooler to calculus for the scientist!

Professional Applications. Database management, electronic filing, word processing, spreadsheet, accounting and business graphics—all make work less of a chore!

Reading/Language Arts. A range of language skills programs and reading programs that help children learn to identify topics, main ideas, syntax, context and more.

Science. Exciting programs invite curious minds into the realm of the atom, the human body, earth . . . the massive solar system itself!

Social Studies. History/geography of the U.S. and Europe.

Teacher Utilities/Administrative. Includes software allowing teachers to accumulate/compare student data, and software designed to prepare students for ACT and SAT tests.

Other Programs. Too many to describe! Sports, music, flight-simulation and building mechanical models.

Typical Software Description:

 Scholastic Software Grade: (2)-(12) Description: The new features of Bank Street Writer mean that you may never need another piece of software for your school's writing program. Fully-integrated thesaurus stimulates creativity and enriches vocabulary. The integrated spelling checker uses a 60,000 word dictionary to highlight and help correct errors. Single-key macro commands allow teachers and students to skip often-used menus and prompts. New formatting and cursor movement commands give students more flexibility in printing their work, greater ease in editing and revising. Expanded Teacher's Utility includes functions for copying files, initializing disks, and chain printing. Package includes Program disk with tutorial, Dictionary disk with Thesaurus, and a backup of each, User's Handbook with step-by-step instructions, both a Student and a Teacher Guide, a glossary, an index, and writing activities. Hardware Requirements: 256K. Support: Scholastic. 90-5292 124.95 Network 4 Version. 90-5297 624.75	Company logo for quick and easy identification of software manufacturer. The Bank Street Writer III PC-Compatible Description: The new features of Bank Street Writer mean that you may never need another piece of software for your school's writing program. Fully-integrated thesaurus stimulates creativity and enriches vocabulary. The integrated spelling checker uses a 60,000 word dictionary to highlight and help correct errors. Single-key macro commands allow teachers and students to skip often-used menus and prompts. New formatting and cursor movement commands give students more flexibility in printing their work, greater ease in editing and revising. Expanded Teacher's Utility includes functions for copying files, initializing disks, and chain printing. Package includes Program disk with tutorial, Dictionary disk with Thesaurus, and a backup of each, User's Handbook with step-by-step instructions, both a Student and a Teacher Guide, a glossary, an index, and writing activities. Hardware Requirements: 256K. Support: Scholastic. 90-5292 124.95 Network 4 Version. 90-5297 624.75	Title of the program. PC-compatible or the specific model(s) of Tandy and Radio Shack computers that can run the program. Software listed in grade level order. Hardware Requirements tell you if the software requires more than the standard computer configuration. Indicates the company providing support for the program after purchase. Catalog number and price line for each computer. Network version.

In addition to this catalog—the RSC-19E—Radio Shack has another catalog to help make your selection of computer hardware and software easier. Our 124-page 1988 Tandy Computer Catalog & Software Reference Guide (RSC-19) is devoted entirely to the complete line of Tandy computers, peripherals and software. The RSC-19 has a 44-page, full color section on our complete line of computers, printers, modems, expansion options, accessories and more. Our RSC-19 also lists over 800 software programs available "off-the-shelf" from Radio Shack or through our exclusive Express Order™ service. You can pick up your free copy of the RSC-19 at any Radio Shack Computer Center or participating Radio Shack store or dealer.

Autodesk

AutoCAD ADE 3

1200/2000/3000/4000

Description: A computer-aided drafting and design system that brings the benefits of a high-performance CAD facility within the range of even the smallest drafting office. AutoCAD is a complete, professional CAD system that's simple to learn and use. It requires no prior computer knowledge and is easy to tailor to user-specified requirements. AutoCAD ADE-3 is equipped with all the features found in AutoCAD Standard, plus additional features which enable a user to visualize an object in three dimensions. AutoCAD ADE-3 is compatible with any other level of AutoCAD for convenient upgrade.

Hardware Requirements: 384K, color graphics option, two floppy disk drives or one hard disk drive (recommended).

Support: Autodesk.

Tandy 1200/3000/4000. 90-0364 2500.00

Tandy 2000. 90-0361 2500.00

Autodesk

AutoCAD Standard

1200/2000/3000/4000

Description: A computer-aided drafting and design system that brings the benefits of a high-performance CAD facility within the range of even the smallest drafting office. AutoCAD requires no prior computer knowledge and is easy to tailor to user-specified requirements. AutoCAD Standard is equipped with all of the features necessary to complete a drawing. Any drawing created with AutoCAD Standard is compatible with any other level of AutoCAD, allowing you to easily upgrade to a higher level.

Hardware Requirements: 384K, color graphics option, two floppy disk drives or one hard disk drive (recommended).

Support: Autodesk.

Tandy 1200/2000/3000/4000. 90-0362 300.00

Tandy 2000. 90-0214 300.00

TANDY Business Education: Computer Applications in a Small Business

Grade: High School and College

III/4

Description: Radio Shack's Business Education course is designed to supplement business accounting classes at the high school and college levels. The package contains a teacher's manual; 25 student workbooks; overhead transparencies; and complete software and documentation to teach general ledger, accounts payable, accounts receivable, and payroll. Each lesson features an overview, instructional objectives, structured notes, a quiz, and a hands-on computer activity. Extra student workbooks are available separately.

Hardware Requirements: 48K two-drive disk system.

Support: Radio Shack.

26-2654 599.00

Additional Workbook. 26-2655 11.95

TANDY

Corplan

Grade: High School and College

III/4

Description: Corplan is an educational business-simulation package for college or advanced secondary students or anyone with an interest in business planning. The player or team of players determines overall business policy and decides how to manage production, sales, and finance for 12 quarters so

that an imaginary corporation will succeed. Although Corplan assumes some familiarity with business concepts, no computer experience is needed to use the program.

Hardware Requirements: 48K disk system.

Network Compatibility: 3, 4.

Support: Radio Shack.

26-2619 49.95

FasType

Grade: All Ages

III/4/1000/NW 3/NW 4

Description: FasType is a keyboarding program that provides an easy way to learn how to type quickly. Speed and accuracy are improved by following the logically sequenced lessons. It teaches the alphabetic/numeric/symbol keyboard and the 10-key pad. It includes lessons on the most frequently used words and letter combinations, TRSDOS keywords and BASIC statements. A reference card is included.

Hardware Requirements: Disk.

Network Compatibility: 3 and 4.

Support: Press A Software.

Model III. 90-5108 29.95

Model 4. 90-5109 29.95

Tandy 1000. 90-5110 29.95

Network 3 Model III,4. 90-5111 149.95

Network 4 Model III,4. 90-5112 149.95

Market Place

Grade: (3)-(8)

Color Computer

Description: Market Place is a package of four simulation programs that give students in grades three through eight experience in making marketing decisions. Market Place was developed by MECC, the Minnesota Educational Computing Corporation. The four simulations are: Sell Apples, Sell Plants, Sell Lemonade, and Sell Bicycles. Using the Sell Apples simulation, the student (or team of students) finds the best selling price while running an apple stand. The Sell Plants simulation explores the relationship of advertising to sales and profit. The Sell Lemonade simulation gives the student practice in making decisions about price, production, and advertising while running a lemonade stand. The Sell Bicycles simulation places the student in the role of bicycle company manager. The student determines production level, advertising budget, and the selling price of bicycles.

Hardware Requirements: 32K disk system with Disk Extended Color BASIC.

Support: Radio Shack.

26-2798 34.95

TANDY

**Numeric Data
Entry Practice**

Grade: (9)-(12)

I/III/4

Description: The Numeric Data Entry Practice program is designed to help vocational students in grades nine through twelve develop speed and accuracy in the entry of data using the numeric keypad of the TRS-80 and to provide teachers with a report of each student's progress. Each of the 25 lessons concentrates on a particular row or key or on speed. Lessons are scored according to strokes per hour and percentage of strokes correct. Student scores are automatically stored on diskette for the teacher's review.

Hardware Requirements: 32K disk system.

Network Compatibility: 3, 4.

Support: Radio Shack.

26-2601 39.95

Personalized Typing

Grade: 5-12

III/4/Color Computer

Description: Students practice locating keys on the keyboard and typing letter groupings, words, and phrases. The drill lessons run at three speeds, allowing students to increase from slow to fast as their knowledge of the keyboard increases. Random selection of the letters and letter groupings presented ensures a unique learning experience with each program use.

Hardware Requirements: Disk.

Network Compatibility: 2, 3.

Support: Aquarius People Materials, Inc.

Model III/4. 90-5447 29.95

Color Computer. 90-5449 29.95

**Scholastic
Software**

Success With Typing

Grade: 5-12

1000

Description: Twenty lessons, stories and tests that utilize the developmental method to make touch typing and keyboarding as easy as A-B-C! Unique to the program is advice for students after each lesson, instructing them as to whether or not they should proceed, begin a new session, or what? Includes: immediate on-screen feedback of incorrectly hit keys, speed and accuracy drills and tests, record keeping facility and more. And only with Success With Typing can students learn all the keys, including those used in special applications. Student activities are included.

Hardware Requirements: 256K.

Support: Scholastic.

90-5293 87.45

MICRODEX

T.CAD Professional

III/4

Description: A general-purpose, two dimensional CAD package. It allows production of exact, scaled technical drawings up to 24x36" on supported pen plotters. Ideal for smaller architectural, engineering or manufacturing businesses. An excellent education resource for schools, too. Features all essential CAD functions, such as overlay drafting, cursor grid snap, numerical input, decimal and customary scaling, zoom up to 1/100 inch drafting accuracy, pan, copy, enlarge, reduce, rotate, horizontal and vertical mirror, clip, merge, text labels in upper and lower case and more. Full-feature output to pen plotter, screen output to graphic printer.

Hardware Requirements: 84K, two disk drives and High Resolution Graphics board.

Support: Microdex.

Model 4. 90-0193 245.00

Model III. 90-0192 245.00

**Broderbund
Software®**

Type!

Grade: 4-12

1000

Description: Type! is the only typing program based on extensive research into how people learn to touch type. It includes extensive diagnostics, lively and entertaining exercises, and an arcade style game. You can learn to type quickly, accurately, and for keeps.

Hardware Requirements: 256K.

Support: Broderbund Software.

90-3158 49.95

**VERSACAD
CORPORATION**

VersaCAD Advanced

PC-Compatible/2000

Description: A general-purpose design and drafting program that is powerful, yet easy to use. Productivity features include ten built-in primitive objects, ability to group objects by any

Personalized Typing/TM Aquarius, Inc. Type!TM Broderbund Software. VersaCAD Advanced/TM VersaCAD Corp. VersaCAD Entry-Level/TM VersaCAD Corp.

attribute for group manipulation, interactive editing, total flexibility of object attributes (color, line style, etc.) on any drawing level, easy creation and visual retrieval of commonly used symbols from user libraries, auto-dimensioning, hatching, geometric calculations (such as center of gravity and area/perimeter totals), snap to object, grid or user-defined increments, etc. It includes help screens, tutorials and automatic drawing recovery from error or power failure.

Hardware Requirements: Two floppy disk drives or a hard disk drive.

Support: VersaCAD.

PC-Compatible. 90-0412 1995.00

Tandy 2000. 90-0325 1995.00

**VERSACAD
CORPORATION**

VersaCAD Entry-Level

PC-Compatible/2000

Description: A general-purpose design and drafting program that contains much of the power found in software five times the cost. Menu-driven operation and plain-English prompts guide you through the program as you work. Productivity features include 10 built-in primitive objects; ability to quickly group objects for collective manipulation; interactive editing (the object being worked on blinks on the screen and visually changes); total flexibility of object attributes (color, line style, etc.) on any drawing level (attributes may be changed at any time with a function key); unlimited zoom; auto-dimensioning; inquire about object locations, area/perimeter totals, etc.; drawing aids, such as center marker and template lines; snap at any time to an object; grid intersection or user-defined spacing increments; output to pen plotter or graphics printer with user-defined plot specifications; and automatic drawing recovery from error or power failure. Includes written tutorial and introductory audio tape.

Hardware Requirements: Two disk drives, graphics monitor and Tandy GT-2000 digitizer.

Support: Radio Shack.

26-5282 399.95

Computer Literacy

TANDY

Super LOGO

Grade: All Ages

Color Computer

Description: Super LOGO is an educational computer language that can be used to manipulate text and to draw pictures on the computer's video display. Super LOGO was designed to let children learn by exploring, but the program is also fun for adults. Some of the capabilities of Radio Shack Super LOGO include multiple turtles, animation, line-oriented editing of Super LOGO programs, list processing capabilities, and use of variables and arithmetic expressions in programs. The Super LOGO manual guides beginners step by step through the language with many hands-on exercises, sample programs, and hints for using Super LOGO with very young children. Super LOGO is an expanded version of Radio Shack Color LOGO. Added features include list processing capabilities, decimal arithmetic, more flexibility in the use of immediate mode, and improved editing and disk handling features.

Hardware Requirements: Disk Version—32K disk system.

Program Pak Version—16K with cassette recorder. Network 2

Version—Network 2 system with 32K student stations.

Support: Radio Shack.

Disk Version. 26-2716 99.00

Program Pak Version. 26-2717 49.95

Network 2 Version. 26-2738 299.00

Color LOGO or Super LOGO, this book provides helpful hints

for using LOGO with children. 26-2763 3.95

TANDY

Introduction to
the Alphabet

Grade: (P)-(1)

I/III/4

Description: Introduction to the Alphabet is an alphabet and keyboard familiarization program designed for classroom or home use with children four to six years old. The program contains three options. Option one lets the child practice recognizing and typing the alphabet in capital letters. Option two lets the child practice the alphabet in lowercase (small) letters. Option three lets the student type the alphabet with no hints from the computer.

Hardware Requirements: 16K with cassette recorder or 32K disk system. Model I users may exchange the Model III software provided in the package for Model I software.

Network Compatibility: 2, 3, 4.

Support: Radio Shack.

26-1718 39.95

The Friendly
Computer

Grade: (P)-(3)

1000

Description: Five enjoyable, easy-to-understand programs introduce the major parts of the computer system—especially the keyboard and how to use it. Challenging games help kids learn to locate particular keys. Youngsters will be thrilled to create drawings on the screen and save them on a diskette. Give your students the head start they need in computing!

Hardware Requirements: 256K.

Support: MECC.

90-5286 54.00

PC LOGO

Grade: (K)-(12)

1000

Description: PC LOGO is a full implementation of Logo, including word and list capability as well as turtle graphics. PC LOGO goes far beyond other versions of Logo by taking advantage of the extra features of the 1000, including function and arrow keys, and provides a greatly enhanced editor. It comes with a complete tutorial for beginning users and a full reference manual. The utility disk provides examples of turtle graphics, word and list manipulation, music, programming utilities and business applications of PC LOGO. It features a search-and-replace function, all function keys are pre-programmed, and can load and save files and pictures with the function keys.

Hardware Requirements: Minimum 128K disk.

Support: Harvard Associates, Inc.

90-5136 149.95

Junior Typer

Grade: (K)-(3)

III/4/Color Computer

Description: Developed for the elementary student, Junior Typer teaches touch-typing skills with innovative graphics that show the correct fingering for each letter. Students practice typing drills that show colorful graphic rewards to make developing accuracy and speed both challenging and fun.

Hardware Requirements: Disk.

Network Compatibility: 2, 3.

Support: Aquarius People Materials, Inc.

Model III/4. 90-5445 29.95

Color Computer. 90-5446 29.95

CHILDREN'S
TELEVISION
WORKSHOP

Hands On!

Grade: (1)-(2)

Color Computer

Description: Hands On! is a package of two computer literacy learning modules designed for use by students in grades one and two. Hands On! was developed by The CTW Software Group, a division of Children's Television Workshop. The two modules are Blackboard and Color It. Blackboard allows students to use a simple word processor to write and edit their work. Blackboard also enables students to set up a personal file system which can be modified as desired. Finally, this activity provides the beginning of an electronic mail system in which students share their writing with others. Color It is a computer literacy activity which allows students to use the computer as an artist's tool to draw and design images and pictures. Students use computer functions which demonstrate the unique graphics capabilities of the computer.

Hardware Requirements: 32K disk system with Disk Extended Color BASIC.

Support: Radio Shack.

26-2539 99.00

Keyboard

Grade: (1)-(UP)

Color Computer

Description: Graphic keyboard helps students learn to find keys quickly. Skill levels range from simple alphabet presentations to standard typing drills. Lessons end with graphic reward. You can customize lessons by using optional cassette data files. Prepared data files can be purchased separately. See descriptions of Grade Level Spelling Data Files and Phonics Drill Data Files.

Hardware Requirements: 16K Tape or 32K Disk.

Support: B-5 Software.

16K Tape. 90-5197 19.95

32K Disk. Includes longer drills and a timing feature.

90-5199 26.95

TANDY My TRS-80 Likes Me

Grade: (3)-(6)

I/III/4

Description: My TRS-80 Likes Me is a 26-page teacher's guide to helping elementary students understand and enjoy the BASIC computer programming language. Program listings for use with Model I, III, or 4 BASIC are included.

Hardware Requirements: Cassette system or disk system.

Support: Radio Shack.

26-2751 2.50

The FUNdamentals

Grade: (3)-(UP)

1000

Description: Experience the FUNdamentals of computer hardware, software, DOS concepts and commands, DeskMate, and much more in an interactive game environment designed specifically for the Tandy 1000. Features 16-color graphics, sound, and animation.

Support: Radio Shack.

Tandy 1000 SX. 25-1186 29.95

Tandy 1000 EX. 25-1167 29.95

Tandy 1000 HX/TX. 25-1186 29.95

TANDY Computer Literacy: Computers Past and Present

Grade: (4)-(8)

Description: Computer Literacy: Computers Past and Present contains a teacher's guide, spirit activity masters, and a wall chart for use in teaching students about the history of computers.

Support: Radio Shack.
26-2755 9.95

TANDY Color Computer Learning Lab

Grade: (4)-(UP) *Color Computer*

Description: The best hands-on, self-teaching programming course we've ever seen. Students learn Standard Color BASIC programming with the aid of their computer. Contains a 200-page manual and 8 cassette tapes with 30 lessons.

Hardware Requirements: Cassette recorder.
Support: Radio Shack.
26-3153 CMC 49.95

TANDY Typing Tutor

Grade: (4)-(UP) *Color Computer*

Description: Teaches alphabetic, numeric and symbol keys. Both the novice and experienced typist will build speed and increase accuracy. Monitors progress and creates new letter drills for practice on those areas where help is needed.

Hardware Requirements: 4K.
Support: Radio Shack.
26-3152 CMC 19.95

Simon & Schuster
COMPUTER SOFTWARE

Typing Tutor III

Grade: (4)-(UP) *PC-Compatible*

Description: Get the most out of your computer by learning to type quickly and easily—the most effective typing instruction program ever developed. The program automatically adjusts to personal abilities and progress, creating custom-designed lessons. Users learn at their own pace. Program includes LETTER INVADERS, a fascinating new arcade-style game.

Support: Radio Shack.
25-1126 49.95

TANDY Careers in Computing

Grade: (7)-(12)

Description: Careers in Computing offers a collection of materials designed to help teachers guide their students into the world of computers and electronic data processing. Each component of the kit—the narrated filmstrip, student workbook, wall chart, activity masters and teacher's guide—was designed to stimulate and inform. The package comes with 25 student workbooks. Additional workbooks are sold separately.

Support: Radio Shack.
26-2758 130.00
Additional Student Workbook. 26-2759 1.00

TANDY The Computer Connection

Grade: (7)-(12)

Description: The Computer Connection was specifically designed to introduce students to computers without requiring actual use of computer hardware. The package contains lesson plans, spirit activity masters, charts, and a filmstrip with audio cassette.

Support: Radio Shack.
26-2663 69.00

TANDY Computer Discovery for Junior High or Senior High

Grade: (7)-(12)

III/4

Description: Designed to introduce students at grade levels seven through twelve to both programming concepts and social issues related to use of the computer. The package was developed by Science Research Associates (SRA). Text materials and computer exercises on diskette are used to present the following topics: history of computing, concepts of structured programming and analysis, computer hardware and software systems, and the social and economic impacts of computers. Contains computer software, an instructor manual, and 25 student workbooks. Additional student workbooks for the junior high level sold separately.

Hardware Requirements: 32K disk system.
Support: Radio Shack.
Junior High. 26-2630 189.95
Additional Student Workbook. 26-2631 4.25
Senior High. 26-2632 189.95

TANDY Personal Computer Applications: Part One

Grade: (7)-(12)

1000

Description: Introduces students to computer use through specific applications. The package contains a teacher's manual, 25 student workbooks, and overhead transparencies for classroom use. The course is based on the DeskMate applications software provided free with each Tandy 1000 system. Part One of Personal Computer Applications covers the following topics: introduction to the personal computer system, input and output using computers, diskettes and the disk operating system, entering information using a word processor, displaying information using a word processor, introduction to databases, creating a database file, searching a file, and using the TEXT and FILER programs of DeskMate to write a research paper. Each lesson features an overview, instructional objectives, structured notes, a quiz, and a hands-on computer activity. Extra student workbooks sold separately.

Hardware Requirements: 128K.
Support: Radio Shack.
26-2590 500.00
Additional Student Workbook. 26-2591 4.95

TANDY Personal Computer Applications: Part Two

Grade: (7)-(12)

1000

Description: Personal Computer Applications is designed to introduce students to computer use through specific applications. The package contains a teacher's manual, 25 student workbooks, and overhead transparencies for classroom use. The course is based on the DeskMate applications software provided free with each Tandy 1000 system. Part Two of Personal Computer Applications covers the following topics: use of a spreadsheet, telecommunications, scheduling using a calendar program, and introduction to structured programming. Each lesson features an overview, instructional objectives, structured notes, a quiz, and a hands-on computer activity. Extra student workbooks sold separately.

Hardware Requirements: 128K.
Support: Radio Shack.
26-2592 500.00
Additional Student Workbook. 26-2593 5.95

TANDY**The Illustrated
Computer****Grade:** (9)–(12)**Color Computer**

Description: The Illustrated Computer introduces secondary students to machine language principles by giving them hands-on practice with a simplified machine language. The program illustrates a simplified, easy-to-understand computer with a memory, an accumulator, an instruction address register, an input unit, an output unit, and a control unit. The most important instructional feature of The Illustrated Computer is that it uses a base-ten number system. This means that the student can learn the fundamentals of typical machine-language operations—load and store, input/output, arithmetic, shifting, and branching—without having to work with binary, octal, or hexadecimal number systems. Once the student has learned the basics of working with The Illustrated Computer, the task of transferring this knowledge to any computer architecture should be relatively easy.

Hardware Requirements: 32K disk system with Disk Extended Color BASIC.

Support: Radio Shack.

26-2670 44.95

TANDY**COBOL
for the
TRS-80:
Volume One****Grade:** (9)–(UP)**III/4**

Description: Volume One of COBOL for the TRS-80 is an instructional software package designed to teach the fundamentals of COBOL programming to secondary and college-level students. The course is self-instructive and assumes no prior knowledge of COBOL. This course covers the following topics: introduction to COBOL, file processing, use of the compiler and editor, the structure of the language, the structure of a COBOL program, debugging, some advanced features, and programming style. This course was written by Robert T. Grauer, Ph.D.

Hardware and Software Requirements: Model III—48K two-drive disk system and Radio Shack Model III COBOL Development System (Cat. No. 26-2203).

Support: Radio Shack.

Model III/4. 26-2702 64.95

TANDY**Introduction to
Color BASIC****Grade:** (9)–(UP)**Color Computer**

Description: Introduction to Color BASIC is a complete classroom course designed to introduce students to the computer and the fundamentals of BASIC programming. The package includes a teacher's manual, overhead transparencies, and 25 student workbooks. Topics covered by the ten lessons of the course are: introduction to the computer, introduction to the BASIC language, memory in the Color Computer, controlling the video display, controlling program flow, looping, introduction to graphics on the computer, reading data, interactive programming using the INPUT command, and arithmetic using the Color Computer. Each lesson features an overview, instructional objectives, structured notes, quiz, and hands-on activity. Additional student workbooks sold separately.

Hardware Requirements: 4K with cassette recorder.

Support: Radio Shack.

26-2680 350.00

Additional Student Workbook. 26-2681 5.95

TANDY**Part 1:
Introduction
to BASIC****Grade:** (9)–(UP)**I/III/4**

Description: Introduction to BASIC—Part One in a four-part series—is a complete classroom course designed to introduce students to the computer and the fundamentals of BASIC programming. The package includes a teacher's manual, overhead transparencies, and 25 student workbooks. Topics covered by the ten lessons of the course are: introduction to the computer, introduction to the BASIC language, arithmetic in BASIC, developing and storing programs, branching statements, looping, graphics on the computer, the READ-DATA statement, subroutines, and numeric arrays. Each lesson features an overview, instructional objectives, structured notes, quiz, and hands-on activity. Additional student workbooks sold separately.

Hardware Requirements: 16K.

Support: Radio Shack.

26-2150 220.00

Additional Student Workbook. 26-2151 3.50

TANDY**Part 2:
BASIC
Programming****Grade:** (9)–(UP)**I/III/4**

Description: BASIC Programming—Part Two in a four-part series—is a complete classroom course which continues the BASIC programming instruction begun in Part One: Introduction to BASIC. The package includes a teacher's manual, overhead transparencies, and 25 student workbooks. Topics covered by the ten lessons of the course are: introduction to level II BASIC, system commands, editing, types of variables, arrays, computer-detected programming errors, additional BASIC operators, formatting the program's output, memory management, and string manipulation. Each lesson features an overview, instructional objectives, structured notes, quiz, and hands-on activity. Additional student workbooks are available separately.

Hardware Requirements: 16K.

Support: Radio Shack.

26-2152 260.00

Additional Student Workbook. 26-2153 4.50

TANDY**Part 3:
Advanced
BASIC****Grade:** (9)–(UP)**I/III/4**

Description: Advanced BASIC—Part Three in a four-part series—is a complete classroom course which continues the BASIC programming instruction begun by Part One and Part Two in this series. The package includes a teacher's manual, overhead transparencies, and 25 student workbooks. Additional student workbooks are available separately. Topics covered by the ten lessons of the course are: making programs easier to use, the ASCII set, data files on cassettes, mathematical and trigonometric functions, nested loops, multi-dimensional arrays, error-handling routines, and using the printer. Each lesson features an overview, instructional objectives, structured notes, quiz, and hands-on activity.

Hardware Requirements: 16K and cassette recorder.

Support: Radio Shack.

26-2154 260.00

Additional Student Workbook. 26-2155 4.50

TANDY

Part 4: DOS

Grade: (9) - (UP)

I/III/4

Description: TRSDOS—Part Four in a four-part series—is a complete classroom course designed to teach concepts related to the computer's disk operating system. The package includes a teacher's manual, overhead transparencies, and 25 student workbooks. Topics covered by the ten lessons of the course are: introduction to the disk operating system; introduction to TRSDOS commands; commands to assist in using TRSDOS; commands to assist in system operations; library commands for file manipulation; library commands for file protection; TRSDOS utility commands; errors, troubleshooting, and maintenance; and using DEBUG. Each lesson features an overview, instructional objectives, structured notes, quiz, and hands-on activity.

Hardware Requirements: 32K disk system.

Support: Radio Shack.

26-2156 299.00

TANDY

Introduction to Pascal

Grade: (9) - (UP)

III/4

Description: This complete, structured teaching package comes with a teacher's manual, overhead transparencies, and 25 student workbooks. Provides an introduction to Pascal programming on stand-alone Model III/4 computers or in a Network 3 environment. Each lesson includes an overview, instructional objectives, structured notes, a quiz, and a hands-on activity. Lessons are: Introduction to Pascal, The Edit Cycle, Introduction to the Pascal Language, Pascal Structure and Statements, Introduction to Variables, Arithmetic Operations, Repetition, Conditional Statements, Procedures, Designing and Debugging Programs. Additional student workbooks sold separately.

Hardware and Software Requirements: 48K disk system or Network 3 system with 48K student stations. Requires use of Alcor Pascal for Model III/4 or Network Pascal (Cat. No. 26-2739).

Network Compatibility: 3.

Support: Radio Shack.

26-2674 350.00

Additional Student Workbook. 26-2675 7.95

TANDY

Network Pascal

Grade: (9) - (UP)

III/4—NW 3

Description: Network Pascal is a full implementation of the Pascal language designed for use in a Tandy Network 3 classroom environment. Network Pascal was designed for efficient network operation—it minimizes the host disk access time needed by each student station. Network Pascal includes a full-screen text editor, a compiler for the full Pascal language, utility routines to move files to and from the disk drives located on the network's host computer, a "Run" program to execute Pascal programs, and a linking loader that allows you to link together separately compiled procedures for execution. Network Pascal can handle small programs of up to about 100 lines. The complete Model III stand-alone version of Pascal (for a Model III or 4 disk system) is also included in this package for use in case longer programs need to be developed.

Hardware Requirements: Network 3 system with 48K student stations.

Network Compatibility: 3.

Support: Radio Shack.

26-2739 799.00

Additional Student Manual. 26-2740 14.95

TANDY

BASIC-09

Color Computer

Description: BASIC-09 is an enhanced version of standard BASIC written for the 6809 microprocessor. This program includes advanced features derived from Pascal, and with the interactive compiler, it produces compact object programs for high-speed execution.

Hardware Requirements: 64K, disk drive and OS-9 operating system.

Support: Radio Shack.

26-3036 CMC 99.95

RYAN-MCFARLAND

COBOL

I/III/4/12/PC-Compatible/2000

Description: The RM/COBOL compiler is ideal for developing business applications. RM/COBOL is a GSA-certified, error-free implementation of the ANSI X3/23 74 COBOL standard. Since its introduction in 1976, RM/COBOL has been a product professionals depend on. The power and reliability of RM/COBOL applications are enhanced by more than 1500 third party applications. RM/COBOL features include: full Level 2 sequential, relative, and index file access methods, interactive screen handling capabilities, and interactive debugging.

Hardware Requirements: Two disk drives.

Network Compatibility: 4 for Model I/III (26-2203).

Support: Radio Shack for 90-0436. Ryan McFarland for 90-0470.

Model I/III. 26-2203 149.00

Model 4. 26-2190 199.00

Model 12. 26-4703 299.00

Tandy 3000 Development System. 90-0470 1250.00

Runtime Disk: Allows you to execute programs developed with RM/COBOL compiler

Model 12. 26-4704 40.00

PC-Compatible/2000. 90-0436 167.00

TANDY

Game Writer

Color Computer

Description: Game Writer is a programming language that can be used to create games. These games can include pictures, sound, moving shapes, and interaction. The games can have educational value, or they can be just for fun. The Game Writer manual guides beginners through the language with many hands-on exercises. A game diskette containing sample programs is included with the program diskette. Programs created with Game Writer can be saved on a game diskette or on cassette tape if an optional cassette recorder is available. If an optional printer is available, program listings can be printed.

Hardware Requirements: 32K disk system.

Support: Radio Shack.

26-2572 44.95

TANDY

Introduction to Level II BASIC

I/III/4

Description: This beginning BASIC textbook for secondary students introduces the BASIC language as it is used on the Model I, III, and 4 microcomputers. It has explanations and examples. Features sequential introduction of new concepts, with exercises at the end of each chapter.

Support: Radio Shack.

26-2116 9.95

TANDY Network 4 Operating System for Model 4 Disk Server and Model III/4 Stations (TRSDOS 1.3)

III/4

Description: Provides the Network 4 operating system and program that runs in a network disk server with the hard disk initialization program. Also includes a network version of TRSDOS 1.3 and network boot program to support upgraded Model III/4s as stations, SPOOL/DESPOOL programs for remote printing, configuration utilities for the system manager, and user station utilities and sample programs. The station operating system is designed to support standard TRSDOS 1.3 application software and educational software.

Hardware Requirements: Disk Server—Model 4 with Network 4 Upgrade Kit (Cat. No. 26-1136). Installation required (not included). Printer optional.

Hard Disk—35-megabyte primary (AXX26-4171), or 20-megabyte hard disk (25-1041), and Controller (26-1138).

Trunk Cable—100-foot (26-1218), 500-foot (26-1214), or 1000-foot (26-1215). Termination resistors included.

Stations—48K Model III/4, plus Network 4 Upgrade Kit (26-1136). Installation required (not included). At least one station must have a disk drive and 48K.

Support: Radio Shack.

26-2773 230.00

TANDY Network 4 Operating System for Tandy 1000 Stations (MS-DOS 2.11)

1000

Description: Supports Tandy 1000 computers as stations in a Network 4 system. Includes device driver programs for the Network 4 Interface, SPOOL/DESPOOL programs for remote printing, configuration utilities for the system manager, and user station utilities. Stations can boot from the network or local disk and work stand-alone or in the network system. Sign on to a network account to work with four network devices as drives, in addition to local disk drives and devices.

Hardware Requirements: Network 4 system (see Network 4 Operating System, Cat. No. 26-2773). Stations—256K and Plus Network 4 Interface for Tandy 1000 (25-1019).

Support: Radio Shack.

26-2772 299.00

TANDY PASCAL-09 Color Computer

Description: A complete implementation of this structured programming language with enhancements for expanded input/output and the OS-9 environment.

Hardware Requirements: 64K, disk drives and OS-9 operating system.

Support: Radio Shack.

26-3034 CMC 99.95

PROSOFT

Fontasy PC-Compatible

Description: Presentations! Flyers! Signs! Newsletters! Overhead Foils! Announcements! Menus! Layouts! Invitations! Logos! Banners! When you need a good-looking visual quickly, you need Fontasy—superb typefaces and simple drawing in one easy-to-use package. You can create a page at a time, see a mini-picture of it, and print and save it to disk. You can draw from the keyboard or with a mouse. Type directly onto the screen in whatever fonts you select or have Fontasy read the text from a text file. Comes with 28 fonts, 95 fill patterns, 60 pieces of clip art, on-line Help, 2 reference cards, and a tutorial book.

Hardware Requirements: Graphics adapter.

Support: Brown-Wagh Publishing.

90-3084 69.95

PROSOFT

Fontasy Fonts PC-Compatible

Description: Fontasy Add-On Fonts offers you a delightful variety of styles and sizes, and a convenient way to expand your font library. The three disks in this package contain about thirty of our most popular typefaces, including Chisel, Spotlight, Blink, Bulletin, Broadway, Latch, Ligne, Tonga, Galaxy, Shield, Classic, Floral, Hammer and more. Requires Fontasy (90-3084).

Hardware Requirements: Graphics Adapter.

Support: Brown-Wagh Publishing.

90-3085 49.95

HALO

HALO DPE PC-Compatible

Description: HALO DPE is an easy-to-use desktop publishing program that allows users to merge word processing text with graphics for complete document preparation. It is designed to accommodate newsletters, flyers, and/or documents of ten pages or less. For longer documents, HALO DPE acts as the publisher's partner. It can be used in conjunction with word-based desktop publishing programs (like Ventura) to give users access to HALO DPE's superior drawing, scanning, scaling, and editing functions. HALO DPE offers the following: WYSIWYG operation, 20 type fonts, text at any angle, support for EMS standard expanded boards, compatibility with over 90 graphics displays, mice and printers, support for all of the most popular scanners, compatibility with Windows, Ventura, PageMaker, and much more!

Hardware Requirements: 512K, hard disk, color graphics, Hercules-compatible graphics adapter or EGA adapter, pointing device.

Support: Media Cybernetics.

90-3162 195.00

SOFTWARE
PUBLISHING
CORPORATION

Harvard Professional Publisher 3000/4000

Description: Harvard Professional Publisher is a full-powered page composition program that gives you the superior typographic quality needed to produce the most professional-looking documents possible. Professional Publisher's superior typographic controls deliver optimal word and letter spacing, automatic kerning and tracking, horizontal and vertical justification, ragged right, left, centered or fully-justified margins, and widow and orphan control. Format changes can also be done quickly and easily. You can change the type size, type face, spacing above your headlines, spacing between paragraphs, leading, and many other formats throughout your document in one step. Simply make a change to your style sheet, and see that change immediately reflected on every page of your document. Integrate text, graphics and scanned images or any other business document ranging from one page to hundreds of pages.

Hardware Requirements: 640K memory, hard disk, monochrome monitor with Hercules-compatible graphics adapter or EGA monitor with EGA card. Postscript-compatible printer recommended or dot-matrix printer for draft mode only. Mouse recommended.

Support: Software Publishing Corp.

The Newsroom Clip Art Collection, Vol. 1

1000/3000

Description: After enjoying The Newsroom (90-5511), you're ready for even more fun and variety. With over 600 pieces of all-occasion clip art, variety is exactly what this program is all about. This collection offers a selection of art ranging from the serious to humorous, realistic to caricature. Requires The Newsroom (90-5511).

Support: Springboard.

90-5507 29.95

SPRINGBOARD

The Newsroom Clip Art Collection, Vol. 3

1000/3000

Description: Includes over 600 pieces of sports and recreation-related clip art for the sports enthusiast. Requires The Newsroom (90-5511).

Support: Springboard.

90-5508 29.95

PageMaker

PageMaker 3000/4000

Description: Helps to eliminate the typically expensive and time-consuming chore of designing, laying out and producing publications. Create text and graphics on your personal computer, then you can do the cutting and pasting electronically! In a few easy steps, you can produce virtually any publication imaginable—from flyers and sales catalogs to annual reports. First, write your copy using a standard word processing program. Then, using PageMaker, lay out the columns and add rules, borders or boxes. Next, incorporate the text and graphics onto the page—this is made easier because PageMaker allows graphics to be scaled to any size to fit the space provided. Typefaces can range in size from 4 to 127 points and copy can appear in bold, italic, shadowed or reverse styles. Once the pages appear as you would like, you're ready to print. When you see the results, you'll agree—PageMaker produces finished work that is much easier than it looks!

Hardware Requirements: Hard disk, EGA or Hercules-compatible graphics adapter and Windows-compatible mouse.

Support: Aldus Corp.

25-4110 699.95

HI TECH EXPRESSIONS

PartyWare PC-Compatible

Description: Create a party from start to finish. Using your computer and a dot-matrix printer, you can produce all of your party supplies. Beginning with invitations, you can utilize a database of all your friends and their addresses. Create a theme and produce banners, placemats, place cards, party hats, games, prizes and thank you notes. You can even make animated disks to send special greetings to your "hi-tech" friends. Reminders for birthdays, anniversaries and other special events assure that you forget no occasion.

Hardware Requirements: Color graphics adapter.

Support: Hi Tech Expressions, Inc.

Grade: Instructor 1000

Description: A multilingual word processing program with characters and symbols for French, Spanish, German, Italian, Greek, Hebrew, Russian and English, as well as for science, math, music and typesetting. Special function keys can be assigned to support editing functions, print enhancements, printer formats and input of special characters. You can use a light pen, mouse, cursor or line-oriented editing.

Hardware Requirements: 256K.
Support: Gessler Educational Software.
90-5422 245.00

Batalla de Palabras

**Grade: Beginner & Intermediate 1000
for All Ages**

Description: A new edition of this exciting 2-disk Spanish vocabulary program that teaches words involving food, school, travel, sports, daily life and occupations. This five part

program includes a word display which gives meanings and sentences of nouns, verbs and adjectives for each of the six topics. The multiple choice and sentence completion exercises reinforce usage of the words and the colorful arcade game challenges students to find the translation quickly. The program contains color graphics, optional sound effects and an easy to use editor which allows you to create and print your own vocabulary, exercises and tests.

Hardware Requirements: 256K.

Support: Gessler Educational Software.

90-5425 49.95

Bataille de Mots

Grade: Beginner & Intermediate **1000**
for All Ages

Description: A new edition of this exciting 2-disk French vocabulary program that teaches words involving food, school, travel, sports, daily life and occupations. This five part program includes a word display which gives meanings and sentences of nouns, verbs and adjectives for each of the six topics. The multiple choice and sentence completion exercises reinforce usage of the words and the colorful arcade game challenges students to find the translation quickly. The program contains color graphics, optional sound effects and an easy to use editor which allows you to create and print your own vocabulary, exercises and tests.

Hardware Requirements: 256K.

Support: Gessler Educational Software.

90-5427 49.95

French Antonyms and Synonyms

Grade: Beginner & Intermediate **III/4**
for All Ages

Description: Two exciting games on one disk. The game is "Concentration" in the French language. There is one board for synonyms, another for antonyms. It can be played by two teams or two players who compete to find the pairs of matched words that are randomly hidden.

Hardware Requirements: 48K Disk.

Support: Gessler Educational Software.

90-5430 29.95

German Antonyms

Grade: Beginner & Intermediate **III/4**
for All Ages

Description: Two exciting games on one disk. The game is "Concentration" in the German language. It can be played by two teams or two players who compete to find the pairs of matched words that are randomly hidden.

Hardware Requirements: 48K Disk.

Support: Gessler Educational Software.

90-5432 25.95

La Guillotine

Grade: Beginner & Intermediate **III/4**
for All Ages

Description: Spell the word correctly, and the victim smiles with relief. Spell it incorrectly, and it's off with his head! An entertaining way to study hundreds of words, presented by topic on two levels of difficulty. A French vocabulary review and matching exercise are included for each category. Superb graphics.

Hardware Requirements: 48K Disk.

Support: Gessler Educational Software.

90-5434 29.95

Prompt

1000

Grade: Instructor

Description: This simple, well-designed program enables you to create imaginative exercises for your ESL, French, Spanish, German, Italian and Latin classes. It has easy-to-follow menus that guide you through the writing and editing process. You enter a passage, then add questions and answers. It will format your material into an exercise with help and dictionary options. With multiple-choice questions, you may add comments to each of the distractors. There is a fill-in section which enables you to create cloze-type exercises, offering help to the student in the form of clues, spelling check and comments on anticipated errors. The program will accept two alternate answers for each blank.

Hardware Requirements: 256K.

Support: Gessler Educational Software.

90-5420 150.00

R.S.V.P.—French

Grade: Beginner & Intermediate **1000**
for All Ages

Description: An engrossing French language program with a notional functional base that improves reading, writing, spelling and grammar skills while reinforcing syntax and vocabulary. A passage appears with letters or words missing and the student must fill in the missing items to complete the text. The program is presented in 19 different day-to-day settings. The situations have been chosen with the goal of improving communicative proficiency. Hints are given and definitions of words can be requested. A vocabulary quiz reviews words missed. Contains a test editor.

Hardware Requirements: 256K.

Support: Gessler Educational Software.

90-5428 59.95

R.S.V.P.—Spanish

Grade: Beginner & Intermediate **1000**
for All Ages

Description: A Spanish language program with a notional functional base that improves reading, writing, spelling and grammar skills while reinforcing syntax and vocabulary. A passage appears with letters or words missing, and the student must fill in the missing items to complete the text. The program is presented in 19 different day-to-day settings. The situations have been chosen with the goal of improving communicative proficiency. Hints are given and definitions of words can be requested. A vocabulary quiz reviews words missed.

Hardware Requirements: 256K.

Support: Gessler Educational Software.

90-5426 59.95

Spanish Grammar: POR vs PARA/ SER vs ESTAR

Grade: Beginner, Intermediate **III/4**
or Advanced for All Ages

Description: An easy approach to learning or reviewing difficult grammatical concepts for Level I and II. The rules for each section are first displayed, followed by fill-in-the-blank exercises. A help screen enables students to refer to the rules during the exercises.

Hardware Requirements: 48K Disk.

Support: Gessler Educational Software.

90-5436 32.95

Wortgefecht

Grade: Beginner & Intermediate **1000**
for All Ages

Description: A new edition of this exciting 2-disk German vocabulary program that teaches words involving food, school, travel, sports, daily life and occupations. This five part program includes a word display which gives meanings and sentences of nouns, verbs and adjectives for each of the six topics. The multiple choice and sentence completion exercises reinforce usage of the words and the colorful arcade game challenges students to find the translation quickly. The program contains color graphics, optional sound effects and an easy to use editor which allows you to create and print your own vocabulary, exercises and tests.

Hardware Requirements: 256K.

Support: Gessier Educational Software.

90-5423 49.95

Logic/ Problem Solving

TANDY Ernie's Magic Shapes

Grade: (P)-(1) **Color Computer**

Description: Children learn to sort out the things they see by matching shapes and recognizing similarities and differences. Ages 3-6.

Hardware Requirements: Extended BASIC and cassette recorder.

Support: Radio Shack.

26-2524 CMC 19.95

Learning
Technologies™

Animal Hotel

Grade: (K)-(3) **1000**

Description: This multi-level memory game is for early learners ages 4-8. Similar to the game Concentration, the object of this game is to remember which animals are hidden behind up to six shutters. Users may choose from 1-5 seconds viewing time before the shutter closes. Builds memory skills and early reading skills. This program is also included in Early Learning Curriculum Pack (90-5415).

Hardware Requirements: 256K.

Support: Learning Technologies.

Network Compatibility: 4, with use of Network 4 Install Disk (90-5414) in Teacher Utilities section.

90-5412 24.95

Gertrude's Secrets

Grade: (K)-(4) **1000**

Description: A series of challenging logic puzzles help develop critical thinking and problem-solving skills. As they manipulate colorful playing pieces of different shapes, students learn important classification, grouping, sequencing, and organizing skills. Includes detailed teacher's guide, scope and sequence chart for integration with the curriculum, on-line and off-line activities and blackline masters.

Hardware Requirements: 256K.

Support: The Learning Company.

90-5478 59.95

Learning
Technologies™

Enrichment Curriculum Pack

Grade: (K)-(6) **1000**

Description: This Curriculum Pack provides a comprehensive instructional package of four individual software programs from Learning Technologies' Thinking Strategies Series. It comes complete with lesson plans, reproducible worksheets, and extensive off-line activities. All titles work together to develop and encourage student thinking and to ensure that students are explicitly taught cognitive skills. Titles included are: Alpine Tram Ride, Monkey Business, Math in a Nutshell, and Pipeline. For descriptions of the individual titles included see the alphabetical index for page location.

Hardware Requirements: 256K.

Network Compatibility: 4, with Network 4 Curriculum Pack Install Disk (90-5417) in Teacher Utilities section.

Support: Learning Technologies.

90-5416 99.95

Support: Learning Technologies.

90-5415 99.95

Learning
Technologies™

Clowning Around

Grade: (2)-(6) **1000**

Description: Helps build memory and other problem-solving skills from one of five categories. Users study the position of 12 objects displayed on a grid. The objects disappear and are replaced with a number. One object is then shown at the lower right of the screen, to be matched with its corresponding number on the grid. This program is also included in Early Learning Curriculum Pack (90-5415).

Hardware Requirements: 256K.

Network Compatibility: 4, with Network 4 Install Disk (90-5414) in Teacher Utilities section.

Support: Learning Technologies.

90-5408 24.95

Recess Games

Grade: (2)-(8) **Color Computer**

Description: Consists of 4 games that provide a format for using higher-level thinking skills. Games include Treasure Hunt (using a grid), Guess That Number, Masterbrain, and Tic Tac Toe. Each game encourages logical reasoning. 1- or 2-player options.

Hardware Requirements: 16K Tape or 32K Disk.

Support: B-5 Software.

Tape: 90-5200 19.95

Disk: 90-5201 21.95

TANDY Peanut Butter Panic

Grade: (2)-(UP)

Color Computer

Description: A Cooperative Strategy Game. Players catch stars for points. For ages 7-up.

Hardware Requirements: Extended BASIC, joysticks and cassette recorder.

Support: Radio Shack.

26-2523 CMC 19.95

Gertrude's Puzzles

Grade: (3)-(7)

1000

Description: Six challenging puzzles expand user's analytical thinking skills. By ordering and sorting playing pieces by shape and color attributes, the user learns to recognize patterns and relationships and to categorize information. Includes detailed teacher's guide, scope and sequence chart for integration with the curriculum, on-line and off-line activities and blackline masters.

Hardware Requirements: 256K.

Support: The Learning Company.

90-5479 59.95

Moptown Hotel

Grade: (3)-(7)

Color Computer

Description: Advanced fun and excitement with the delightful characters of Moptown. Strategic thinking skills are developed by use of analogies, sequences and hypotheses. Seven increasingly difficult games require concentration, logic and pattern recognition.

Hardware Requirements: 32K and one disk drive.

Network Compatibility: 2.

Support: The Learning Company.

90-0463 39.95

Moptown Parade

Grade: (3)-(7)

Color Computer

Description: A parade of friendly "Mopet" characters helps students develop the underlying pattern recognition, sequencing, and thinking skills essential to math and reading. Colorful graphics and music encourage students to discover similarities, differences, and patterns in seven progressively sequenced games.

Hardware Requirements: 32K and one disk drive.

Support: The Learning Company.

90-0464 39.95

Alpine Tram Ride

Grade: (4)-(6)

1000

Description: Sharpens problem-solving and deductive logic skills using a unique variation of the game Mastermind. Learners must apply a deductive strategy to discover which of ten animals is traveling in each of four tram cars. Feedback after each attempt forces learners to reassess their solution and find the animals in a minimum number of tries. The program promotes both problem-solving skills and accuracy and provides hours of challenging practice for learners from ages 8 through adult. Automatic score reporting provides added motivation by promoting competition between users or against oneself. This program is also included in Enrichment Curriculum Pack (90-5416).

Hardware Requirements: 256K

Network Compatibility: 4, with use of Network 4 Install Disk (90-5414) in Teacher Utilities section.

Support: Learning Technologies.

90-5411 24.95

Monkey Business

Grade: (4)-(6)

1000

Description: The challenge of this program is in using the fewest possible moves to stack a specified number of monkeys of varying sizes so that the top monkey can reach apples hanging from a tree branch. The challenge is increased by the fact that only smaller monkeys can be stacked on larger monkeys and player is to stack the monkeys in the fewest number of moves. This program is also included in Enrichment Curriculum Pack (90-5416).

Hardware Requirements: 256K

Network Compatibility: 4, with use of Network 4 Install Disk (90-5414) in Teacher Utilities section.

Support: Learning Technologies.

90-5409 24.95

Pipeline

Grade: (4)-(6)

1000

Description: The challenge presented here is to use any combination of eight differently shaped pipe segments to connect a water tap with a specific number of objects; such as swimming pools, fire hydrants, washing machines, fountains, and kitchen sinks, all displayed on the screen so that when the water is turned on, it flows to each object. Activities are structured at three levels of difficulty and users may increase the challenge by choosing to work against a time limit. This program is also included in Enrichment Curriculum Pack (90-5416).

Hardware Requirements: 256K.

Network Compatibility: 4, with use of Network 4 Install Disk (90-5414) in Teacher Utilities section.

Support: Learning Technologies.

90-5410 24.95

Rocky's Boots

Grade: (4)-(12)

1000

Description: Hailed as a software classic by the New York Times, the award-winning Rocky's Boots helps develop skills in logical problem-solving, abstract reasoning, and creative thinking. The concepts of electronic circuitry, circuit design and logic are explored in a motivating environment where players invent machines to solve puzzles and to win more than 30 different games, including games they design themselves. The school version includes 2 disks, a teacher guide, scope and sequence chart and student materials.

Hardware Requirements: 256K.

Support: The Learning Company.

Tandy 1000. School Version. 90-5454 64.95

Robot Odyssey

Grade: (7)-(12)

1000/Color Computer

Description: A highly sophisticated program to help develop skills in logical problem-solving, abstract reasoning and creative thinking. The concepts of electronic circuitry, circuit design and logic are explored.

Hardware Requirements: Tandy 1000—256K. Color Computer—64K and one disk drive.

Support: Radio Shack.

Tandy 1000. 25-1135 34.95

Color Computer. 26-3284 34.95

HBJ**Computer Preparation
for the SAT****Grade:** (11)-(12)**1000**

Description: The program scores and times automatically, diagnoses student's strengths and weaknesses in 15 subject areas, develops a personalized study plan, and outlines specific drills and review exercises. The comprehensive textbook includes test-taking strategies and four full-length sample exams. A recent independent study shows that students who used HBJ's program for only 7 hours increased their SAT scores by an average of 94 points.

Hardware Requirements: 256K Disk.**Support:** Harcourt, Brace, Jovanovich.

90-5080 39.95

**Simon & Schuster Lovejoy's Preparation
for the SAT**

COMPUTER SOFTWARE

Grade: (11)-(12)**1000/3000**

Description: Includes two practice exams; 25 separate practice modules; extensive "Help" screens; a utility program that both calculates projected SAT scores and creates bar-graphs of scores and progress; over 60 pages of tips and strategies for taking the SAT; also included is Lovejoy's Concise College Guide, the best-selling sourcebook for college-bound students.

Hardware Requirements: 256K**Support:** Simon & Schuster, Inc.

90-3096 59.95

**CBS
SOFTWARE****Mastering the SAT****Grade:** (11)-(12)**III**

Description: A comprehensive, self-paced preparation course for the Scholastic Aptitude Test. Covers all areas of the SAT: Verbal, Math, and Standard Written English.

Hardware Requirements: 48K and one disk drive.**Support:** Radio Shack.

26-1975 99.95

Math**TANDY****Grover's
Number Rover****Grade:** (P)-(1)**Color Computer**

Description: Grover's Rover is ready to blast off and pick up Twiddlebugs. Grover has opened one window for each Twid on the ground, but it's up to the player to help the Twids get on board. Children choose from six different games, including one they create themselves. Children learn number identification, counting, addition and subtraction. Ages 3-6.

Hardware Requirements: Extended BASIC.**Support:** Radio Shack.

26-2522 CMC 19.95

Weekly Reader**Software****Stickybear Numbers****Grade:** (P)-(1)**1000**

Description: Counting and number recognition become as easy as 1, 2, 3, using colorful groups of trucks, ducks, planes and more. Over 250 picture combinations reinforce number and counting skills. Helps children with hands-on experience with computers at an early age.

Hardware Requirements: 256K.**Support:** Weekly Reader.

90-5301 39.95

**Compu-
Teach™****ArithMATIC:Addition****Grade:** (P)-(2)**PC-Compatible**

Description: Amusing and varied graphic effects, accompanied by sound, make a game of solving simple addition problems. Responses are monitored, success is rewarded with lively graphics, and errors result in a simple demonstration of correct procedure.

Hardware Requirements: 256K.**Support:** Compu-Teach.

90-3027 34.95

**Compu-
Teach™****ArithMATIC:Counting****Grade:** (P)-(2)**PC-Compatible**

Description: ArithMATIC:Counting has two games to play: "Introduction to Numbers" and "Counting." Both are designed to introduce concepts essential to later development of mathematical thinking.

Hardware Requirements: 256K.**Support:** Compu-Teach.

90-3028 34.95

**Compu-
Teach™****ArithMATIC:Subtraction****Grade:** (P)-(2)**PC-Compatible**

Description: ArithMATIC:Subtraction includes a number of "parameter settings" which allow the program to display different levels of challenge according to each child's ability and learning needs.

Hardware Requirements: 256K.**Support:** Compu-Teach.

90-3033 34.95

**Learning
Technologies™****Learning to
Add and Subtract****Grade:** (P)-(3)**1000**

Description: In this program learners may choose from three separate programs to practice addition and subtraction of one digit numbers. No problem has a sum of remainder greater than 9. Picture clues provide help. This program also included in Early Learning Curriculum Pack (90-5415).

Hardware Requirements: 256K.**Network Compatibility:** 4, with use of Network 4 Install Disk (90-5414) in Teacher Utilities section.**Support:** Learning Technologies.

90-5406 24.95

Berta-Max Inc.

Number Match**Grade:** (K)-(1)**Color Computer**

Description: In this program, youngsters learn to match numerals 1 to 9 with corresponding domino patterns and with corresponding sets of objects. The purpose of the program is to help children learn what numbers mean, not simply to learn to count. A correct match is rewarded by a smiling face. The speed of play can be adjusted to fit the user's ability.

Hardware Requirements: Disk.**Support:** Berta-Max Inc.

90-5257 24.95

DesignWare

Creature Creator

Grade: (K)-(2)

1000

Description: Creature Creator introduces young children to the computer and keyboard control, in addition to developing skills important in learning reading and math: use of symbols, pattern recognition and pattern matching. Children create strange and colorful creatures from different heads, arms, bodies and legs, and then make their creatures dance along or pattern movements to match the computer's creature. Teaches computer literacy and math and reading readiness.

Hardware Requirements: Disk.

Support: DesignWare, Inc.

90-5084 19.95

Bumble Games

Grade: (K)-(5)

Color Computer

Description: This program teaches graphing skills with six appealing games of increasing difficulty. Basic mathematics and geometry are made easy with this classroom-tested program. There are six games designed to introduce the basics of numbers and number plotting through the use of number pairs. Game strategies encourage problem solving and thinking skills. Children are guided by friendly Bumble, an imaginary creature from the planet Furrin. Students plot Bumble's pictures and their own pictures as they apply their new skills to computer graphics. Exciting graphics and live music reinforce learning.

Hardware Requirements: Disk drive.

Network Compatibility: 2.

Support: The Learning Company.

90-0461 39.95

Math Numbers

Grade: (K)-(5)

Color Computer

Description: Designed for grade school students, this series offers coverage of a broad range of mathematical fundamentals. Areas include learning number meanings, drills in addition and subtraction, drills in multiplication and division, plus an emphasis on place values, fractions, and more. First lessons may be appropriate for pre-schoolers. The series contains sixteen tutorial programs on eight cassettes with audio narration.

Hardware Requirements: Tape.

Support: Dorsett Educational Systems, Inc.

90-5461 59.90

THE
HOME
SCHOOL

Number Master

Grade: (K)-(6)

1000/NW 4

Description: A mental arithmetic skill builder for whole number addition, subtraction, multiplication, and division. Both skills assessment and instructional modes are provided. Features include unlimited skill levels, automatic branching based on student performance, extensive optional Help windows, remediation imbedded in new material, and a printed problem set generator. Optional learning formats include flashcards, sequences, missing operands, and review of past work. Permanent record keeping and reporting for any number of students.

Hardware Requirements: 256K.

Support: The Home School.

Tandy 1000. 90-5158 69.95

Network 4. 90-5166 299.95

Path Tactics

Grade: (K)-(6)

1000

Description: Students playing alone or with classmates move robots along a racetrack by correctly solving counting, addition, subtraction, multiplication, and division problems. Teacher options allow students with unequal math skills to compete on equal footing.

Hardware Requirements: 256K.

Support: MECC.

90-5287 54.00

Addition

Grade: (K)-(12)

III/4/Color Computer

Description: The Addition Set is part of the "Math For All Ages" series. "Math For All Ages" is designed for students needing practice with whole number operations. The problems used in these programs are randomly selected, and the management system records a score and also records the problems that are missed. Skills taught in the Addition Set include basic facts, two- and three-digit addends, repeated addition and renaming.

Hardware Requirements: Disk.

Network Compatibility: 2, 3 (90-5360 only).

Support: Aquarius People Materials, Inc.

Model III/4. 90-5360 115.00

Color Computer. 90-5492 115.00

TANDY

K-8 Math Program, Volume One

Grade: (K)-(8)

I/III/4

Description: A series of ten computer programs designed for use with students in kindergarten through grade eight. Each of the ten programs includes a graded series of practice lessons. Problems within each lesson are randomly generated according to specific guidelines for that lesson. Part One provides skill-building exercises and a test mode in numeration, addition, and subtraction concepts for kindergarten through grade three. Part Two provides skill-building exercises, a text mode, and a placement mode for addition, subtraction, multiplication, and division concepts for grades one through eight. Complete lesson summaries are included.

Hardware Requirements: 16K with cassette recorder or 32K disk system.

Network Compatibility: 2, 3, 4.

Support: Radio Shack.

26-1715 199.00

TANDY

K-8 Math Program, Volume One, With Student Management

Grade: (K)-(8)

I/III/4

Description: This program has the same features as K-8 Math Program, but with added student management capabilities. This added feature assures that each student is automatically presented with the appropriate lesson at each session. The system also keeps a record of each student session. Included in this package is the Radio Shack K-8 Math Cross-Reference, which can help teachers correlate the program lessons with standard classroom materials.

Hardware Requirements: 32K Disk System.

Network Compatibility: 3.

Support: Radio Shack.

26-1725 199.00

MATH

Essential Math— Version 2.0: Grade 1

Grade: ① **1000**

Description: Essential Math Grade 1 includes 30 lessons in number concepts, addition, and subtraction. Some lessons are followed with game activities for those students that finish the assigned number of problems. The program allows the teacher to determine the number of problems in each lesson. If students need additional help, they can call up a number chart on the screen to use in their calculations.

Hardware Requirements: Tandy 1000—256K. Tandy 1000 EX/SX—384K.

Support: Berta-Max Inc.
90-5261 39.95

Weekly Reader Software

Grade: ①-③ **1000**

Description: Young learners solve sets of addition and subtraction problems, and help Stickybear out of some sticky situations. Computer automatically advances or program can be customized. Horizontal or vertical problems, single to four-digit problems. Stores records for up to 25 users.

Hardware Requirements: 256K.

Support: Weekly Reader.
90-5300 39.95

Success With Math: Addition and Subtraction

Grade: ①-④ **III**

Description: Comprehensive, self-paced math tutorial that goes beyond the benefits of mere drill exercises alone. Problems are generated at random and students are directed to the source of all errors before continuing. Teaches addition and subtraction.

Hardware Requirements: 32K and one disk drive.

Support: Radio Shack.
26-1971 19.95

Clock

Grade: ①-④ **Color Computer**

Description: A large graphic clock with synchronized hands enables children to practice telling time. "Clock" includes 5 skill levels: hour, half hour intervals, quarter hour, 5 minutes and 1 minute levels. The large graphic clock can be displayed with 12 or 24 hours and has synchronized moving hands. Child may choose to ask for the hour hand first and then the minute hand. A graphic reward is presented for each series of correct answers. The Radio Shack Speech/Sound Program Pak can be used.

Hardware Requirements: 16K Tape or 32K Disk.

Support: B-5 Software.
Tape. 90-5181 24.95
Disk. 90-5182 26.95

Mathfact

Grade: ①-⑤ **Color Computer**

Description: Mathfact includes all operations: addition, subtraction, multiplication, and division. Students select the operation and then the specific number they wish to practice by. In Level 1, each problem is illustrated with graphic blocks. In

Level 2, facts are given without illustrations. All drills are timed and scored. The program branches to illustrations when errors are made. Students self-correct their errors.

Hardware Requirements: 16K Tape or 32K Disk.

Support: B-5 Software.

Tape. 90-5189 18.95
Disk. 90-5190 20.95

Skip Counting

Grade: ①-⑤ **Color Computer**

Description: User selects a number to count by and the beginning and ending number of each counting sequence. Students may count by 1's, 2's, 3's, 4's, 5's, 10's, 15's, 20's, 25's, 50's, etc. What comes after 99 or 999? Practice odd and even numbers. Many possibilities.

Hardware Requirements: 16K Tape or 32K Disk.

Support: B-5 Software.

Tape. 90-5195 18.95
Disk. 90-5196 20.95

TANDY

Bingo Math

Grade: ①-⑥ **Color Computer**

Description: Children improve their basic math skills with stimulating exercises in addition, subtraction, multiplication, division and number recognition.

Hardware Requirements: Joysticks.

Support: Radio Shack.

26-3150 CMC 29.95

Math Blaster

Grade: ①-⑥ **PC-Compatible**

Description: Award-winning Math Blaster helps students in grades 1 through 6 master basic math facts using 600 problems. This easy, fun and effective program includes animation, color and sound and an arcade-style game provides a fun and challenging format for students.

Support: Radio Shack.

90-3068 39.95

DesignWare

Math Maze

Grade: ①-⑥ **1000**

Description: Math Maze is an entertaining way for children to practice addition, subtraction, multiplication, and division facts. The child must successfully navigate through the maze and select the numbers that answer the math problems presented. Children can focus on the specific type of math facts they need to practice and vary the difficulty level of game play. It allows children to create their own maze games.

Support: DesignWare, Inc.

90-5085 39.95

Gamco Industries Inc.

Money

Grade: ①-⑥ **III/4**

Description: This program combines drill in money skills, an arcade-style reward game, and a teacher management system. Students choose from four lessons: (1) Pennies, Nickels and Dimes, (2) Pennies, Nickels, Dimes and Quarters, (3) Pennies, Nickels, Dimes, Quarters and Half-dollars, and (4) Pennies, Nickels, Dimes, Quarters, Half-dollars and Dollars. Within each lesson, students can choose four kinds of exercises. All problems are randomly generated.

Hardware Requirements: Disk.

Support: Gamco Industries, Inc.

90-5121 54.95

Alien Addition

Grade: ①-⑧ **1000**
Description: Alien Addition provides practice in basic addition facts using an "alien invasion" theme complete with space-ships and laser cannons.
Support: DLM Teaching Resources.
90-5130 46.00

Alligator Mix

Grade: ①-⑧ **1000**
Description: Alligator Mix is a challenging program in which students feed hungry alligators in order to increase their skill in both addition and subtraction facts.
Support: DLM Teaching Resources.
90-5134 46.00

TANDY

Color Math

Grade: ①-⑧ **Color Computer**
Description: The Radio Shack Color Math Program is designed for children in grades one through eight. It consists of four topics: addition, subtraction, multiplication, and division, and offers placement, skill-building lessons, and testing options in each. Students can be placed by the computer at their appropriate skill levels, take lessons at those levels, receive performance reports, and take a test on any lesson. Lesson summaries are provided in the user's manual. Within each lesson, problems are randomly generated according to specific guidelines.
Hardware Requirements: 16K with cassette recorder or 32K disk system. Extended Color BASIC required.
Network Compatibility: 2.
Support: Radio Shack.
26-3202 39.95

Demolition Division

Grade: ①-⑧ **1000**
Description: Demolition Division gives students the opportunity to practice basic division facts as tanks move toward cannons that the player can fire.
Support: DLM Teaching Resources.
90-5133 46.00

Dragon Mix

Grade: ①-⑧ **1000**
Description: Dragon Mix, a program in which a large dragon protects the city behind it from invading forces, provides practice in multiplication and division facts.
Support: DLM Teaching Resources.
90-5135 46.00

Essential Math—Version 2.0: Grade 6/TM Berta-Max Inc. Fractions/TM TCE Programs, Inc. Geometry/TM Dorsett Educational Sys., Inc. Graphing/TM MECC. Graphing is Fun/TM Aquarius People Material Inc

Meteor Multiplication

Grade: ①-⑧ **1000**
Description: Meteor Multiplication, a highly motivating program in which players must disintegrate meteors moving toward a star station, helps students master basic multiplication facts.
Support: DLM Teaching Resources.
90-5132 46.00

Minus Mission

Grade: ①-⑧ **1000**
Description: Minus Mission offers practice in basic subtraction facts by letting students disintegrate large green blobs of dripping slime using a robot who fires laser beams.
Support: DLM Teaching Resources.
90-5131 46.00

Essential Math— Version 2.0: Grade 2

Grade: ② **1000**
Description: Essential Math Grade 2 contains 30 lessons which include number concepts, addition, and subtraction. The teacher can determine the length of each lesson, and after certain lessons, there are game activities for those students that have finished the assigned number of problems. The program includes a feature that allows students to call visual helps to the screen if they are needed in the calculations.
Hardware Requirements: Tandy 1000—256K Disk. Tandy 1000 EX/SX—384K.
Support: Berta-Max Inc.
90-5262 39.95

Borrow

Grade: ②-④ **Color Computer**
Description: Borrow provides practice in subtracting with regrouping. Problems appear in large graphic numerals. Boxes above numerals allow for regrouping procedures. There are 7 skill levels. After 10 correct answers, a graphic reward is displayed.
Hardware Requirements: 16K Tape or 32K Disk.
Support: B-5 Software.
Tape: 90-5185 19.95
Disk: 90-5186 21.95

Carry

Grade: ②-④ **Color Computer**
Description: Carry provides practice in addition with regrouping. Problems appear in large graphic numerals. Boxes above numerals allow for regrouping procedures. There are 4 skill levels. After 10 correct answers, a graphic reward is displayed.
Hardware Requirements: 16K Tape or 32K Disk.
Support: B-5 Software.
Tape: 90-5187 19.95
Disk: 90-5188 21.95

Money

Grade: (2)-(4)

Color Computer

Description: Money enables children to practice counting coins. The five skill levels range from counting only dimes, nickels, and pennies to counting combinations of all coins that can total more than \$1.00. Correct answers are rewarded by a spaceship ascending to the moon.

Hardware Requirements: 18K Tape or 16K Disk.

Support: B-5 Software.

Tape: 90-5183 19.95

Disk: 90-5184 21.95

Basic Arithmetic

Grade: (2)-(6)

III/4

Description: The Basic Arithmetic package is designed to help students in grades two through six strengthen their arithmetic skills. Basic Arithmetic was developed by MECC™, the Minnesota Educational Computing Corporation. Four programs are included: Base Ten, Estimate, Math Game, and Speed Drill. Base Ten is a timed multiplication drill presented in a game format. An option allows the teacher to change the program to include multiplication of whole numbers 0-9, multiples of ten, or decimals. Estimate is a timed estimation drill on the four basic operations and percentages, using whole numbers. Math Game is a timed estimation drill on the four basic operations using whole numbers in a contest format. Scoring and problem difficulty are based on the age and ability of the student. Speed Drill is a timed drill on the four basic operations using whole numbers. A teacher option allows the teacher to determine the difficulty of the problems.

Hardware Requirements: 48K disk system.

Support: Radio Shack.

26-2790 44.95

DesignWare™

Trap-A-Zoid

Grade: (2)-(8)

1000

Description: Trap-A-Zoid increases children's understanding of basic geometry concepts. The object of the game is to capture alien Zoids inside shapes children draw on the screen with a joystick or keyboard. If the child captures the Zoid in one of the shapes indicated at the bottom of the screen, the child wins the points. Students can make the game more challenging by changing the speed of the Zoids, by playing with Super-Zoids and bonus geometry questions, or by increasing the complexity of the geometric shapes. Includes a dictionary of geometry terms.

Support: DesignWare, Inc.

90-5086 39.95

Essential Math— Version 2.0: Grade 3

Grade: (3)

1000

Description: Essential Math Grade 3 has 10 lessons in each of the following six areas: Number Concepts, Addition, Subtraction, Multiplication, Division, and Fractions. The teacher determines the length of each lesson, and there are game activities at the end of some lessons for those students that have completed the assigned material.

Hardware Requirements: Tandy 1000—256K Disk. Tandy 1000 EX/SX—384K.

Support: Berta-Max Inc.

90-5263 65.95

Fractions

Grade: (3)-(6)

Color Computer

Description: The Fractions program explains fractions through the use of colorful graphics. The student studies the different ways fractions can be represented. The lessons include improper fractions, mixed fractions, and proper fractions. The use of motion and color displays the fractional equivalents. Fractions practice offers a random computer-generated quiz.

Hardware Requirements: 16K Tape or 16K Disk.

Support: TCE Programs, Inc.

Tape: 90-5039 19.95

Disk: Compatible with Network 2. 90-5040 23.95

Learning
Technologies™

Math in a Nutshell

Grade: (3)-(6)

1000

Description: Users see an equation in which a question mark replaces the arithmetic operation signs. The challenge is to choose the correct combinations of arithmetic operations to solve problems at three different levels of difficulty. This program also included in Enrichment Curriculum Pack (90-5416).

Hardware Requirements: 256K.

Network Compatibility: 4, with use of Network 4 Install Disk (90-5414) in Teacher Utilities section.

Support: Learning Technologies.

90-5407 24.95

Math Facts Games

Grade: (3)-(9)

1000

Description: The purpose of this set of four games is to provide motivating practice on the 400 basic math facts in addition, subtraction, multiplication, and division. The user can choose any operation or combination of operations at any one of four levels of difficulty. To play each game, the user must first correctly give a basic fact, then he or she can take a turn at the chosen game.

Hardware Requirements: Tandy 1000—256K Disk. Tandy 1000 EX/SX—384K.

Support: Berta-Max Inc.

Set 1: 90-5271 34.95

Set 2: 90-5272 34.95

Number Cruncher

Grade: (3)-(9)

1000

Description: This "Function Machine" accepts the number the user inserts. Then wheels turn and out pops a new number that the Number Cruncher made out of the old one. The object of the game is to guess the rule that the Number Cruncher used to make the new number out of the old one. This highly motivating activity teaches students the concept of a mathematical function in a captivating manner.

Hardware Requirements: Tandy 1000—256K Disk. Tandy 1000 EX/SX—384K.

Support: Berta-Max Inc.

90-5273 49.95

Essential Math— Version 2.0: Grade 4

Grade: (4) 1000

Description: Essential Math Grade 4 provides drill and practice on essential mathematical skills in the following seven areas: Number Concepts, Addition, Subtraction, Multiplication, Division, Fractions, and Decimals. The program includes teacher options for changing the length of lessons, and a simple record-keeping system. Extra activities are found at the end of many of the lessons for students that finish with the assigned material.

Hardware Requirements: Tandy 1000—256K Disk. Tandy 1000 EX/SX—384K.

Support: Berta-Max Inc.

90-5284 69.95

Problem Solving in Math

Grade: (4) 1000

Description: The programs in this series represent a substantial body of graded lesson material that is designed to teach students in grade 4 to solve math problems in particular and other problems in general. The lessons are designed on principles tested in the senior author's own research and the research of other psychologists and learning theorists. While the primary focus of these lessons is to learn strategies to solve math problems, the same strategies can be used to solve many different kinds of problems.

Hardware Requirements: Tandy 1000—256K Disk. Tandy 1000 EX/SX—384K.

Support: Berta-Max Inc.

90-5267 169.95

Bumble Plot

Grade: (4)–(8)

Color Computer

Description: Bumble Plot is the advanced version of Bumble Games. It may be used by itself or as a follow-up to Bumble Games. It introduces the concepts of negative and positive numbers, and lets the child "create" original drawings through five increasingly challenging games.

Hardware Requirements: 16K Disk.

Network Compatibility: 2.

Support: The Learning Company.

90-0462 39.95

Math Fractions

Grade: (4)–(8)

Color Computer

Description: This series covers basic concepts of fractions with an emphasis on addition, subtraction, multiplication, and division of fractions. It also covers conversions of fractions to decimals, decimals and fractions to percents, and word problems with percents. Students will learn how to find the area of a circle using pi. The series contains sixteen tutorial programs on eight cassettes with audio narration.

Hardware Requirements: Tape.

Support: Dorsett Educational Systems, Inc.

90-5462 59.90

Prices Apply at Radio Shack Computer Centers and Participating Radio Shack Stores and Dealers. Math in a Nutshell/TM Learning Technologies. Math Percent/Decimals/TM Dorsett Educational Sys., Inc. Meteor Multiplication/TM DLM Teaching Resources.

TANDY

Number Patterns

Grade: (4)–(8)

I/III/4

Description: Number Patterns is a 36-page booklet that shows how to introduce sequences and series in an entertaining way using computers. Program listings for use with Model I, III, or 4 BASIC are included.

Hardware Requirements: Cassette or disk system.

Support: Radio Shack.

26-2752 2.50

Essential Math— Version 2.0: Grade 5

Grade: (5)

1000

Description: Essential Math Grade 5 provides drill and practice exercises for students in the areas of Number Concepts, Addition, Subtraction, Multiplication, Division, Fractions, and Decimals. The program includes teacher options which permit the teacher to determine the length of lessons, and a simple record-keeping system which allows the teacher to keep track of each student's progress. Extra activities are included.

Hardware Requirements: Tandy 1000—256K Disk. Tandy 1000 EX/SX—384K.

Support: Berta-Max Inc.

90-5265 79.95

Success With Math: Multiplication and Division

Grade: (5)–(8)

III

Description: Comprehensive, self-paced math tutorial that goes beyond the benefits of mere drill exercises alone. Students are directed to the source of all errors before continuing. Teaches multiplication and division.

Hardware Requirements: 32K and one disk drive.

Support: Radio Shack.

26-1972 19.95

Math Percents/ Decimals

Grade: (5)–(12)

Color Computer

Description: Designed for students in grades 5-12, this series covers the function of the decimal point, place values, addition and subtraction of decimals, conversion of fractions and percents to decimals, simple equations, and more. The series contains sixteen tutorial programs with audio narration.

Hardware Requirements: Tape.

Support: Dorsett Educational Sys., Inc.

90-5471 59.90

Essential Math— Version 2.0: Grade 6

Grade: (6)

1000

Description: Provides drill and practice on essential mathematical skills in number concepts, addition, subtraction, multiplication, division, fractions, and decimals. It allows a teacher to choose length of the lessons, and a simple record-keeping system lets the teacher keep track of each student's progress.

Hardware Requirements: Tandy 1000—256K Disk. Tandy 1000 EX/SX—384K.

Support: Berta-Max Inc.

90-5266 79.95

Math Shop

Grade: **(6)-(9)**

1000/NW 4

Description: Students sharpen their problem solving skills by applying math concepts to "real life" situations. Students solve a problem using a specific curriculum concept such as proportions, fractions, measurement, addition, subtraction, or decimals. In 10 different store settings, the correct answer "fills" a customer's order. It is challenging with progressively harder problems.

Hardware Requirements: 256K.

Support: Scholastic.

90-5296 87.45

Network 4 Version. 90-5299 437.25

Geometry

Grade: **(6)-(10)**

Color Computer

Description: This series is designed as an introduction to Geometry. Areas covered include finding the area of a triangle, squares of small numbers, the Pythagorean Theorem, formulas for finding the perimeters and areas of rectangles and squares and much more. The series contains sixteen tutorial programs on eight cassette tapes with audio narration.

Hardware Requirements: Tape.

Support: Dorsett Educational Systems, Inc.

90-5466 59.90

Graphing is Fun

Grade: **(6)-(12)**

III/4

Description: Provides students with simplified instruction on the purpose, interpretation and construction of Bar Graphs, Picture Graphs, Pie Graphs and Line Graphs. The lessons are arranged in a story problem format, and instructions for constructing each type of graph are woven in with the stories. Programs are menu-driven.

Hardware Requirements: Disk.

Network Compatibility: 2, 3.

Support: Aquarius People Materials, Inc.

90-5370 55.00

Radio Shack's line of Tandy Computers, printers and accessories, as well as Radio Shack and Express Order software are featured in the 1988 Tandy Computer Catalog & Software Reference Guide.

It's 124 pages, packed with product specifications, color photographs and pricing information. Ask for your free copy of Catalog RSC-19 at any Radio Shack Computer Center.

Solving Word Problems

Grade: **(6)-(12)**

III/4

Description: Programs instruct students in the use of a step-by-step procedure for solving word problems. Reading level is kept low so that students may concentrate on the problem-

solving procedure.

Hardware Requirements: Disk.

Network Compatibility: 2, 3.

Support: Aquarius People Materials, Inc.

90-5368 79.00

Survival Math Series

Grade: **(6)-(12)**

III/4

Description: Students practice skills in whole number operations, fractions, percents, and decimals while solving problems dealing with purchasing, managing a checking account, and comparative shopping. Titles: Real Cost; Understanding Checkbooks/Statements; Fractions, Percents, and Decimals.

Hardware Requirements: Disk.

Network Compatibility: 2, 3.

Support: Aquarius People Materials, Inc.

90-5372 85.00

Success With Math: Linear Equation

Grade: **(7)-(11)**

III

Description: Comprehensive, self-paced math tutorial that goes beyond the benefits of mere drill exercises alone. Problems are generated at random and students are directed to the source of all errors before continuing. Teaches linear equations.

Hardware Requirements: 32K and one disk drive.

Support: Radio Shack.

26-1973 19.95

TANDY Color Essential Math Program, Volume One

Grade: **(7)-(12)**

Color Computer

Description: The Radio Shack Color Essential Math Program provides skill-building drills for grades seven through twelve to reinforce math concepts introduced by the teacher. Volume One of the Color Essential Math Program covers addition, subtraction, multiplication, division, and number concepts. The program gives immediate feedback for correct and incorrect answers. Special features of this program include a series of graded lessons within each topic, a placement mode, a promotion/demotion option, and a comprehensive reporting function. Math problems presented are randomly generated according to specific rules for each lesson, which means that no two repetitions of a lesson will be exactly alike.

Hardware Requirements: 32K with cassette recorder or 32K disk system. Extended Color BASIC required.

Network Compatibility: 2.

Support: Radio Shack.

26-2643 120.00

TANDY

Essential Math Program, Volume One

Grade: **(7)-(12)**

I/III/4

Description: The Radio Shack Essential Math Program provides skill-building drills for grades seven through twelve to reinforce math concepts introduced by the teacher. Volume One of the Essential Math Program covers addition, subtraction, multiplication, division, and number concepts. The program gives immediate feedback for correct and incorrect answers. Features of this program include a series of graded lessons within each topic, a placement mode, a promotion/demotion option, and a comprehensive reporting function. Math problems presented are randomly generated according

to specific rules for each lesson, which means that no two repetitions of a lesson will be exactly alike.
Hardware Requirements: 16K with cassette recorder or 32K disk system. The Model III/4 software included in the package can be traded in for a Model I version of the program.
Network Compatibility: 2, 3, 4.
Support: Radio Shack.
 26-1716 199.00

TANDY

Essential Math Program, Volume Two

Grade: (7)-(12)

I/III/4

Description: The Radio Shack Essential Math Program provides skill-building drills for grades seven through twelve to reinforce math concepts introduced by the teacher. Volume Two of the Essential Math Program covers fractions, decimals, percent, and pre-algebra concepts. The program gives immediate feedback for correct and incorrect answers. Features of this program include a series of graded lessons within each topic, a placement mode, a promotion/demotion option, and a comprehensive reporting function. Math problems presented are randomly generated according to specific rules for each lesson, which means that no two repetitions of a lesson will be exactly alike.

Hardware Requirements: 16K with cassette recorder or 32K disk system. The Model III/4 software included in the package can be traded in for a Model I version of the program.

Network Compatibility: 2, 3, 4.

Support: Radio Shack.

26-1719 199.00

Graphing

Grade: (7)-(12)

Color Computer

Description: Graphing contains five programs designed for use in a variety of mathematics classes at grade levels seven through twelve. Graphing was developed by MECC™, the Minnesota Educational Computing Corporation. The five programs are: Slope, Polygraph, Polar, Snark, and Radar. The Slope program graphs up to five linear equations on one coordinate system. Polygraph graphs polynomials, conics, and other functions on a Cartesian coordinate system. Polar graphs polar functions using a Cartesian coordinate system. Snark presents concepts of coordinate points and circles in a game format in which students try to locate a "snark" creature hidden on a grid. Radar simulates a search for a runaway ship using a radar screen display. Students use angles of 0 to 359 degrees to direct the rescue boat.

Hardware Requirements: 32K disk system with Disk Extended Color BASIC.

Support: Radio Shack.

26-2794 34.95

Homework Helper: Math Word Problems

Grade: (7)-(12)

PC-Compatible

Description: Students can sharpen their math skills with this two-part interactive program designed to help them understand and solve word problems.

Hardware Requirements: 256K.

Support: Spinnaker Software.

90-3130 49.95

TANDY

Investigations in Integral Calculus

Grade: (7)-(12)

I/III/4/Color Computer

Description: Investigations in Integral Calculus is designed to help students discover some of the fundamentals of calculus on the microcomputer. The program was written in an effort to help students learn the fundamentals of integral calculus in a way that avoids the complex theoretical approach traditionally used in calculus textbooks. A Selected Investigations section in the program manual contains a series of fourteen investigations that cover the following topics in integral calculus: the trapezoidal rule, integral notation, the integral of a constant function, negative integrals, the integral of x^n , the integral of $1/x$, the integral of the sine and cosine functions, the integral of the exponential function, the integral of a constant times a function, the integral of the sum of two functions.

Hardware Requirements: 16K with cassette recorder or 32K disk system. Extended Color BASIC is required for 26-2641.

Network Compatibility: 26-2600—2, 3, 4. 26-2641—2.

Support: Radio Shack.

Model I/III/4. 26-2600 39.95

Color Computer. 26-2641 39.95

Multiplication & Division of Fractions

Grade: (7)-(12)

III/4

Description: Skills practice for Grades 7-12. You can choose the level of difficulty for practice multiplying and dividing fractions. Problems are randomly chosen. Student is led step-by-step through problems and cannot go on until current step is correct.

Hardware Requirements: Disk.

Support: Daybreak Software.

90-5180 29.95

Simple Algebraic Equations

Grade: (7)-(12)

III/4

Description: Clear, step-by-step instructive examples show how the basic variables X and Y function in algebraic expressions. Tutorial exercises teach the evaluation process and use bold graphic rewards to positively reinforce correct answers. The program logically leads students to successful manipulation of the X and Y concepts.

Hardware Requirements: Disk.

Support: Daybreak Software.

90-5176 39.95

Basic Algebra

Grade: (8)-(UP)

Color Computer

Description: Designed for secondary students and adults who desire a basic algebra review, this series offers comprehensive coverage of algebra fundamentals. Areas covered include positive and negative number operations, set theory, algebraic fractions and division, solution of linear and quadratic equations, and more. The series contains sixteen tutorial programs with audio narration.

Hardware Requirements: Tape.

Support: Dorsett Educational Sys., Inc.

90-5459 59.90

TANDY Advanced Graphics Program

Grade: (9)-(12) I/III/4

Description: Advanced Graphics was designed for use by math students in grades nine through twelve. Two programs are included: Plotting Functions and Plotting Polar and Parametric Equations. These programs aid students in solving problems, including finding maximums and minimums, x and y intercepts, and points of inflection. A Selected Investigations section presents appropriate problems and exercises for use with both programs.

Hardware Requirements: 16K with cassette recorder or 32K disk system.

Network Compatibility: 2, 3, 4.

Support: Radio Shack.

26-1714 39.95

True BASIC

Algebra

Grade: (9)-(12) 1000

Description: A general-purpose software tool that can be used as a supplement to a high school Algebra course. Several of the topics may also be used in a pre-calculus course or an advanced Algebra I course. This program allows you the opportunity to provide your own examples and experiment with them in a variety of ways.

Hardware Requirements: 256K.

Support: True BASIC.

90-5402 49.95

True BASIC

Calculus

Grade: (9)-(12) 1000

Description: A flexible tool which can be used as a supplement to any Calculus course. Not a drill or tutorial—you can choose the topics you want to explore and the examples you want to study. A general purpose routine which accepts a user-defined function, takes multiple derivatives, plots the function and its derivatives, and displays tables of values.

Hardware Requirements: 256K.

Support: True BASIC.

90-5399 49.95

True BASIC

Discrete Math

Grade: (9)-(12) 1000

Description: Can be used as a supplement to any course in discrete or finite mathematics. You can choose the topics you want to explore, the examples you want to study, and the order in which you want to study those topics. The disk also includes a number of source code programs which illustrate algorithms used in this package.

Hardware Requirements: 256K.

Support: True BASIC.

90-5401 49.95

Matrices, Determinants and Simultaneous Equations

TANDY

Grade: (9)-(12) I/III/4

Description: Matrices, Determinants, and Simultaneous Equations was designed for use by secondary and college mathematics students. Two programs are included: (1) Matrices and Determinants, and (2) Determinants and Simultaneous Equations.

The Matrices and Determinants program provides practice in addition of matrices, multiplication of a matrix by a scalar, matrix multiplication, determination of inverse matrices (2×2 and 3×3), and evaluation of determinants (2×2 and 3×3). The Determinants and Simultaneous Equations program provides practice in applying Cramer's Rule to the solution of two equations and two unknowns or three equations and three unknowns. Both programs provide feedback, hints, and a progress report.

Hardware Requirements: 16K with cassette recorder or 32K disk system.

Network Compatibility: 2, 3, 4.

Support: Radio Shack.

26-2620 49.95

True BASIC

Pre-Calculus

Grade: (9)-(12) 1000

Description: A general-purpose software tool which can be used to illustrate concepts in a pre-calculus, elementary functions, or advanced algebra course. Not a drill or a tutorial, students provide their own examples and experiment with the behavior of the functions in a variety of ways. A general purpose routine which accepts user-defined functions, plots them, and displays tables of values. Included are eight special purpose routines for individual topics.

Hardware Requirements: 256K.

Support: True BASIC.

90-5400 49.95

True BASIC

Probability

Grade: (9)-(12) 1000

Description: Probability examines topics and illustrates problems in probability theory. It can serve as a supplement to a course in probability theory. Includes Venn diagrams, Bayes probabilities, Markov games, as well as simulations and special illustrations and more.

Hardware Requirements: 256K.

Support: True BASIC.

90-5403 49.95

TANDY

Plane Analytic Geometry

Grade: (9)-(12) I/III/4

Description: The Radio Shack Plane Analytic Geometry program is designed for students in grades nine through twelve. Using the microcomputer, students can study a variety of concepts traditionally found in units on analytic geometry. Students have the choice of working problems related to either straight lines or conic sections (circles, ellipses, hyperbolas, parabolas). The program draws graphs of these geometric figures and presents graph-related problems for the students to solve.

Hardware Requirements: 16K with cassette recorder or 32K disk system.

Network Compatibility: 2, 3, 4.

Support: Radio Shack.

26-2602 39.95

**CBS
SOFTWARE****Success With Math:
Quadratic Equations****Grade: (9)-(12)****III**

Description: Comprehensive, self-paced math tutorial that goes beyond the benefits of mere drill exercises alone. Problems are generated at random and students are directed to the source of all errors before continuing. Teaches quadratic equations.

Hardware Requirements: 32K and one disk drive.

Support: Radio Shack.

26-1974 19.95

**True
BASIC****Trigonometry****Grade: (9)-(12)****1000**

Description: Appropriate for high school and college courses. Includes a general purpose routine which accepts user-defined functions, plots them, and displays tables of values. Seven special purpose routines for individual topics, including finding roots of a function, solving triangles, combining functions, trigonometric identities, and polar coordinates. Can be used as a supplement in any trigonometric course.

Hardware Requirements: 256K.

Support: True BASIC.

90-5405 49.95

**True
BASIC****TrueSTAT****Grade: (9)-(12)****1000**

Description: A simple, interactive statistical simulation and analysis system. TrueSTAT is designed for teaching, self-study, and as a tool for quick statistical analyses of small datasets. Easy to use and includes on-line Help.

Hardware Requirements: 256K.

Support: True BASIC.

90-5404 79.95

DesignWare**Mission: Algebra****Grade: (9)-(UP)****1000**

Description: Mission: Algebra is a comprehensive learning tool with thousands of linear equations of varying difficulty levels generated by the program. You will be able to practice your algebra skills until you master the subject. A workspace is provided on the screen to help you solve the equation, and with each step towards solving the equation, you receive immediate feedback. You can review algebra rules and examples, receive hints on the next step to take, or review a complete step-by-step solution of the problem.

Support: DesignWare, Inc.

90-5090 44.95

**Professional
Applications****TANDY****Color SCRIPSIT
Color Computer**

Description: A simple word processing program. Type and edit your letters, themes and reports right on the screen. Insert, delete, move and duplicate words, sentences and para-

graphs. Text can be saved on cassette or printed with optional printer. Includes text search and replace.

Hardware Requirements: 16K.

Support: Radio Shack.

26-3105 CMC 24.95

TANDY**Color SCRIPSIT II
Color Computer**

Description: An easy-to-use word processing system that includes a "view" function allowing you to preview the formatted text a full page at a time. This view mode also allows the user to change the format control information while viewing the page. Insert, delete, move and duplicate words, sentences and paragraphs.

Hardware Requirements: 16K.

Support: Radio Shack.

26-3109 29.95

 **ASHTON-TATE****dBASE III Plus
PC-Compatible**

Description: The number-one selling database management system for personal computers. dBASE III Plus efficiently dispatches the work of day-to-day data management tasks for people who don't want to program, or becomes a programmable tool for those who prefer to program their own system. The system satisfies the needs of beginners or more experienced users alike. With our built-in Assistant, you'll be provided with new, easy-to-use pull-down menus for creating, using and modifying multiple databases. And dBASE III Plus grows as your needs grow. Our new Screen Painter lets you create custom screens as your business dictates. You can even access related information in two or more files. The Advanced Query System lets you build complex query requests just by selecting from pull-down menus. Finally, there's a new Applications Generator that rapidly creates entire applications programs. All this without any programming! People who want to program will appreciate our new Data Catalog and more than 50 new commands and functions to help streamline applications development. Other built-in tools include improved debugging aids, assembly language calls, faster sorting and indexing and a host of other features to give you more control and flexibility. Besides stand-alone operations, dBASE III Plus has local area networking capabilities with features like password protection, field and file encryption, and record and file locking commands.

Hardware Requirements: 384K and two disk drives..

Support: Ashton-Tate.

TANDY

DeskMate Color Computer

Description: With DeskMate there are no complicated commands to memorize—you can put the DeskMate applications to work right from the start. Color Computer DeskMate is an integrated package of seven commonly used personal productivity applications on one disk. Use TEXT as a general purpose text entry and editing program. LEDGER is a simple spreadsheet which includes an easy-to-use menu and automatic column formatter. With PAINT you can easily create lines, shapes, patterns and fill in areas with color. INDEX CARDS is a personal filing system. Use TELCOM to access national information services, plus transmit and receive ASCII files from other computers by phone. CALENDAR is an easy way to organize your day and CALCULATOR is a four-function calculator similar to a printing calculator.

Hardware Requirements: 64K Extended Color BASIC and disk drive.

Support: Radio Shack.

26-3259 99.95

TANDY

DeskMate II PC-Compatible/2000

Description: DeskMate II includes all the features of DeskMate with the addition of a task-switching feature that allows the user to alternate between DeskMate II and another program with just a few simple keystrokes.

Support: Radio Shack.

Tandy 1000 SX Included with CPU

DeskMate 3 Color Computer 3

Description: An enhanced version of DeskMate for the Color Computer 3. Color Computer DeskMate 3 is an integrated package of seven commonly used personal productivity applications on one disk: Text, Ledger, Index Cards, Paint, Telcom, Calendar and Calculator. Text, Ledger and Telcom permit the use of either 40 or 80 columns. DeskMate lets you easily select an application (identified by name and icon) with your mouse, joystick or keyboard arrow keys.

Hardware Requirements: One disk drive.

Support: Radio Shack.

26-3262 99.95

The Small Computer
Company, Inc.

filePro 16 PC-Compatible/2000

Description: An electronic filing system, database manager and applications developer. It has all the capacity (16 million records, 4,608 characters per record) and customization features (error-checking dictionaries, conditional operations, user-definable menus) needed for large projects, while still being easy to use and to change. Files in filePro 16 can be transferred intact between single and multi-user computers.

Hardware Requirements: 384K and a hard disk drive.

Support: Provided at no charge by Small Computer Company for a limited time, after which a nominal fee is charged.

PC-Compatible. 90-0248 495.00

Tandy 2000. 90-0120 495.00

The Small Computer
Company, Inc.

filePro 16 Plus PC-Compatible/2000/ XENIX 3000/6000

Description: A menu-driven electronic filing system and application developer in a single package, with special programming tools for consultants and programmers. Included are screen, output and user-menu generators; eight self-balancing, automatically-maintained indexes; user-definable edits and print codes; and a data-processing language module. Files can be transferred easily between the two operating systems with the use of fpTransfer. Capacities: unlimited number of files, 16 million records, 999 fields and 16,384 characters per record. Includes manual and quick-reference guide.

Hardware Requirements: 384K and a hard disk on MS-DOS. All upgrade packages require filePro 16, Profile 16, or Profile 286.

Support: Provided at no charge by Small Computer Company for a limited time, after which a nominal fee is charged.

ForComment PC-Compatible

Description: The first personal computer software enhancement product to manage the process of document review and comment. It works with the major PC-compatible word processing programs to allow a group of people to make comments on—or suggest revisions to—any prepared text. ForComment permits dialogue on issues, ideas, agendas, and policies without formal meetings.

Support: Provided for a limited time at no charge by Broderbund, after which a nominal fee is charged.

90-3179 195.00

Framework 2000

Description: Framework is the best productivity software available for people who need word processing, spreadsheets, database management, outlining, business graphics, and communications. Framework's outlining function provides powerful and unified management of text, spreadsheets, graphs, databases, and ideas. Commands are consistent across all applications. Context-sensitive help is available on-line, and a powerful "undo" command allows effective error correction. Integrates text material and graphics. Framework has powerful micro capabilities, with key-stroke recording. Framework provides a close coupling with dBASE II® and dBASE III™, as well as the capability to use files from Lotus 1-2-3™, WordStar®, and other standard formats.

Hardware Requirements: 384K and two disk drives.

Support: Radio Shack.

26-5320 695.00

Framework II 1200/3000

Description: Same as Framework with the addition of an 80,000-word spelling dictionary.

Hardware Requirements: 384K and two disk drives.

Support: Ashton-Tate.

25-3192 725.00

Lotus 1-2-3

PC-Compatible/2000

Description: An easy way to go from spreadsheet to graphics to information management—instantly! You can change your spreadsheet data directly and then graph it in less than a second. Take data from your spreadsheet and search and sort it. Special "macro" keys let you substitute a single keystroke for a long sequence. If help is needed, just one keystroke brings you on-screen instructions. Lotus provides you with 256 columns and 2048 rows. Sophisticated graphing commands help you create detailed bar charts, stacked bar charts, line or symbol graphs, XY graphs, or pie charts. Your database can store up to 2000 records and sort with primary and secondary keys.

Hardware Requirements: 256K and two floppy disk drives. Tandy 2000 requires graphics.

Support: Tandy 2000 version—Radio Shack. PC-Compatible version—Lotus.

PC-Compatible. Version 2.01. 25-1175 495.00
Tandy 2000. Version 1A. 26-5300 495.00

Memo Writer

Color Computer

Description: Very powerful word processor for the Color Computer. Uses a mouse or joystick for "click-down" menus. Very easy to use, like "Child Writer", but more powerful. You can have three documents open at the same time and move data between each.

Grade Level: 9 and up.

Hardware Requirements: 64K Disk.

Support: TCE Programs, Inc.

90-5103 64.95

Microsoft Word

PC-Compatible

Description: A high-performance word processing program with the capabilities to quickly handle complex writing tasks. You can produce high-quality business documents that make a good first impression, fast and easily. You don't have to print the document to see how it will look. WORD shows you right on the screen. With a dictionary, an outliner, glossaries, style sheets, flexible merge and a built-in spelling checker, you can quickly put together the most complex document.

Hardware Requirements: 384K and two disk drives.

Support: Microsoft.

25-1162 450.00

Multiplan

4/PC-Compatible/2000/

XENIX 6000

Description: Ideal for profit and loss projections, budgeting, and sales forecasts. This popular "second-generation" spreadsheet lets you consolidate related worksheets so that information is transferred between them automatically. You can assign plain-English names to any column, cell or area;

vary individual column widths; center numbers and text within a column; align decimals; sort in alphabetical or numerical order. Displays up to eight windows on the screen. Includes on-line help and a tutorial manual. The PC-compatible version now includes built-in network support for 3Com 3+.

Support: Model 4 and XENIX 6000—Radio Shack. PC-Compatible/2000—Microsoft.

TANDY Personal DeskMate

1000

Description: A graphics-oriented program that is amazingly easy to use. Choose from applications like TEXT, WORKSHEET FILER, PAINT, CALENDAR and TELECOM. Special functions like a PHONE DIRECTORY, CALCULATOR and NOTEPAD may be accessed any time. TELECOM requires a modem.

Support: Radio Shack.

Tandy 1000 EX. Included with CPU

Tandy 1000. 25-1165 99.95

TANDY Personal DeskMate 2

1000 TX/1000 HX

Description: A new and improved graphics-oriented program. Personal DeskMate 2 is amazingly easy to use, with pull-down menus and dialogue boxes for selecting functions. Choose from applications like a new 16-color Paint program, which lets you create drawings and designs, or a new Music program that lets you input and play back songs of your choice. Other applications include Text, Worksheet, Calendar, Telecom and a very simple filing system.

Support: Radio Shack.

Tandy 1000. 25-1177 99.95

Tandy 1000 TX/1000 HX. Included with CPU

SOFTWARE PUBLISHING CORPORATION

pfs:file

2000

Description: An easy-to-use computerized filing system that lets you record, retrieve, update, and print information in a fraction of the time it takes with a manual filing system. Enter data by simply filling in the blanks on your form. Forms can be as long or short, complex or simple, as you need, and can be changed even after information has been entered. You can automatically select, sort and print the information you need for mailing labels, invoices and more.

Support: Radio Shack.

Tandy 2000. 26-5305 140.00

SOFTWARE PUBLISHING CORPORATION

PFS:First Choice

PC-Compatible

Description: An easy-to-use, integrated program designed for business people who are new to computers. First Choice combines the four most widely used personal computer applications on one disk—Word Processing, File Management, Spreadsheet Analysis and Electronic Communications. The Quick Tour starter guide will have you doing real work within an hour. Intuitive menus and on-screen prompts guide you through each operation. Includes a built-in 75,000-word dictionary, calculator, merge function and more.

Hardware Requirements: 384K and two disk drives.

Support: Software Publishing Corp.

90-3080 179.00

SOFTWARE PUBLISHING CORPORATION

PFS:Professional File PC-Compatible

Description: A complete file management and reporting program providing the full range of features needed to quickly organize, update, retrieve, analyze and report information with professional results. It's perfect for busy managers or professionals who need to maximize information management efficiency. Because Professional File takes advantage of all your computer's memory, data retrieval is very fast. Features include user interface for direct access to applications, ability to work with other software and hardware in the office, pull-down menus and more. With the addition of the pfs:Network Manager, local area network support on ViaNet or 3Com 3+ is available for up to five users.

Hardware Requirements: 384K and two disk drives.

Support: Software Publishing Corp.

25-1171 199.00

SOFTWARE PUBLISHING CORPORATION

PFS:Professional Network PC-Compatible

Description: Allows up to 5 users of PFS: Professional Write, File or Plan on a network. It can handle individual program configurations, personal dictionaries and other user files to enhance network users' productivity and facilitate effective information sharing. It allows one person at a time to update a document, spreadsheet or database file that is on a network server. Multiple users can read a database file as long as it is not being updated or edited by another user. Assign users by specific names for authorized access in any combination of applications. Works on ViaNet and 3Com 3+.

Hardware Requirements: 512K is required for each workstation and MS-DOS 3.1 or higher.

Support: Software Publishing Corp.

90-1630 499.00

SOFTWARE PUBLISHING CORPORATION

PFS:Professional Plan PC-Compatible

Description: Professional Plan is an advanced spreadsheet analysis program providing the full range of features needed to quickly develop, analyze, graph and print business plans, budgets, financial statements and other planning models with professional results. It's designed for busy managers and professionals who want to enhance their efficiency in spreadsheet analysis with fast, powerful software. Professional Plan is built for speed and has the features you need to get the job done: analysis of spreadsheet data as line, bar, pie, and other charts, ability to read Lotus 1-2-3 and ASCII files, consolidation of data from several spreadsheets into one and more. Plus, Professional Plan imports and exports Professional File data and reads PFS:Plan spreadsheets directly. Network support for 3Com 3+ and ViaNet is available by adding PFS: Professional Network (90-1630). Supports an 8087 or 80287 math coprocessor for faster calculations.

Hardware Requirements: 512K, two disk drives and a graphics card.

Support: Software Publishing.

25-1173 199.00

SOFTWARE PUBLISHING CORPORATION

PFS: Professional Write PC-Compatible

Description: This complete word processing program provides the full range of features you need to quickly write, edit, proof, and print business correspondence with professional results. Locate, move, and copy text quicker than with most other programs. Includes integrated spelling checker, a built-in thesaurus for choosing the most appropriate word, supports

bold, underline, italic, super and subscript, justification, and indent. Includes built-in network support for ViaNet and 3Com 3+. PFS: Professional Network (90-1630) is required for more than one workstation.

Hardware Requirements: 384K and two floppy disk drives.

Support: Software Publishing Corp.

25-1172 199.00

SOFTWARE PUBLISHING CORPORATION

pfs:report PC-Compatible/2000

Description: Helps you get the most from the information you have stored in pfs:file. pfs:report summarizes pfs:file data into concise, meaningful tables that would take hours to produce manually. Simply tell the program what information you want to tally from your pfs:file form, and pfs:report does the rest. It can automatically sort and sub-total your information alphabetically or numerically, with totals, averages and counts. It can also format your report with centered titles, correct decimal point alignment, column width adjustments, column headings, and page numbers. Performs complex calculations based on formulas you create so you get the figures you need fast.

Support: Radio Shack.

Tandy 1000/3000. 25-1141 125.00

Tandy 2000. 26-5306 125.00

SOFTWARE PUBLISHING CORPORATION

pfs:write 2000

Description: An easy-to-use word processor that combines the simplicity of a typewriter with the power of a computer. Page formats, headers and footers appear just like they will on the printed page. You can highlight your key ideas with bold-face or underlining. Create form letters with pfs:write and merge them with a client list from pfs:file. Since pfs:write is integrated with the other programs in the pfs family of software, it integrates easily with the other pfs products.

Support: Radio Shack.

26-5309 140.00

The Small Computer
Company, Inc.

Profile III Plus III

Description: Store almost any type of information, then retrieve it at the touch of a key. User-designed file layout, input screens, and reports. Supports multiple screen designs for different views of the data. Stores up to 700 records of 255 characters in length on a two-disk system. Allows up to 99 fields per record. Sort and search by user-supplied criteria. Math functions between fields are supported. Comes with easy-to-understand tutorial manual.

Hard Disk Version: Includes all the features of Profile III Plus and allows much larger files (up to 65,535 records). Faster searches due to increased access speed of hard disk.

Hardware Requirements: Floppy Version—48K and two disk drives. Hard Disk Version—48K and hard disk drive.

Support: Radio Shack.

Floppy Version. 26-1592 199.00

Hard Disk Version. 26-1593 299.00

Company, Inc.

Profile 4 Plus 4

Description: Turns your Model 4 into a well-organized filing system, letting you store almost any kind of information and retrieve it at the touch of a key. You can revise your system at any time without losing data. Automatically created screen and report formats let you start using your database right away. Divide reports into as many as five sub-total sections

and print grand totals. Math functions and user-menu creation are included. Select data to merge with SuperSCRIPT word processing documents.

Hardware Requirements: Two disk drives.

Support: Radio Shack.

26-1635 249.95

The Small Computer
Company, Inc.

Profile 16

XENIX 6000

Description: An electronic filing system and applications generator based on the popular Profile Plus data base manager, written to take full advantage of the Tandy 6000. Both programmers and novices will appreciate how easy and quick it is to design a Profile system. You can change or expand a system at any time without having to re-enter data. Using Profile's menu-driven setup procedure, you can create your own menus. It can perform minimums, maximums, averages, totals and accepts all standard math functions. Interacts easily with word processors and spreadsheets. All prompts are in plain English. Includes a data processing language module that eliminates the need for BASIC, COBOL, C and other interfaces.

Support: Radio Shack.

26-6412 499.00

The Small Computer
Company, Inc.

Profile 286

XENIX 3000

Description: An electronic filing system and applications generator based on the popular Profile 16 database manager. You can change or expand a system at any time without having to re-enter data. Using Profile's menu-driven setup procedure, you can create your own menus. Interacts easily with word processors. Includes a data processing language module that eliminates the need for BASIC, COBOL, C and other interfaces.

Hardware Requirements: 1 MB memory.

Support: Radio Shack.

SYMANTEC

Q & A

PC-Compatible

Description: Q & A is the first Intelligent Database that understands your own words. Type in an English question, like "Which Eastern Region sales people have sales greater than their quotas?". Q & A automatically finds and displays the answer, then displays a report if you wish. The database is integrated with a lightning-fast word processor. Their combined capabilities handle jobs from a simple customer mailing to a complex production tracking and reporting system. Q & A is as easy to use as the pfs:file, pfs:report and pfs:write programs, but it offers enhanced functionality, like indexing on 115 fields; 7 data types, including money, dates, hours, Y/N, text, numbers and keywords; multiple-level sorts; macros; programmability; box-drawing; laser printer support; spelling checker; and an easy-to-use mailmerge.

Hardware Requirements: 512K and two disk drives. Hard disk recommended.

Support: Symantec Corporation.

90-3011 349.00

TANDY

Quartet

PC-Compatible/2000

Description: A complete accounting system that performs the four major accounting functions. General Ledger prints a Trial Balance, Income Statement, and Balance sheet and provides for journal entries. Accounts Receivable records customer sales and credit memos, prints invoices and statements, and provides for reports such as aged accounts receivable and estimated income. Accounts Payable allows entry of expenses and vendor invoices, and writes checks. It automati-

cally calculates sales tax and discounts. It will automatically select items for payment based on due date and discount dates or allow selection of invoices individually for payment. It prints a Cash Requirements report and a Payment Register. Payroll calculates federal, state, and city taxes. It tracks current, quarterly, and yearly amounts for earnings and deductions and prints payroll checks. It prints W-2s and allows changing of the W-2 format if the design changes.

Hardware Requirements: Two disk drives.

Support: Radio Shack.

25-1146 199.95

MICRORIM

R:BASE 5000

PC-Compatible

Description: A relational database management system. Included in R:BASE are application generation capabilities, database query, database modifications, advanced report writing, flexible database modification, and data entry. R:BASE 5000 also contains Application Express, a unique, menu-driven system for creating complex applications with ease, and a compiler for locking down the source code in applications.

Hardware Requirements: 256K and two disk drives.

Support: Provided at no charge by MicroRim for a limited time, after which a nominal fee is charged.

90-0328 495.00

TANDY

SCRIPTSIT

III

Description: Prepare memos, letters, reports, and manuscripts. Editing features let you delete, insert, copy, and move blocks of text. Print as many correction-free originals as you need. Advanced features include global search, formatting, automatic hyphenation, centering, automatic headers and footers, justification, automatic page numbering, and more.

Hardware Requirements: 32K and one disk drive.

Support: Radio Shack.

Model III. 26-1563 99.95

TANDY

SCRIPTSIT

12

Description: A powerful, full-featured word processor. Easy-to-understand prompts and menus. An on-screen status line shows cursor position, margins, tabs, line spacing and page number. Multiple formats and reverse indentation can be used for outlining. Offers many advanced print features, such as super- and subscripts, underlining, headers and footers, and multi-column printing. Other features include ASCII convert, programmable user keys, background printing and embedded print codes.

Support: Radio Shack.

Phonics I

Grade: All Ages

Color Computer

Description: Designed for the adult non-reader, this series offers a level of maturity and sophistication not offered in most

phonics programs. The non-reader will learn to read basic words and sentences with a goal of attaining functional literacy. Phonics I may be used by any age group including elementary school students. The series contains sixteen tutorial programs on eight cassettes with audio narration.

Hardware Requirements: Tape.

Support: Dorsett Educational Systems, Inc.

90-5464 59.90

Juggles' Rainbow

Grade: (P)-(K)

Color Computer

Description: Juggles' Rainbow is for young children who cannot yet read or are just learning. Children divide the keyboard in half with a blue strip. Then they press the keys to make pictures appear. Juggles the clown teaches them up, down, left and right and helps them learn the letters p, d, b and q—the most difficult ones in the alphabet.

Hardware Requirements: 16K Disk.

Network Compatibility: 2.

Support: The Learning Company.

90-0465 29.95

Ordering/Sequencing

Grade: (P)-(K)

Color Computer

Description: Topics in this series include completion and ordering of subtle size and time differences; practice in identifying, constructing and completing complex patterns; and arranging objects into simple patterns according to size and time sequences.

Hardware Requirements: Disk.

Network Compatibility: 2, 3.

Support: Aquarius People Materials Inc.

90-5354 115.00

ABC's in Color

Grade: (P)-(1)

Color Computer

Description: Your child learns by associating pictures with letters of the alphabet. Program rewards your child with large letters popping up on the screen to the familiar ABC tune.

Hardware Requirements: 16K Tape or 16K Disk.

Support: TCE Programs, Inc.

Tape Version. 90-5033 19.95

Disk Version. 90-5034 25.95

TANDY

Big Bird's Special Delivery

Grade: (P)-(1)

Color Computer

Description: This program is a Basic Skills Game for children between the ages of three and six. Children are encouraged to help Big Bird deliver his packages by matching pictures.

Hardware Requirements: Extended BASIC, joysticks and cassette recorder.

Support: Radio Shack.

26-2525 CMC 19.95

Signplay

Grade: (P)-(1)

PC-Compatible

Description: This imaginative, interactive program helps children link sign words to their distinctive shapes, colors and environments.

Support: Compu-Teach.

ALPHABET Read Along

Grade: **(P) - (2)** **1000**

Description: The first of a new series of reading programs that speak in a pleasant, clear, female voice. Each word is underlined as it is spoken. The user can choose to listen as the story is read aloud, page by page, or the story can be read word by word each time the space bar is pressed. The reader can hear each word read at the set rate or at his own rate as he chooses. Each page features high-resolution color graphics for keeping attention and interest.

Hardware Requirements: Tandy 1000: 256K. Tandy 1000 EX or 1000 SX: 384K. Echo PC2 board (90-2162) produces voice with 1000 SX only.

Support: Berta-Max.
90-5317 24.95

COUNTING Read Along

Grade: **(P) - (2)** **1000**

Description: Makes use of rhyming words and repetition to make reading as much fun as possible in two stories. Each story mixes color and graphics with speech as it presents the numbers from 1 to 10. The emphasis is on developing the number ideas of one to ten while learning to read. Each word is underlined as it is pronounced by the computer—the reader's eye is focused on the word as it being spoken.

Hardware Requirements: Tandy 1000: 256K. Tandy 1000 EX or 1000 SX: 384K. Echo PC2 board (90-2162) produces voice with 1000 SX only.

Support: Berta-Max.
90-5318 24.95

FEET Read Along

Grade: **(P) - (2)** **1000**

Description: Children follow the journey of a pair of wandering feet as they go to various places, even the zoo. Several animals are named and pictured and a number of color words are used in this 22-page story. Children enjoy the story many times over as they become familiar with its contents. The reader can be in complete control of the speed of the presentation for personal progress.

Hardware Requirements: Tandy 1000: 256K. Tandy 1000 EX or 1000 SX: 384K. Echo PC2 board (90-2162) produces voice with 1000 SX only.

Support: Berta-Max.
90-5319 24.95

Pre-Reading

Grade: **(P) - (2)** **Color Computer**

Description: Pre-Reading is a package of six programs designed to help children from preschool through grade two have fun while they acquire pre-reading skills. Pre-Reading was developed by MECC™, the Minnesota Educational Computing Corporation. The six programs are: Caterpillar, Train, First Letter, Pictures, Words, and Shapes. Caterpillar helps children practice adding uppercase letters to an alphabetical

sequence. Train helps children practice adding lowercase letters to an alphabetical sequence. First Letter provides practice in matching letters with the initial sounds of words. Pictures lets children practice memorization and problem-solving skills by memorizing pictures and their locations in a grid. The Words and Shapes programs provide similar practice using words and shapes hidden in a grid.

Hardware Requirements: 32K disk system with Disk Extended Color BASIC.

Support: Radio Shack.
26-2796 34.95

Children's Tales

Grade: **(P) - (5)** **Color Computer**

Description: Designed for children ages 4-11, this series offers some of the best-loved stories of all time. All stories have full audio narration and involve the child in simple interaction with pictorial and single verbal questions. Multiple choice and occasional typed responses are used. Stories range from Mother Goose to the story of Atlantis. The series contains sixteen tutorial programs on eight cassettes.

Hardware Requirements: Tape.
Support: Dorsett Educational Systems, Inc.
90-5470 59.90

Alphakey

Grade: **(K) - (1)** **1000/Color Computer**

Description: The purpose of this program is to teach youngsters the location of the keys on the computer's keyboard and the alphabetical order of the letters of the alphabet. The keyboard is displayed on the screen. The letter the student is to find and press is flashed. A correct response is rewarded by a smiling face. Both upper and lower case letters are used. A report of the user's performance is given at the end of each session.

Hardware Requirements: Tandy 1000—256K. Tandy 1000 EX/SX—384K.

Support: Berta-Max Inc.

TANDY

Cookie Monster's Letter Crunch

Grade: **(K) - (1)** **Color Computer**

Description: Children learn to match letters, words, practice letter recognition and letter sequencing skills.

Hardware Requirements: Extended BASIC, joysticks and cassette recorder.

Support: Radio Shack.
26-2526 CMC 19.95

Reading Development

Grade: **(K) - (1)** **Color Computer**

Description: Designed for kindergarten and beginning grade school students, this series offers beginning readers familiarity with all the letters of the alphabet plus the most common high-frequency words. Each consonant and vowel is pronounced by a narrator. Interesting graphics aid the learning process. This series contains sixteen tutorial programs on eight cassettes.

Hardware Requirements: Tape.
Support: Dorsett Educational Sys., Inc.
90-5465 59.90

Telling Time

Grade: (K) - (1) **1000**

Description: A set of three programs including: Hour Clock, Half-Hour Clock, and Quarter-Hour Clock. All activities are highly motivating and excellent as a means of teaching youngsters of any age to tell time accurately.

Hardware Requirements: Tandy 1000; 256K. Tandy 1000 EX or SX; 384K. Echo PC2 board (90-2162) produces voice with the 1000 SX only.

Support: Berta-Max.

90-5310 39.95

Reader Rabbit

Grade: (K) - (2) **1000**

Description: Four animated games build fundamental skills required for good reading and spelling. The programs help develop letter and word recognition, memory skills, vocabulary, and concentration. Correct solutions are rewarded by the dancing Reader Rabbit. By stimulating a student's thinking abilities while teaching the elements of reading, Reader Rabbit provides enriched learning along with practical skills.

Hardware Requirements: 256K.

Support: Learning Company.

90-5249 59.95

Weekly Reader

Software

Stickybear Reading

Grade: (K) - (2) **1000**

Description: Hundreds of word/picture sets and thousands of put-together sentence parts help build vocabulary and reading comprehension skills. In this amazing learning game, students build skills in matching words and pictures correctly and putting together thousand of their own sentences, while they learn all about subjects, verbs, and objects.

Hardware Requirements: 256K.

Support: Weekly Reader.

90-5302 39.95

Word Pieces: Level #1

Grade: (K) - (2) **PC-Compatible**

Description: The object of this game is to teach and reinforce the concept that letters make up words. This builds a foundation for later reading skills. Children soon learn that by remembering complete words, they can recall their favorite scenes.

Support: Compu-Teach, Inc.

90-3026 34.95

Bike Hike

Grade: (K) - (3) **1000**

Description: Users watch animated boy and girl figures bicycling past various animals and objects. The users try to remember which animals they have passed and the number of times each passed by. Helps develop skills critical to development of memory skills and early reading readiness: recall, memory strategies, visual discrimination, problem analysis, and counting. This program also included in Early Learning Curriculum Pack (90-5415).

Hardware Requirements: 256K.

Network Compatibility: 4, with use of Network Install Disk (90-5414) in Teacher Utilities section.

Support: Learning Technologies.

Learn About Sounds in Reading

Grade: (K) - (3)

Color Computer

Description: The program begins with phonics, the building blocks of reading skills. It introduces the sounds of vowels and consonants in reading: short vowels, long vowels, and initial consonants, the phonics skills necessary for the beginning reader to develop successful reading or to help improve reading of older students. Reinforces skills taught in school.

Hardware Requirements: Disk.

Support: American Educational Computer.

90-5224 19.95

Story Mix 1

Grade: (K) - (3)

Color Computer

Description: An excellent reading activity for beginning readers. The user composes a 6-page story by selecting pages from a set of menus. Once composed, the story can be read by the user, page by page in rapid order. Story Mix 1 is about Ivar and friends. By selecting various combinations of pages, the student can compose up to 4,096 different stories.

Hardware Requirements: Disk.

Support: Berta-Max Inc.

CHILDREN'S TELEVISION WORKSHOP

Play With Language

Grade: ①-②

Color Computer

Description: Play With Language is a package of three language arts learning modules designed for use by beginning readers in grades one and two. Play With Language was developed by The CTW Software Group, a division of Children's Television Workshop. The three modules are: Picture Placer, Roll-a-Word, and Bagasaurus. Using Picture Placer, students practice associating beginning vocabulary words with their picture referents. The child chooses a background scene and then creates a picture by using words as building blocks. Roll-a-Word is a linguistic activity which requires students to match pictures and words in order to complete sentences in original and clever ways. Bagasaurus lets students have fun while they practice reading comprehension skills such as classification, following directions, and sequencing. Play With Language includes learning extensions in the form of board games, activity cards, and worksheets.

Hardware Requirements: 32K disk system with Disk Extended Color BASIC.

Support: Radio Shack.

26-2538 99.00

DORSETT
Educational Systems, Inc.

Reading Development

Grade: ①-②

Color Computer

Description: Designed for beginning readers, this series offers 50 sight words per program, starting with simple words and working up to words of increasing difficulty. Full audio narration helps involve the beginning reader in the learning process. Simple questions and multiple-choice responses are used. This series contains sixteen tutorial programs on eight cassettes.

Hardware Requirements: Tape.

Support: Dorsett Educational Sys., Inc.

90-5474 59.90

Spelling in Context— Levels 1 & 2

Grade: ①-②

Color Computer

Description: This program provides practice in spelling the words most frequently used and most often recommended for this level. The words in a lesson are grouped according to sound or spelling type. Review lessons are included periodically throughout. The word to be spelled is flashed in a box. Then a sentence is displayed with a blank for the word to be spelled. As the letters are typed, they are displayed in the blank in the sentence. The word completes the sentence, giving meaning and context. Errors are corrected immediately.

Hardware Requirements: Disk.

Support: Berta-Max Inc.

Grade Level 1. 90-5306 34.95

Grade Level 2. 90-5308 39.95

Pictionary

Grade: ①-③

PC-Compatible

Description: An early reading game that uses the extensive graphics capability of computers to help youngsters make connections between objects and their matching names.

Support: Compu-Teach, Inc..

90-3030 34.95

The Reader

Grade: ①-③

III/4

Description: This program turns your computer into a controlled-reading-type device. Reading passages and questions may be entered, stored for future use, edited, and reviewed. Text is displayed on screen at speeds from 20 wpm up to 2500 wpm. User reads a passage, then answers up to 5 true-false or multiple-choice questions to measure mastery or recall. Program will store up to 160 passages and sets of questions. Records are maintained for up to 42 students. Text scores and reading speeds are kept for last 10 passages. Prewritten reading selections are also available.

Hardware Requirements: Disk.

Support: Berta-Max Inc.

90-5268 99.95

K-12 MicroMedia Publishing

Starting with Phonics

Grade: ①-③

1000

Description: Starting with Phonics is designed for younger students in grades 1 through 3. It trains children to correctly decode and pronounce words by mastering the recognition of vowel-consonant combinations. The program is appealing, challenging, and fun, and teaches children the essential ingredients of reading and language.

Hardware Requirements: 256K.

Support: K-12 MicroMedia Publishing.

90-5018 39.95

Weekly Reader Software

Stickybear Spellgrabber

Grade: ①-③

1000

Description: Youngsters build vocabulary and spelling skills and keep Stickybear hopping and jumping in three delightful spelling activities. More words spelled correctly means more points scored.

Hardware Requirements: 256K.

Support: Weekly Reader.

90-5303 39.95

Magic Spells

Grade: ①-⑥

1000

Description: Students at all levels sharpen spelling skills by unscrambling words and recognizing flash words. Magic Spells enriches a student's understanding of letter relationships and sequencing as it drills. Enhances understanding of common spelling patterns, concentration skills. Personal word lists are created using an editor. This teacher version comes with Teacher's Manual, on-line and off-line activities and blackline masters.

Hardware Requirements: 256K.

Support: The Learning Company.

90-5476 49.95

DesignWare

Spellicopter

Grade: ①-⑥

1000

Description: Spellicopter is an action spelling game that develops children's spelling and visual memory skills. The player pilots the helicopter, maneuvering it through skies crowded

with balloons, thunder clouds and other obstacles, in order to rescue letters and carry them back to landing in the properly spelled order. Points are earned for proper spelling, lost for incorrect. There are multiple skill levels, plus kids can add their own spelling homework. Includes 400 words.

Support: DesignWare, Inc.

90-5083 39.95

Word Games

Grade: (1)-(8)

III/4

Description: The Word Games program for grades one through six is designed to add interest and motivation to language study. Word Games was developed by MECC™, the Minnesota Educational Computing Corporation. Four programs are included: Recall, Scramble, Guess Word, and Editor. Recall is a spelling exercise. The program displays a word on the screen quickly and then asks students to remember and spell the word. Scramble presents a scrambled word for students to unscramble and spell correctly. Guess Word displays a definition or clue and asks students to guess the word. Editor is a teacher-options program that allows the teacher to create and edit custom word lists for use with Recall, Scramble, and Guess Word.

Hardware Requirements: 48K disk system.

Support: Radio Shack.

26-2791 44.95

Boppie's Great Word Chase

Grade: (1)-(8)

1000

Description: Students will find continual fun and challenge in Boppie's Great Word Chase, an enchanting game of word recognition, word creation, and spelling. The program contains 256 built-in words from popular spelling texts for grades 1-8. Teachers also have the option of creating dozens of individualized spelling lists of up to 32 words each. The spelling words contained in the program are taken from the Zaner-Bloser spelling series, chosen for its wide acceptance and appropriate range.

Support: DLM Teaching Resources.

90-5123 32.95

Spelling Wiz

Grade: (1)-(8)

1000

Description: Spelling Wiz, a colorful wizard who uses his magic wand to zap missing letters into words, assists students in spelling more than 300 words commonly misspelled.

Support: DLM Teaching Resources.

90-5127 46.00

Verb Viper

Grade: (1)-(8)

1000

Description: Verb Viper, a friendly elastic-necked creature who lives in a swamp, helps students master subject agreement with regular and irregular verbs in present tense, past tense, and past participle form.

Support: DLM Teaching Resources.

90-5124 46.00

Word Radar

Grade: (1)-(8)

1000

Description: Word Radar provides practice in matching basic sight words by giving students the challenging role of a control tower operator who scans words which increase in length.

Support: DLM Teaching Resources.

90-5128 46.00

Weekly Speller

Grade: (1)-(8)

Color Computer

Description: Did your child receive his/her spelling list this week? If so, Weekly Speller is the program you've been waiting for! Enter your child's spelling list and let the computer do the rest. Up to 75 words, each as long as 14 letters, can be entered and saved at one time. Your child will spend hours enjoying the game-style graphics and sound.

II. Grades 4-6. 90-5226 19.95

DesignWare

Spellakazam

Grade: (2)-(6) **1000**

Description: Spellakazam is an entertaining way for children to practice spelling words. The child races through a game board, picking up letters in the correct order to spell a word identified by a context sentence at the bottom of the screen. If the child gets to the hat before the magician does, bonus points are awarded and a magic trick pops out of the hat. Spellakazam is an ideal way for children to practice their spelling words from school—they can add their own words. Spelling words are organized by spelling rules and grade level.

Support: DesignWare, Inc.

90-5086 29.95

Hangword/Scramble

Grade: (2)-(8) **Color Computer**

Description: Includes 2 word games. Wrong letter guesses in "Hangword" build a graphic display of the word 'SORRY.' "Scramble" requires the user to unscramble letters in order to spell a word correctly. User may input own words and save them as data files to cassette or disk. Ready-made data files may also be purchased separately. (See listings in this section) The use of a printer is optional. The program will accept words with apostrophes, hyphens, and spaces. The word list may be easily edited.

Hardware Requirements: 16K cassette or 32K disk.

Support: B-5 Software.

Cassette: 90-5193 19.95

Disk: 90-5194 21.95

DesignWare

Spellagraph

Grade: (2)-(8) **1000**

Description: Spellagraph is a spelling game that combines spelling practice with solving challenging picture word puzzles. Each turn, the player must correctly spell a word identified by a context sentence. If the word is spelled correctly, a piece of the puzzle is exposed and the player can guess what the picture says. Includes 400 words divided by grade level, 200 picture puzzles, and different levels of game play. Children can also add their own words to practice homework.

Support: DesignWare, Inc.

90-5087 39.95

Spelling

Grade: (2)-(6) **Color Computer**

Description: Spelling allows the user to input up to 30 words per lesson and save them to cassette or disk data files. Ready-made grade-level data files may be purchased separately. (See listings from B-5 in this section) If student misspells a word, the correct spelling appears and aligns itself underneath the misspelling. Errors can be quickly determined and corrected. Student's score and misspelled words are given. Word lists and student records can be printed if desired. The word list may be easily edited.

Hardware Requirements: 16K Tape or 32K Disk.

Support: B-5 Software.

Cassette: 90-5191 19.95

Disk: 90-5192 21.95

**Scholastic
Software**

The Bank Street Writer III

Grade: (2)-(12) **PC-Compatible**

Description: The new features of Bank Street Writer mean that you may never need another piece of software for your school's writing program. Fully-integrated thesaurus stimulates creativity and enriches vocabulary. The integrated spelling checker uses a 60,000 word dictionary to highlight and help correct errors. Single-key macro commands allow teachers and students to skip often-used menus and prompts. New formatting and cursor movement commands give students more flexibility in printing their work, greater ease in editing and revising. Expanded Teacher's Utility includes functions for copying files, initializing disks, and chain printing. Package includes Program disk with tutorial, Dictionary disk with The-

sauros, and a backup of each, User's Handbook with step-by-step instructions, both a Student and a Teacher Guide, a glossary, an index, and writing activities.

Hardware Requirements: 256K.

Support: Scholastic.

Parts of Speech I

Grade: (3)–(4)

1000

Description: The objective of this program is to provide practice in recognizing the part of speech of a given word in a sentence. The name of a part of speech appears in a small box. The student decides if a word shown on the screen is that part of speech. If the student responds correctly, a small creature called a "word eater" gobbles up the correct answer. If the student responds incorrectly, the "word eater" kicks the incorrect word off the screen.

Grade: (3)–(4)

1000

Description: The program objective is to provide practice identifying parts of speech in a paragraph. The student uses the arrow keys and the space bar on the keyboard to underline the identified parts of speech one by one. When all of the words in the paragraph have been underlined, the student presses the ENTER key and the computer checks the words. If any errors have occurred, the computer then allows the student to try to correct them.

Hardware Requirements: Tandy 1000—256K. Tandy 1000 EX/SX—384K.

Support: Berta-Max Inc.

Grade Level 3. 90-5280 29.95

Grade Level 4. 90-5281 29.95

TANDY

Vocabulary Tutor

Grade: (3)–(5)

Color Computer

Description: Children match words with definitions and use words in sentences. It includes reinforcement for correct responses and hints for wrong responses. Scores are reported at the end of each session.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

Gamco Industries Inc.

Capitalization

Grade: (3)–(8)

III/4

Description: This program combines guided drill in capitalization, an arcade-style reward game, and a teacher management system. Students may choose from five lessons: (1) capitalizing the first word in a sentence and the pronoun "I"; (2) capitalizing proper personal names; (3) capitalizing the days of the week and the months; (4) capitalizing holidays and special days; and (5) capitalizing proper place names. Students are presented with randomized sentences in which they must capitalize the correct words. The disk includes a total of 250 sentences.

Hardware Requirements: Disk.

Support: Gamco Industries, Inc.

90-5119 54.95

Gamco Industries Inc.

End Punctuation

Grade: (3)–(8)

III/4

Description: This program combines guided drill in the use of end punctuation, an arcade-style reward game, and a teacher management system. Students may choose from four programs: (1) Periods and Question Marks, (2) Periods, Question Marks, and Exclamation Marks, (3) Periods in Abbreviations and Initials, and (4) Review. Students are presented with randomized sentences for which they must provide the punctuation. The program contains a bank of 300 sentences.

Hardware Requirements: Disk.

Support: Gamco Industries, Inc.

Gamco Industries Inc.

Parts of Speech

Grade: (3)–(8)

III/4

Description: This program combines guided drill in identifying parts of speech, an arcade-style reward game, and a teacher management system. Students may choose from six lessons: (1) Identifying Nouns; (2) Identifying Verbs; (3) Identifying Pronouns; (4) Identifying Adjectives; (5) Identifying Adverbs; and (6) Identifying Prepositions. Students are presented with randomized sentences in which they must identify the given part of speech. The disk includes a total of 300 sentences.

Hardware Requirements: Disk.

Support: Gamco Industries, Inc.

90-5120 54.95

Grade: (3)-(6)

Spell Bomber Color Computer

Description: As captain of your ship, you must destroy the enemy bomber by spelling the mystery word. In this exciting and educational game, the bomber gets closer with each inaccurate letter. You have only eight tries to guess the mystery word or your ship will be bombed! If you guess the word correctly, General Quarters will sound and your ship will fire a missile to destroy the bomber. Spell Bomber is TCE's version of hangman.

Hardware Requirements: 16K.

Network Compatibility: 2.

Support: TCE Programs, Inc.

HMRS Student Records System

Grade: Instructor for 4-6

III/4

Description: The HMRS Student Records System is designed for use with packages in the Radio Shack High Motivation Reading Series. This Student Records System automatically saves student activity scores on diskette for review at any time. Using an optional line printer, teachers can print out the scores.

Hardware and Software Requirements: 32K disk system and Model III MicroPILOT™ (Cat. No. 26-2718).

Network Compatibility: 3.

Support: Radio Shack.

26-2521 29.95

Spelling

Grade: (4)-(6)

Color Computer

Description: Designed for grade school students, this series covers basic spelling fundamentals. Areas covered include when to use "s" or "es" to make a plural, when to change "y" to "i" in suffixes, understanding homonyms, spelling exceptions, and more. This series contains sixteen tutorial programs on eight cassettes with audio narration.

Hardware Requirements: Tape.

Support: Dorsett Educational Sys., Inc.

90-5463 59.90

Word Attack!

Grade: (4)-(6)

PC-Compatible

Description: Students improve vocabulary as they master 675 words using four exciting learning activities, including a multiple-choice quiz. Customized vocabulary lists, which can be used with all four learning activities, can be added using the editor feature.

Support: Davidson & Associates.

90-3149 49.95

TANDY C.A.R.D. I: Sentences

Grade: (4)-(6)

III/4

Description: C.A.R.D. I: Sentences, adapted from the Philadelphia Computer Assisted Reading Development CAI Program, is designed to improve comprehension through tutorial reading development lessons. Four skill areas are covered: sentence recognition, labeling, sentence relationships, and ordering sentences. Each skill area is presented through a pretest/posttest and a series of incremental lessons. The pro-

gram is appropriate for use with upper-elementary students or with intermediate and secondary students whose reading comprehension is below grade level.

Hardware and Software Requirements: 48K disk system. C.A.R.D. programs also require use of the lesson presentation modules from one of Tandy's AUTHOR I software packages: TRS-80 AUTHOR I (Cat. No. 26-1727), the TRS-80 AUTHOR I Lesson Presentation Package (Cat. No. 26-2707), or, for Network 3 and 4 users, the TRS-80 Network 3 AUTHOR I Lesson Presentation Package (Cat. No. 26-2713). Network 4 users call Customer Service for upgrade information.

Network Compatibility: 3, 4.

Support: Radio Shack.

26-2603 199.00

TANDY

C.A.R.D. II: Paragraphs

Grade: (4)-(8)

III/4

Description: C.A.R.D. II: Paragraphs, adapted from the Philadelphia Computer Assisted Reading Development CAI Program, is designed to improve comprehension through tutorial reading development lessons. Five skill areas are covered: finding the general topic of a paragraph, finding the specific topic, finding details, finding topic sentences, and paragraph relationships. Each skill area is presented through a pretest/posttest and a series of incremental lessons. The program is appropriate for use with upper-elementary students or with intermediate and secondary students whose reading comprehension is below grade level.

Hardware and Software Requirements: 48K disk system. C.A.R.D. programs also require use of the lesson presentation modules from one of Tandy's AUTHOR I software packages: TRS-80 AUTHOR I (Cat. No. 26-1727), the TRS-80 AUTHOR I Lesson Presentation Package (Cat. No. 26-2707), or, for Network 3 and 4 users, the TRS-80 Network 3 AUTHOR I Lesson Presentation Package (Cat. No. 26-2713). Network 4 users call Customer Service for upgrade information.

Network Compatibility: 3, 4.

Support: Radio Shack.

26-2604 199.00

TANDY C.A.R.D. III: Directions

Grade: (4)-(8)

III/4

Description: C.A.R.D. III: Directions, adapted from the Philadelphia Computer Assisted Reading Development CAI Program, is designed to improve comprehension through tutorial reading development lessons. Two skill areas are covered: details and order. Each skill area is presented through a pretest/posttest and a series of incremental lessons. The program is appropriate for use with upper-elementary students or with intermediate and secondary students whose reading comprehension is below grade level.

Hardware and Software Requirements: 48K disk system. C.A.R.D. programs also require use of the lesson presentation modules from one of Tandy's AUTHOR I software packages: TRS-80 AUTHOR I (Cat. Network 4 users call Customer Service for upgrade information.

Network Compatibility: 3, 4.

Support: Radio Shack.

26-2605 199.00

Reading Comprehension

Grade: (4)-(8)

Color Computer

Description: Improves reading comprehension in finding main ideas, cause and effect, similarity and differences, and in predicting outcomes and differentiating between fact and

opinion. Reinforces skills taught in school.

Hardware Requirements: Disk.

Support: American Educational Computer.

II. Grades 4-6. 90-5228 19.95

III. Grades 5-8. 90-5528 19.95

Grade 5— Spelling Data File

Grade: (5)

Color Computer

Description: Data file includes over 400 words. The words are organized into lessons based on various phonic rules. This data file is designed for use with B-5's "Spelling," "Hangword/Scramble," or "Keyboard" programs. It CANNOT be used alone.

Support: B-5 Software.

Cassette: 90-5212 9.95

Disk: 90-5213 11.95

DesignWare

The Grammar Examiner

Grade: (5)-(UP)

1000

Description: The Grammar Examiner is a newspaper that provides a fun way to learn grammar. If you learn to edit a story well, you move up in position and salary to be the editor-in-chief. Squares of five different colors and patterns make up the paths to the top of the newspaper hierarchy. Some squares have to be edited; others require you to answer grammar questions. There are 4 different game paths. Your own grammar problems can be added. Includes a wide variety of different grammar concepts.

Support: DesignWare, Inc.

90-5091 44.95

BRAINBANK

Reading Comprehension 1— The Four Skills

Grade: (5)-(UP)

I/III/4

Description: This program contains four lessons and a review test on reading. Each of four lessons—How to Recall Details; How to Identify the Main Idea; How to Draw Conclusions; and How to Put Things in Order—teaches a single reading skill and provides explanatory examples to reinforce each concept. Informative stories and guided questions are designed to teach students through reasoning, research, and relaxation.

Hardware Requirements: Disk.

Support: Brain Bank, Inc.

90-5140 59.00

Davidson.

Spell It!

Grade: (9)-(UP)

PC-Compatible

Description: Reviews spelling rules and provides a dynamic format for learning to spell new words. Spell It! contains over 1,000 words grouped into five levels of difficulty: Novice, Intermediate, Advanced, Champion, and Grand Master. For a constant challenge, the editor allows new words to be added to the program.

Support: Davidson & Associates.

90-3147 49.95

Punctuation and Capitalization

Grade: **5-6**

1000

Description: This program is intended to provide an interesting setting in which to practice punctuation skills without requiring the user to know how to type. Sentences are presented without capitals or punctuation, and the student makes corrections using a cursor. The program is self-scoring and gives the user immediate feedback upon completion of the lesson.

Hardware Requirements: Tandy 1000—256K. Tandy 1000 EX/SX—384K.

Support: Berta-Max Inc.

Grade Level 5. 90-5284 34.95

Grade Level 6. 90-5285 34.95

Spelling in Context— Levels 5 & 6

Grade: **5-6**

1000

Description: The lessons in this program emphasize spelling words which have certain letter combinations or sounds. The word to be spelled is flashed briefly on the screen, and then a sentence appears with a blank in place of the word. If the student misspells the word twice, the correct spelling is given at the bottom of the screen. The student must type in the correct spelling before proceeding on to the next word. The computer records misspelled words, and if the student does poorly, the misspelled words are reviewed at the end of the lesson.

Hardware Requirements: Tandy 1000—256K. Tandy 1000 EX/SX—384K.

Support: Berta-Max Inc.

Grade Level 5. 90-5282 39.95

Grade Level 6. 90-5283 49.95

K-12 MicroMedia Publishing

Winning with Phonics

Grade: **5-7**

1000

Description: Winning with Phonics trains students to decode and pronounce words by mastering the recognition of vowel-consonant combinations. It covers virtually all structural or phonetic parts of words and is adaptable to all grade levels. Winning with Phonics stimulates students' interest while teaching them the essential ingredients of reading and language.

Hardware Requirements: 256K.

Support: K-12 MicroMedia Publishing.

90-5019 39.95

English Review

Color Computer

Grade: **5-10**

Description: Noun, verb, adverb, or adjective? Could your child use a reinforcing practice exercise to strengthen these parts of speech? English Review is an interactive program which will give your child confidence in how these parts of speech are used. Sentences appear with a word highlighted. The child must choose between the four parts of speech. If wrong, the correct part of speech is given with its rule. If correct, the child will get an award.

Hardware Requirements: 16K.

Support: TCE Programs, Inc.

Grade 6— Spelling Data File

Color Computer

Grade: **6**

Description: Data file includes over 400 words. The words are organized into lessons based on various phonic rules. This data file is designed for use with B-5's "Spelling," "Hangword/Scramble," or "Keyboard" programs. It CANNOT be used alone.

Support: B-5 Software.

Cassette. 90-5214 9.95

Disk. 90-5215 11.95

Scholastic Software

First Draft

PC-Compatible

Grade: **6-12**

Description: Helps clarify and organize ideas before putting them on paper. Sophisticated word processing features allow paragraphs to be moved and inserted and let students print and save their outlines as files compatible with The Bank Street Writer III (90-5292) as well as most other word processors. Ideal for "brainstorming" and creating an outline of ideas. Helps students understand the underlying structures found in different forms of writing: persuasive essays, short stories, term papers, science reports, and personal essays.

Hardware Requirements: 256K.

Support: Scholastic.

90-5294 87.45

Proteus

III/4/1000

Grade: **7-UP**

Description: Proteus is an innovative prewriting tool that teaches writers of all abilities to generate and develop ideas and information prior to using a word processor. It teaches writers that they do have ideas which they can discover, explore, and expand by using five recognized prewriting strategies. The program provides automatic retrieval of data, the ability to print out information from any point in the program, and file transfer to any word processor using ASCII storage—including SCRIPSIT. Includes lesson plans for integrating the program into existing curricula.

Hardware Requirements: Disk.

Support: Research Design Associates.

Model III/4. 90-5157 59.95

Tandy 1000. Requires 256K. 90-5098 59.95

Misspell— Spelling Data Files

Color Computer

Grade: **7-12**

Description: Includes over 400 challenging words. May be used by adults or for enrichment lessons of accelerated students. This data file is designed for use with B-5's "Spelling," "Hangword/Scramble" or "Keyboard" programs. It CANNOT be used alone.

Support: B-5 Software.

Cassette. 90-5218 9.95

Disk. 90-5219 11.95

Scholastic Software

Scholastic pfs: Write

PC-Compatible

Grade: **7-12**

Description: Includes features available in more costly word processors. Scholastic pfs: Write is one of today's most sophisticated yet easy-to-use. Includes functions such as search

and replace, block editing, and line formatting. Add to this a 60,000 word integrated spelling checker and you have the most powerful, useful, multipurpose word processor around!

Hardware Requirements: 256K.

Support: Scholastic.

90-5295 124.95

Speed Reader II

Grade: (9) - (UP)

PC-Compatible

Description: Sharpens perception, increases eye span, and improves peripheral vision. The program features 35 reading selections, comprehension tests, optional sound effects and color. With the convenient editor, additional reading selections can be included.

Support: Davidson & Associates.

90-3069 69.95

Term Paper Writer

Grade: (9) - (UP)

PC-Compatible

Description: A "must" for every high school and college student. Term Paper Writer gives you the fast and easy way to make the grade. A fantastic tool for organizing and writing term papers. It simplifies every step of the process of writing a term paper: note taking, organizing ideas, outlining information, footnoting and compiling bibliographies. Uses Turabian, APA or MLA styles.

Support: Activision.

25-1154 49.95

Mastering the ECAT: English Composition

Grade: (11) - (12)

III

Description: A comprehensive, self-paced test preparation and review of the fundamentals of Standard Written English as presented in the College Board Achievement Tests.

Hardware Requirements: 48K and one disk drive.

Support: Radio Shack.

26-1970 99.95

Gamco Industries Inc. Readability Analysis

Grade: Instructor

III/4

Description: For teachers who wish to determine the reading level of any written material, this program is a quick and easy alternative to the old hand method of predicting readability. The teacher types in a passage and the computer counts syllables, words and sentences, and calculates the average word and sentence length and word difficulty. The teacher may choose from three readability tests: Spache Primary Reading Formula, Dale-Chall Readability Formula, and the Fry Readability Scale. The passage, analysis, and reading level may be printed.

Hardware Requirements: Disk.

Support: Gamco Industries, Inc.

90-5117 44.95

Reading Level Analysis 3.3

Grade: Instructor

1000

Description: This program allows teachers to evaluate the reading level of passages typed in by the teacher. It furnishes reading grade level of printed material, as computed on the

following scales: (1) Dale-Chall Index; (2) Flesch Index; (3) Fog Index; and (4) Fry Coordinates. In addition to these, there are two scales for grades K to 3: (1) Fry, and (2) Wheeler-Smith. Passages may be printed, edited, and saved on disk. Every teacher should be using this program to be sure that the material their students are using is at the proper level.

Hardware Requirements: Tandy 1000—256K. Tandy 1000 EX/SX—384K.

Support: Berta-Max Inc.

90-5269 49.95

Science

Outdoor Biology

Grade: (1) - (9)

Color Computer

Description: Outdoor Biology presents two simulations to help students in grades one through nine understand ecological concepts related to the food chain. The Odell Lake program simulates the ecology of a lake while the Odell Woods program simulates forest ecology. Outdoor Biology was developed by MECC, the Minnesota Educational Computing Corporation.

Hardware Requirements: 32K disk system with Disk Extended Color BASIC.

Support: Radio Shack.

26-2799 34.95

TANDY

Biosphere

Grade: (4) - (8)

Color Computer

Description: Children become Captain of a Space Animal, Vegetation, and Ecological Survey (S.A.V.E.S.) starship that collects plants and animals from hundreds of worlds throughout the galaxy. Biosphere is an ecological simulation game that teaches children to create a workable ecology. Kids learn to balance many variables, such as what gasses plants and animals breathe and expel, what foods they eat, and what temperatures and humidities they need to survive.

Hardware Requirements: 64K and one disk drive.

Support: Radio Shack.

TANDY

Pioneers in Technology

Grade: (4) - (8)

Color Computer

Description: Pioneers in Technology contains four presentations that feature graphics, uppercase and lowercase text, and recorded narration. The lessons are: The Age of Flight, The Electric Car, Space Exploration, and History of Computers. The program is designed to supplement classroom instruction in science, history, and current events courses.

Hardware Requirements: 16K disk system.

Support: Radio Shack.

26-2624 94.95

TANDY The Solar System: Featuring the Discovery of the Planet Pluto

Grade: (4) - (12) **Color Computer**

Description: This audio/visual presentation features graphics, uppercase and lowercase text, and recorded speech. The program presents information about the planets of our solar system and how they were discovered. As the most recently discovered planet, Pluto receives special emphasis. Part of this program is narrated by Dr. Clyde W. Tombaugh, the astronomer who discovered Pluto. The program presents content-related questions and gives immediate feedback. A score report is provided at the end of the session. This educational package also includes a book by Professor Tombaugh and the British astronomer Patrick Moore, *Out of the Darkness: The Planet Pluto*.

Hardware Requirements: 16K system with cassette recorder.

Support: Radio Shack.

26-2647 59.95

Earth Science

Grade: (5) - (9) **Color Computer**

Description: Earth Science contains four programs of natural science studies for grades five through nine: Earthquake, Minerals, Solar Distance, and Ursa. Earthquake simulates the detection of an earthquake and presents a method of locating an earthquake's epicenter. Minerals is an identification guide for twenty-nine minerals. Solar Distance uses the analogy of space travel to help students understand distance in space. Ursa identifies and displays the patterns of stars in five major constellations and simulates their rotation.

Hardware Requirements: 32K disk system with Disk Extended Color BASIC.

Support: Radio Shack.

26-2797 34.95

The Body Transparent

Grade: (5) - (10) **1000**

Description: The Body Transparent lets you learn the organs and bones of the human body in a challenging game. Move the bones and organs to their correct location on the male or

female body. Play the game with facts and functions, and learn what different organs and bones do and other important information. Questions can be added for homework use.

Hardware Requirements: Disk.

Support: DesignWare, Inc.

90-5094 44.95

Microscopic Mission

Grade: (7) - (12) **1000/Color Computer 3**

Description: As a microsurgeon, you are responsible for saving an injured or diseased patient. Pilot a front-view probe through the body of a patient. Journey through the blood vessels from the leg through the kidneys, liver, heart, and lungs to the injury site in the brain. You'll encounter and treat bacteria, viruses, and medical emergencies (for example, heart attacks). A new patient is randomly generated with each new game: patient profile, medical history, and type, location, and cure for injury vary.

Hardware Requirement: Disk drive.

Support: Activision.

Color Computer 3: 26-3271 29.95

Tandy 1000: 25-1180 34.95

TANDY Interpreting Graphs in Physics: Position vs. Time and Velocity vs. Time

Grade: (9) - (12) **I/III/4**

Description: This physics program allows students to study rectilinear motion using computer-generated simulations. The computer displays a graph of position or velocity versus time and then presents the student with graph-related questions on concepts such as speed, displacement, velocity, and acceleration. At the end of the session, a comprehensive report screen displays the information on the student's performance in each concept covered.

Hardware Requirements: 16K with cassette recorder or 32K disk system.

Network Compatibility: 2, 3, 4.

Support: Radio Shack.

26-1721 39.95

TANDY

TRS-80 Chemistry Lab

Grade: (9) - (12) I/III/4

Description: TRS-80 Chemistry Lab, Volume One, is a laboratory simulation program designed for use by students in grades nine through twelve as a supplement to classroom instruction. Six programs are included: Kinetic Theory, Charles's Law, Boyle's Law, Conductivity, Solubility, and Titration. The mathematical equations used in these simulations are derived from real laboratory experiments. By using the computer, students will be able to investigate a variety of situations without special laboratory equipment. Students control variables in experiments in order to see changing results. Each package includes an instructor's manual and 25 student experiment books.

Hardware Requirements: 16K with cassette recorder or 32K disk system.

Network Compatibility: 2, 3, 4.

Support: Radio Shack.

Vector Addition Program

Grade: (9) - (12) I/III/4/Color Computer

Description: The Vector Addition Program is designed to allow students in grades nine through twelve to study vector concepts on the microcomputer. The program assumes that students have been introduced to vectors, including addition by the tip-to-tail method and addition by the parallelogram method. Students enter the magnitudes and directions of vectors into the computer, and the computer will then graph the vectors and calculate the sum vector. A Selected Investigations section in the program manual contains problems to help students explore the following topics: fundamentals of vectors, displacement, velocity and acceleration, force, gravitation, conservation of momentum, and electric forces and fields.

Hardware Requirements: 16K with cassette recorder or 32K disk system.

Network Compatibility: Model III/4—2, 3, 4. Color Computer—2.

Support: Radio Shack.

Model I/III/4. 26-1720 39.95

Color Computer. 26-2638 39.95

Social Studies

The Market Place

Grade: (3) - (6) 1000

Description: Colorful graphics bring elementary economic concepts to life with this new version of one of MECC's most popular packages. In several business simulations, students sell apples, tomato plants and lemonade as they learn how costs, advertising and other factors affect a company's earnings.

Hardware Requirements: 256K.

Support: MECC.

TANDY

High Motivation History: Basic Illustrated History of America Learning Unit

Grade: (4) - (6) III/4

Description: The Basic Illustrated History of America Learning Unit contains twelve illustrated-format paperback books on American history from 1500 to the 1980s, read-along audio cassette tapes, twelve diskettes with associated computer activities, and a teacher's manual. This course provides a motivating way for students to learn American history.

Hardware and Software Requirements: 32K disk system. To run the computer activities, you also need the lesson presentation modules from one of Tandy's TRS-80 AUTHOR I packages: the TRS-80 AUTHOR I Lesson Presentation Package (Cat. No. 26-2707), TRS-80 AUTHOR I (Cat. No. 26-1727), or, for Network 3 and 4 users, the Network 3 TRS-80 AUTHOR I Lesson Presentation Package (Cat. No. 26-2713). Network 4 users contact Customer Service for upgrade.

Network Compatibility: 3, 4.

Support: Radio Shack.

26-2645 299.00

Jenny's Journey

Grade: (4) - (6) 1000

Description: Are maps a mystery to your students? Now they can practice their map-reading skills in an enjoyable format! Colorful graphics help them apply map-reading exercises to "real life" situations. Kids learn how to use a map index, find locations, plan a route of travel and take a simulated drive through "Lake City." Three levels of difficulty allow children with various skill levels to progress at their own pace.

Hardware Requirements: 256K.

Support: MECC.

90-5288 54.00

DesignWare

European Nations and Locations

Grade: (4) - (UP) 1000

Description: European Nations & Locations lets you venture to Europe without leaving home. You'll discover where European nations, history, cities, current events, and geographical landmarks are located. European homework can be added for questioning. The program uses a complete map of Europe.

Support: DesignWare, Inc.

90-5093 44.95

DesignWare®

States & Traits

Grade: (4) - (UP)

1000

Description: States & Traits combines U.S. geography, history and current trivia. You can move states to their proper location on a map of all the states or a region. Play the numerous traits games and identify where the information belongs on the map. Games include bordering states and rivers, historical facts, current trivia, and capital. Multiple skill levels provide challenge for children and adults alike.

Support: DesignWare, Inc.

90-5089 44.95

Where in the USA is Carmen Sandiego?

Grade: (4) - (12)

PC-Compatible

Description: Carmen and her gang are back, and you'll soon be off on a wild chase across all 50 states and the District of Columbia. You'll need your Fodor's® USA Travel Guide, which is included, to track Carmen and catch all 16 members of the gang. As you are promoted among the ranks of detectives and learn more about history and geography of our beautiful country the game grows more challenging. A challenge for adults and children.

Support: Broderbund.

90-3160 44.95

Where in the World is Carmen Sandiego?

Grade: (4) - (12)

PC-Compatible

Description: The metropolis awakens to find the Statue of Liberty's torch stolen. The citizens are outraged, the Mayor is up in arms and you've been assigned to the case! At the scene of the crime you learn that the thief was seen heading for the airport. You're off on a whirlwind international chase through the great capitals of the world—London, Rome, Moscow and Katmandu. Decipher clues along the way by looking up facts in The World Almanac, which is included. When you catch up with your suspect and you are right, you're on your way to a promotion and a chance to solve new and tougher cases.

Support: Broderbund.

25-1151 39.95

Expeditions

Grade: (5) - (9)

III/4

Description: The Expeditions package for grades five through nine presents three interactive simulations that allow students to participate in the events of three American historical periods. This program was developed by MECC™, the Minnesota Educational Computing Corporation. Expeditions contains three programs: Furs, Voyageur, and Oregon. Furs is a simulation in which students assume the role of an Ottawa Indian leading a fur-trading expedition. In the Voyageur simulation, students assume the role of voyageurs traveling from Grand Portage on Lake Superior into fur-trading country. In the Oregon simulation, students assume the roles of early settlers heading westward on the 2000-mile Oregon Trail in 1847.

Hardware Requirements: 48K disk system.

Support: Radio Shack.

26-2792 44.95

Gamco

Industries Inc. States and Capitals

Grade: (5) - (10)

III/4

Description: This program combines guided drill in basic U.S. geography skills, an arcade-style reward game, and a teacher management system. Students may choose from 8 lessons. All 50 states are included in four regional maps. Students choose a lesson and a region that they want to work on.

Hardware Requirements: Disk.

Support: Gamco Industries, Inc.

90-5118 54.95

Time Bound

Grade: (5) - (12)

Color Computer

Description: A creative exploration game. Children learn historical facts and use them to plan an escape from the planet Anatron.

Hardware Requirements: Extended BASIC, joysticks and cassette recorder.

Support: Radio Shack.

26-2528 CMC 19.95

Congress

Grade: (7) - (UP)

Color Computer

Description: Congress is a political simulation to help students learn how a bill becomes a law. It requires the student to make decisions that a president might make in order to get a program through Congress. The program includes pork barreling, lobbying, and log-rolling decisions. The user's overall performance is rated in comparison to the popularity of other presidents.

Hardware Requirements: 32K Tape or 32K Disk.

Support: B-5 Software.

Tape. 90-5202 29.95

Disk. 90-5203 31.95

Presidential Decisions of Andrew Jackson

Grade: (7) - (UP)

Color Computer

Description: A political simulation that requires the student to make the same decisions that Andrew Jackson faced. Students may read a period newspaper account, ask advice of Jacksonian contemporaries, or reflect on Jackson's past. Then users must decide what they think Jackson did. This is an exercise in critical thinking that is packed with historical data. Decisions may be made on 10 different issues. Points are awarded on how closely students' decision match the actual decisions of Jackson.

Hardware Requirements: 32K disk.

Support: B-5 Software.

90-5204 31.95

Scholastic
Software

Scholastic pfs: File/Report

Grade: (7) - (12)

PC-Compatible

Description: Scholastic's new package brings you both a versatile filer and the powerful reporting tool that compliments it in one package. With FILE, students can organize, sort, update and retrieve data. REPORT hones students' analyti-

cal, organization and communication skills as it sorts and prints from files. It also sets up columns with headings and more.

Hardware Requirements: 256K.

Support: Scholastic.

90-5290 124.95

**Scholastic
Software**

U.S. History Database for pfs:File

Grade: (7) - (12)

PC-Compatible

Description: Six curriculum-based units with 8-10 activities in each help students develop key social studies and computer skills, and become active participants as they formulate and test their own hypotheses and analyze historical trends and relationships among people, places and events. Three units are based on existing files: "The Expanding American Frontier", "Inventions and Technology" and "Twentieth-Century America". Three other units help students build their own files. These include: "American Presidents", "Local History" and "Fun with History".

Hardware Requirements: 256K and Scholastic pfs:File (90-5290).

Support: Scholastic.

90-5291 124.95

BLUE CHIP SOFTWARE

Baron

Grade: (8) - (UP)

PC Compatible

Description: A real estate simulation game. Baron combines action-packed entertainment with a down-to-earth learning experience that can be applied to real estate investing.

Hardware Requirements: 256K.

Support: Blue Chip Software.

90-0439 49.95

BLUE CHIP SOFTWARE

Millionaire II

Grade: (8) - (UP)

PC-Compatible/2000

Description: Learn about the stock market. You will be able to buy on margin, use put and call options, borrow your net worth, and have access to corporate histories and financial reports.

Support: Blue Chip Software.

90-3218 59.95

BLUE CHIP SOFTWARE

Squire

Grade: (8) - (UP)

PC-Compatible

Description: A financial planning simulation. Squire lets you play your own "financial game of life" using your own goals and game plan.

Support: Blue Chip Software.

90-0440 49.95

BLUE CHIP SOFTWARE

Tycoon

Grade: (8) - (UP)

PC-Compatible

Description: Try to outmaneuver the commodities market. Tycoon focuses on trading in gold, oil, foreign currencies, agricultural products and other commodities.

Support: Blue Chip Software.

90-0438 49.95

Grade: (8) - (12)

Balance of Power

PC-Compatible

Description: Give your students a realistic, challenging view of international politics. The superpowers have the ability to destroy the world, or make it a far better place in which to live. Balance of Power gives your students the opportunity to exercise this ability through the interaction of global politics. It's far more than an unusually interesting and challenging game. It's a way for your students to gain insight into the geopolitical forces that shape our world. Advanced database provides an accurate portrayal of the world and its politics. This school version includes a Teacher's Manual.

Support: Mindscape.

90-5322 59.95

Crusade in Europe

Grade: (9) - (12)

PC-Compatible

Description: The year is 1944. You are the Supreme Commander of the Allied Expeditionary Force. You must lead your armies against Hitler's Fortress Europe in some of the greatest battles in military history. You'll see action on the beaches of Normandy, coordinate the liberation of Paris, and engage the enemy in the last major Nazi offensive of the War—The Battle of the Bulge. Crusade in Europe is an accelerated, real-time, strategic wargame simulation, featuring colorful graphics and non-stop action.

Support: MicroProse.

90-0506 39.95

SIMULATION • SOFTWARE

Decision in the Desert

Grade: (9) - (12)

PC-Compatible

Description: Recreate the classic engagements between the British Eighth Army and the legendary Afrika Korps. Decision in the Desert is a fast-moving, real time game that pits the British General Montgomery against Rommel, the "Desert Fox." You'll relive the famous battles that were the turning point in the North African campaign.

Support: MicroProse.

90-0507 39.95

Conflict in Vietnam

Grade: (9) - (12)

PC-Compatible

Description: Experience all the dangers, victories and defeats of the more than 20 years of struggle for the command of Southeast Asia. Conflict in Vietnam challenges your battlefield leadership with strategic and tactical decision making, continuous action and non-stop excitement in five different battle scenarios.

Support: MicroProse.

90-0508 39.95

TANDY The Next Four Years: Electing the President

Grade: (9) - (12)

III/4

Description: This study packet is designed to help high school students understand the American electoral process. The components of the unit include six activity sheets, a wall chart, a teacher's manual, and a computer cassette program which simulates a real election. Using the simulation, students or teams of students can enter candidates into an election and run their candidates against one another and against the candidates already in the program. This program is ideal for use in history, government, and civics classes.

Hardware Requirements: 32K and cassette recorder.

Network Compatibility: 4.

Support: Radio Shack.

26-2664 19.95

BLUE CHIP SOFTWARE

Managing for Success

Grade: (12) - (UP)

PC-Compatible

Description: A business management simulator that lets you be the CEO of a \$100,000,000 business. It develops your managerial instincts. As the leader of a competitive business team you must be able to make independent decisions. Decisions based upon business capabilities, market climate, competition, company goals and staff input. Learn to master the complexities of day-to-day management. It's modifiable! You can customize the simulation to meet your business needs.

Support: Blue Chip/Britannica Software.

Courseware
Development
with TRS-80 AUTHOR I

III/4

Description: Courseware Development with TRS-80 AUTHOR I is a training course designed to help educators use TRS-80 AUTHOR I. The course includes a teacher's manual, overhead transparencies, and 25 student workbooks, allowing a school or district to use this course to train many teachers in an in-service class. Additional student workbooks are available separately. Topics in the course are: introduction to the microcomputer, introduction to AUTHOR I, the AUTHOR I lesson, text entry and editing, graphics entry and editing, special characters entry, questions and answers, presenting hints in the lesson, branching, creating a lesson glossary, reviewing and editing a lesson, printing and verifying a lesson, using the TEACH program to present a lesson, and creating a score file using the STUDENT program. When the learners have completed the hands-on activities in this course, they will have created an AUTHOR I lesson that takes advantage of many features of the authoring system.

Hardware Requirements: 32K Disk.

Support: Radio Shack.

26-2697 350.00

Additional Student Workbook. 26-2698 4.95

MINDSCAPE

Crossword Magic

Grade: (2) - (12)

1000

Description: An extremely flexible teaching tool, Crossword Magic can be used in all curriculum areas and at all grade levels. Encourages creativity and higher order thinking skills. Students can create their own puzzles using words and ideas from any subject area—history, geography, spelling, foreign language, and others.

Hardware Requirement: 256K.

Support: Mindscape.

90-5321 59.95

Exam Builder

III/4/1000

Description: A powerful question storage and test generation system for teachers. Menu-driven program requires no prior computer knowledge. Features include: storage of questions/answers from multiple subject areas of user choice, complete entry/edit capability, tests generated up to 150 questions with random or teacher selection of items, user-supplied headings, master list capability, and password-protected answer keys. In use in over 300 major universities and corporate training departments.

Hardware Requirements: 256K for Tandy 1000.

Support: A.U. Software.

Grade Manager 1000

Description: Record scores, compute grades and print grade reports quickly and accurately with this flexible classroom tool. Choose from several variations of two grading methods—percentage grading and standard scores. Grade Manager allows up to 1000 students per class and, using a fixed disk, as many as 25 subdirectories with up to 1900 students each. Other features include: delete score categories, assign extra-credit, and many more!

Hardware Requirements: 256K.

Support: MECC.

90-5172 64.00

TANDY In the Hall of the Mountain King Classroom Version

III/4

Description: In the Hall of the Mountain King is an action game from Radio Shack. The classroom version of the game provides an entertaining way to present a multiple-choice quiz. First, the teacher enters the answer key to a multiple-choice quiz into the program. Then, when the student plays the game, he or she is asked at certain points to enter the letter answers to the teacher-provided test questions. Optionally, the user can connect an audio amplifier (such as Radio Shack Cat. No. 277-1008) to the system in order to hear music and other sound effects.

Hardware Requirements: 16K with cassette recorder or 32K disk system.

Network Compatibility: 2, 3, 4.

Support: Radio Shack.

26-2616 39.95

TANDY K-8 Math Worksheet Generator

I/III/4

Description: The Radio Shack K-8 Math Worksheet Generator program provides an easy way for teachers to produce worksheets and answer sheets using the addition, subtraction, multiplication, and division strands from Radio Shack's K-8 Math Program, Volume One. With the K-8 Math Worksheet Generator, teachers can: choose the topic, lesson number, and number of problems from each lesson; choose the number of worksheets to be printed; print identical worksheets, or choose the number of different worksheets to be printed at the same level of difficulty; and save the worksheet design on disk for later use. Although the Worksheet Generator produces exercises keyed to K-8 Math Program lessons, use of the K-8 Math Program is not required.

Hardware Requirements: 32K Disk.

Support: Radio Shack.

26-2162 99.95

K-12 MicroMedia Publishing

Library Circulation Manager

III/4

Description: The Library Circulation Manager helps school librarians keep track of overdue books. This program simplifies record-keeping and paperwork, generates overdue lists and notices, and can perform title searches. Each pair of disks stores data for up to 800 students borrowing up to six books each.

Hardware Requirements: Disk.

Support: K-12 MicroMedia Publishing.

90-5021 199.00

CRI

MMS: Attendance Reporting System

1000/3000

Description: This allows you to record daily attendance and entry/withdrawal status for each of your students for the entire school year. It also allows you to produce an extensive set of attendance reports including entry/withdrawal reports, attendance recording lists, daily attendance lists, registers, and statistical reports. The system accommodates up to 204 single- or double-session days, up to 50 user-defined attendance codes and interpretations, user-defined school calendar and 475 students per grade level.

Hardware Requirements: 256K Disk and MMS: Student Master File (90-5486).

Support: Computer Resources Inc.

90-5487 699.00

CRI

MMS: Discipline Reporting System

1000/3000

Description: The Discipline Reporting System allows you to maintain a record of each student's behavior for the entire school year. You can print reports by student or by teacher using select criteria such as start/stop dates, disciplinary action taken, specified number of infractions or particular infractions. Allows up to 40 infractions per student and 127 teachers, 99 available action codes for recording different categories of infractions and more.

Hardware Requirements: 256K and MMS: Student Master File (90-5486).

Support: CRI.

90-5488 599.00

CRI

MMS: Grade Reporting System

1000/3000

Description: Allows you to record grades, comments, and credits for your students. This module also allows you to print an extensive set of reports (grade verification lists, report cards, transcript labels, honor roll lists, etc.). The system accommodates user-defined letter/numeric grades and interpretations, and grades entry by student or by class. Features up to 75 user-defined letter/numeric grades and interpretations, 600 students per grade level, 12 courses per student and 16 pieces of grade reporting information per course. Since all MMS modules are integrated, data in the Scheduling System is shared with the Grade Reporting System, and attendance totals may be transferred from the Attendance Reporting System to the Grade Reporting System.

Hardware Requirements: 256K Disk and MMS: Student Master File (90-5486).

Support: Computer Resources Inc.

90-5490 1499.00

CRI**MMS: Student Master File System**
1000/3000

Description: The Master File System is the centerpiece of the MMS FOR SCHOOLS series. It must be present when you use any of the other modules (Scheduling, Grade, Attendance, and/or Discipline Reporting). The Master File System allows you to save student biographical information (name, address, homeroom, and so on) for each of your students. This part of the MMS also allows you to sort and display this information in an unlimited number of ways. You may use this module to print mailing labels, homeroom lists, bus lists, and so on. Features up to 600 students per grade level and 20 data fields per student. Sort by one or several data fields. Printed reports specified to cover all students, or limited groups. Student data display on screen or line printer.

Hardware Requirements: 256K Disk.

Support: Computer Resources Inc.

90-5486 649.00

CRI**MMS: Student Scheduling System**
1000/3000

Description: The Scheduling System enables you to efficiently schedule your students using a 3-phase process. The first phase involves assigning courses to each of your students and printing reports that allow you to determine the number of sections and meeting times for these courses. In the second phase, you use the scheduler to assign sections to your students' course selections. In phase 3, you produce a final set of scheduling documents, including student, teacher, and room schedules and class/study hall lists. Features up to 600 students per grade level, 12 courses and 8 study halls per student, 300 courses, 1200 sections, 150 teachers and 160 study halls per course master schedule.

Hardware Requirements: 256K Disk and MMS: Student Master File (90-5486).

Support: Computer Resources Inc.

90-5489 1749.00

TANDY**Network 3 TRS-80 AUTHOR I Lesson Presentation Package**
I/III/4

Description: The Network 3 TRS-80 AUTHOR I Lesson Presentation Package allows the teacher to present AUTHOR I lessons on a Network 3 system. This package contains special Network 3 versions of the lesson presentation modules from Tandy's TRS-80 AUTHOR I package (Cat. No. 26-1727). The TEACH module in this package presents the lesson, while the SCORE module allows the teacher to set up a student records file for automatic scorekeeping.

Hardware Requirements: Tandy Network 3 system with a two-drive host and 32K student stations. (To present particularly long CAI lessons, 48K student stations may be needed.)

Network Compatibility: 3.

Support: Radio Shack.

26-2713 299.00

Learning Technologies™

Network 4 Install Disk
1000

Description: The Network 4 Install Disk allows any one of the following to be installed on and used with a Network 4 System: Learning to Add & Subtract (90-5406), Math in a Nutshell (90-5407), Clowning Around (90-5408), Monkey Business (90-5409), Pipeline (90-5410), Alpine Tram Ride (90-5411), Animal Hotel (90-5412) and Bike Hike (90-5413).

Hardware Requirements: 256K stations in a Network 4 System.

Support: Learning Technologies.

90-5414 74.95

Learning Technologies™

Network 4 Curriculum Pack Install Disk
1000

Description: This disk allows the four programs from either Learning Technologies Curriculum Pack—Enrichment Curriculum Pack (90-5416), or Preschool Curriculum Pack (90-5415)—to be installed on and used with a Network 4 System. To install both Curriculum Packs, purchase two copies of this Install Program.

Hardware Requirements: 256K stations in a Network 4 System.

Support: Learning Technologies.

90-5417 299.95

**Puzzles and Posters**
III/4

Description: The Puzzles and Posters teacher utility package allows teachers to produce word puzzles and banners for classroom use. Teachers can print word puzzles at a variety of difficulty levels, using words of their own choosing. Three programs are included. The Word Find program and the Crossword program generate word puzzles. The Block Letter program can print six sizes of characters to produce banner-like posters. A printer is needed to produce the puzzles and banners. Puzzles and Posters was developed by MECC™, the Minnesota Educational Computing Corporation.

Hardware Requirements: 48K Disk.

Support: Radio Shack.

26-2793 44.95

TANDY**Quick Quiz: A Mini-Authoring System**
I/III/4

Description: The Quick Quiz program allows a teacher to create multiple-choice quizzes with answer keys quickly and easily. The teacher can administer the test by printing out multiple copies (using an optional line printer) or by allowing students to work at the computer. If students work at the computer, their quiz results are automatically saved on diskette. Each quiz may contain as many as 40 questions with 4 answer choices per question.

Hardware Requirements: 32K Disk. If quizzes and answer keys are to be printed, a line printer is needed.

Support: Radio Shack.

26-1728 39.95

**REKORD Planner**
III/4

Description: REKORD is a self-programming data management system that allows the user to set up data files to meet his or her own specifications. Prior knowledge of computers is not required.

Hardware Requirements: 48K Disk.

Support: The Psychological Corporation.

Administrator's Version: Stores parent information, emergency contacts, medical information, social activities, financial aid, class schedule, sibling information.

26-2725 499.00

Guidance Counselor's Version: Stores parent information, class schedule, academic information, psychological evaluation, counseling contact, career information, medical information, and social information. 26-2726 499.00

Special Education Coordinator's Version: Stores personal information, parent information, emergency contacts, medical information, class schedule, placement and services, assessment, IEP information, and performance. 26-2727 .. 499.00

Teacher Turned Author— Expert Series

1000

Description: Create great interactive courseware in minutes with no programming whatsoever. Mix text, graphics, and questions on any page. Built-in drawing systems, student recordkeeping, instant editing, and page playback. This Expert Series is a 5-disk system. Its special features include animated color graphics, graphic overlays, unlimited text colors and fonts, graphic icon libraries, clip art library, interface to Koala Pad, mouse and light pen.

Hardware Requirements: Disk.

Support: Raster Technology, Inc.

Test Composer

1000

Description: This is Berta-Max's most sophisticated test development and preparation program. It is menu-driven and easy to use, and will be valuable to anyone who must regularly

prepare alternate forms of a test, or a test which measures mastery of a specific set of objectives. Item types include true/false, multiple-choice, matching, short answer, and essay. Items may be coded by type, class, difficulty, and objective. The teacher may select test items by number, and an answer key is prepared for each test. Test items may be stored for later use.

Hardware Requirements: Tandy 1000 SX—256K Disk. Tandy 1000 EX—384K.

Support: Berta-Max Inc.

Radio Shack's line of Tandy Computers, printers and accessories, as well as Radio Shack and Express Order software are featured in the 1988 Tandy Computer Catalog & Software Reference Guide.

It's 124 pages, packed with product specifications, color photographs and pricing information. Ask for your free copy of Catalog RSC-19 at any Radio Shack Computer Center.

TANDY TRS-80 AUTHOR I I/III/4

Description: TRS-80 AUTHOR I is a screen-oriented courseware authoring system that allows teachers to create and administer their own computer-assisted instruction lessons or adapt courseware from any curriculum suitable for computer-assisted instruction. TRS-80 AUTHOR I is easy to use and does not require previous programming experience. AUTHOR I lessons can include text and graphics, questions, and feedback messages. Lessons can also include a glossary, hints keyed to specific responses, and branching within the lesson or to another lesson. AUTHOR I also allows the teacher to set up a student records file for automatic scorekeeping. This TRS-80 AUTHOR I package also contains the lesson presentation modules needed to present lessons created using AUTHOR I.

Hardware Requirements: 32K Disk. (To write and/or present particularly long CAI lessons, a 48K system may be needed.)

Support: Radio Shack.

TANDY TRS-80 AUTHOR I Lesson Presentation Package

I/III/4

Description: The TRS-80 AUTHOR I Lesson Presentation Package contains the lesson presentation modules from Tandy's TRS-80 AUTHOR I package (Cat. No. 26-1727). The TEACH module in this package presents the lesson, while the STUDENT module allows the teacher to set up a student records file for automatic scorekeeping. This package is specifically designed for the teacher who wants to present AUTHOR I lessons on a stand-alone Tandy Model I, III, or 4 system, but who does not wish to purchase the lesson development modules of TRS-80 AUTHOR I.

Hardware Requirements: 32K Disk. (To present particularly long CAI lessons, a 48K system may be needed.)

Support: Radio Shack.

26-2707 64.95

TANDY TRS-80 MicroPILOT™

III/4

Description: TRS-80 MicroPILOT™ is a command-oriented courseware authoring language that allows teachers to create their own courseware or adapt it from any curriculum suitable for computer-assisted instruction. MicroPILOT is based on the PILOT computer language but offers extended graphics and disk file-handling capabilities. The language features one-letter commands, uppercase and lowercase characters, and branching. A user's manual with a reference section and sample lesson are included.

Hardware Requirements: 32K Disk.

Network Compatibility: 3.

Support: Radio Shack.

26-2718 119.95

Other Programs

Music

Grade: All Ages

Color Computer

Description: Music provides beginning and intermediate practice in music theory concepts for all age levels. The Music package was developed by MECC™, the Minnesota Educational Computing Corporation. Five programs are included: Counting, Wrong Note, Missing Note, Rhythm, and Rhythm Play. Counting provides practice on time signatures, note types, and counting. In Wrong Note, the computer displays and then plays a five-note pattern, and the student identifies which one of the five notes played was incorrect. Missing Note provides drill in elementary melodic dictation. In Missing Note, five notes are played but only four are displayed. The student must name the missing note. The Rhythm program provides practice in comparing written and audible rhythm patterns. Rhythm Play provides practice in sight-reading rhythms. A pattern is displayed on the screen, and the student must tap out the rhythm at the computer keyboard.

Hardware Requirements: 32K disk system with Disk Extended Color BASIC.

Support: Radio Shack.

26-2795 34.95

The Music Studio

Grade: All Ages

1000

Description: Not just another music construction set! The Music Studio gives you complete command of the music and sound capabilities of the Tandy 1000. A complete orchestra of instruments is at your call to create, mix, modify, play your own compositions or music of your choice. You can even create your own instruments or sound effects with unique sound characteristics. The Music Studio includes a special mode to help the novice musician learn about music and all the musical notation, instrumental control and sound engineering capabilities necessary to create the most complex musical score.

Hardware Requirements: 256K.

Support: Activision.

90-3065 49.95

Early Music Skills

Grade: (K)-(12)

1000

Description: This is a tutorial and drill program designed for the beginning music student. It covers four basic music reading skills: recognition of line and space notes, understanding

of the numbering system for the musical staff, visual and aural identification of notes moving up and down, and recognition of notes stepping and skipping up and down. This package includes one disk.

Hardware Requirements: 256K and one disk drive.

Support: Electronic Courseware Systems.

90-5161 29.95

Elements of Music

Grade: (K)-(12)

1000

Description: This is an entry-level musical program for use by children or adults. Random drills, either timed or untimed, are provided for naming both major and minor key signatures, and naming notes from a musical staff or from a keyboard. The complete set includes progress tests for each drill, progress reports available to the learner, and an instructor file for access to student records. One disk includes three programs: Note Names Drill, Keyboard Note Drill, and Key-Signature Drill.

Hardware Requirements: 256K and one disk drive.

Support: Electronic Courseware Systems

90-5159 99.95

Bank Street MusicWriter

Grade: (3)-(12)

1000

Description: Students can create their own musical compositions. They will learn the correct musical notations and experiment with melody, harmony and rhythm. It has powerful editing modes for inserting, deleting, and copying of any musical passage, in any voice. The volume and tone of each voice is individually controlled. Original music works can be saved and sheet music can be printed using a graphics printer. User's Guide contains a comprehensive tutorial.

Hardware Requirements: 256K.

Support: Mindscape.

90-5324 49.95

The Toy Shop

Grade: (3)-(UP)

PC Compatible

Description: The Toy Shop gives you all the tools you need to build up to 20 fully finished, working mechanical models. Start by choosing a design from the on-screen menu—anything from a simple model like the Flying Propeller to a complex creation like the Tractor Crane. You'll then be able to personalize the look of your model by adding custom patterns, graphics and text. Includes adhesive cardstock, wooden dowels, rubber stripping, cotton cord and balloons.

Hardware Requirements: Printer.

Support: Broderbund Software.

90-3126 49.95

Flight Simulator

Grade: (6)-(UP)

PC-Compatible/2000

Description: The most popular real-time simulation program ever created for a microcomputer. Create up to 30 different flight modes; takeoff and land at more than 80 detailed airports; set environmental conditions, such as wind, clouds, time of day and turbulence. Use advanced navigational aids and more.

Hardware Requirements: Graphics Adapter on the Tandy 1200 and 3000. High Resolution Graphics Board on the Tandy 2000.

Support: Radio Shack.

26-5379 49.95

Super Challenger

Grade: **6-UP**

1000

Description: An aural-visual music game designed to increase player's ability to remember a series of pitches as they are played by the computer. The game is based on a 12-note chromatic scale and an 8-note minor scale. Each pitch is reinforced visually on the display screen with a color representation of a keyboard. The music can be played with the built-in speaker, or with an external output to an amplifier. There is one disk in this package.

Hardware Requirements: 256K and one disk drive.

Support: Electronic Courseware Systems.

90-5160 39.95

DesignWare

Remember!

Grade: **7-UP**

1000

Description: Remember! is a powerful learning tool that students from junior high to adult need for remembering facts, lists, sequences, and relationships. Promotes long-term retention required in a wide variety of subjects—history, English, foreign languages, chemistry, biology, art history, physics, music, etc. You can practice and test until you know it all. First review in the "familiarization" section, then practice with personalized written, auditory or pictorial hints, and then test your retention with no hints.

Hardware Requirements: Disk.

Support: DesignWare, Inc.

90-5092 49.95

Patterns in Rhythm

Grade: **9-UP**

1000

Description: This is an aural-visual program designed to increase rhythmic memory by allowing students to compose simple and compounded meters. The Composer section plays melodies based on rhythms designed by the user. The Dictator, a quiz section, randomly selects and plays rhythmic exam-

ples which the user must identify. Student records are retained. One disk is included.

Hardware Requirements: 256K and one disk drive.

Support: Electronic Courseware Systems.

90-5162 39.95

TANDY

CHAMPS: A Football Scouting Program

Grade: High School/College Coaches **I/III/4**

Description: CHAMPS™: A Football Scouting Program streamlines the entire scouting process by making the scout's job of collecting information almost automatic. Using the CHAMPS system, football personnel can effectively use scouts with little or no experience, increase the amount of scouting data that the football organization can collect and process, eliminate many hours of manual sorting and matching, quickly print offensive tendency reports, and make reports conform to the team's line-of-scrimmage numbering system and play-calling system. Includes ten scouting manuals which allow even inexperienced scouts to collect data. Additional scouting manuals are available separately.

Hardware Requirements: 32K Disk and 132-column printer.

Support: Radio Shack.

26-2703 149.95

10 Additional Manuals. 26-2708 39.95

Work Series

Grade: **9-12**

III/4

Description: Real-world topics and branching make this program especially suitable for the older basic student. Written on both a fifth and third grade reading level, these programs branch to the lower reading level when incorrect responses indicate the need. Topics include interview techniques, obligations of employees, attitude, finding part-time work, handling the first weeks on the job. Titles: How to Get and Hold a Job, The Job and You, Self-Concept and Work, Part-Time Jobs, New on the Job, Interviewing. This set includes 6 diskettes.

Hardware Requirements: Disk.

Network Compatibility: 2, 3.

Support: Aquarius People Materials, Inc.

OTHER PROGRAMS

The best decision for
millions of businesses,
educators and home users.

Quality.

Reliable performance is our design objective. Our engineering team takes pride in the exceptional quality they can produce utilizing our proprietary test equipment. The result: a 33,000-hour mean time between failure.

Compatibility.

Our MS-DOS® based computers are the best-selling PC compatibles in America. Tandy 286 and 386-based business systems are OS/2™ ready as well.

Why Tandy® Computers? Because there is no better value.™

Technology.

Innovative design, custom circuitry and distinguishing features make our computers more than just clones. Plus, every Tandy desktop computer is designed and built in our own USA manufacturing plants.

Connectivity.

Tandy PC compatibles can be linked into a workgroup for communications with other PCs and mainframe computers alike.

Longevity.

Technology has been our business for sixty-seven years. In 1977, we became the first company to successfully manufacture and market a personal computer—nobody's been in the business longer.

High performance, great prices and the best service and support in the industry.

Tandy Computers:
Because there is no better value.
