

A close-up photograph of a dense bouquet of flowers. The arrangement includes several large white lilies with prominent stamens, a yellow daisy with a pink center, a red daisy with a yellow center, and a pink rose. The flowers are set against a dark background, and the entire image is framed by a thick pink border. A semi-transparent pink rectangular box is centered over the bouquet, containing white text.

**Until you've  
seen it in  
16 million  
colors...**

Until you've  
heard it in  
true digital  
stereo...

A hand is holding a CD-ROM disc. The disc has a red label that reads "Multimedia PC SYSTEM DISC Version 2.1". Above this, in smaller text, it says "TANDY COMPUTER PRODUCTS". The disc is being held over a collection of other CD-ROMs and a CD-ROM case. The case is open, showing a colorful, abstract design. The background is a dark, textured surface.

Until you've  
explored the  
magic of a  
CD-ROM  
library...

You've never  
experienced a

TANDY®

# Sensation!

TM

*Anything else is just a PC*

What makes Sensation different from other PCs you may have seen? The *experience* it gives you—a blend of sights, sounds and action that makes other PCs seem primitive by comparison.

Sensation is a Multimedia PC—in fact, the most complete, feature-packed Multimedia PC that has ever been introduced! It begins with incredible amounts of information, stored on CD-ROM compact discs—information that can be displayed with stunning graphics, animation, and even stereo sound in a rich, one-on-one interactive environment, to dramatically change the way you relate to computers.

### ***Experience the Sensation!***

Sensation provides for new capabilities. Just slip a disc into Sensation's CD-ROM drive, and you'll have instant access to over 550MB of information. This information-handling breakthrough unlocks the true potential of the PC—imagine a moving, talking encyclopedia, complete with sound, pictures, and animated graphics. And Sensation includes a series of astonishing images—stunning photos in 16 million colors that will make you feel like you're really there.

The result: Sensation is a superior learning tool . . . a superior working tool . . . a superior entertainment tool . . . a superior *living* tool, for a better way of life.

### ***Sensation Makes it Easy***

Sensation comes with a wealth of software, but unlike ordinary computers, it also includes a huge library of ready-to-use CD-ROM discs! Plus, you get the power of Microsoft Windows 3.1, but with an added advantage: WinMate™. This exclusive software package makes Windows incredibly easy for everyone in your family.

Each family member can actually "customize" WinMate to their liking. That means the kids can go right to the included Encyclopedia or Atlas without ever disturbing your personal finance files.

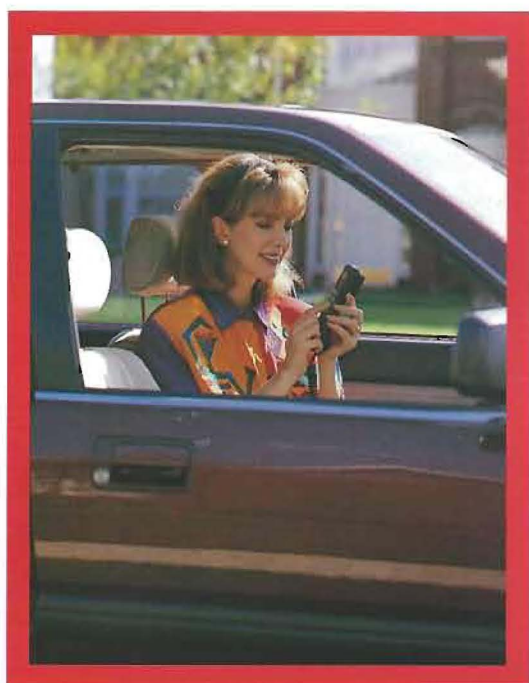

Sensation also includes a business-class Voicemail messaging system—use it as a telephone answering machine and a home/office message center that can store and deliver messages. There's also a built-in Send Fax/Modem that allows you to send documents to any fax machine.

### ***Sensation: The First Multimedia PC that Guarantees Success!***

Of course, Sensation will run standard PC software—in fact, Sensation's 486SX microprocessor enables it to run PC software faster and more efficiently than most "traditional" computers.

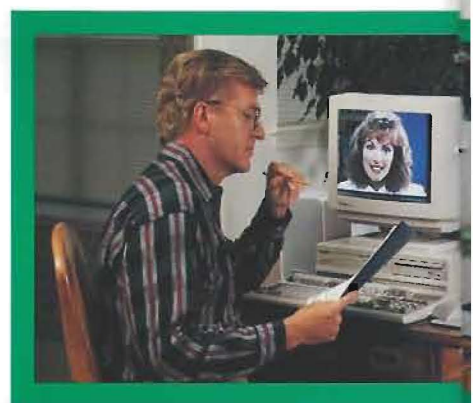

Simply put, Sensation will change the way you feel about computers. And it's all so easy, we guarantee your success in using it!

# You'll get more out of

## *In Touch!*

With the included Teleminder voicemail system, your Sensation serves as a sophisticated messaging system. Use it as an answering machine, and call in to get—or leave—messages from any telephone.

**I**n the past, computers could only go where you *took* them. You provided the information, and the computer processed it. But with its vast assortment of included CD-ROM reference software, Sensation is more than an information processor—it's an information source. It's like having a complete reference library at your fingertips, for the price of a computer.

Use the word processor to write a report with information from *The Concise Columbia Encyclopedia* . . . insert a chart you created on the *Microsoft Works* spreadsheet . . . polish your wording with *Roget's II Electronic Thesaurus* . . . then add a picture that's worth a thousand words from the extensive library of clip art. Finished? Without even printing out, you can immediately fax your masterpiece to any fax machine in the world!

And it's all so easy, because you access your programs via *WinMate*, Sensation's exclusive Windows-based package of Multimedia programs and utilities. It's so simple, virtually everyone in your family can begin a Multimedia adventure right away.

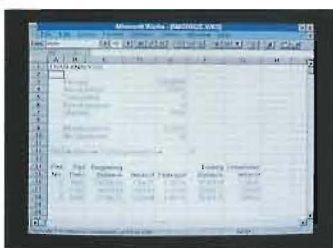

*WinMate*'s collection of easy-to-use multimedia applications is designed to enhance your personal and business lifestyle, from helping you balance your checkbook to managing your schedule. There's also desktop publishing and a fun package of learning games, plus database and spreadsheet templates for use with *Microsoft Works* applications. Add it all up, and you'll see how *WinMate* makes it simple to get the most from your new software right from the start!

Sensation's wealth of great software offers something for everyone—in fact, this could be the most complete software assortment ever included with any computer.

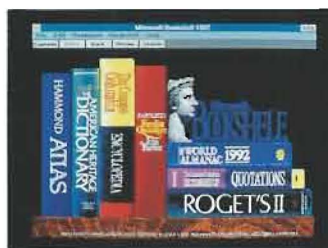

## WINMATE™

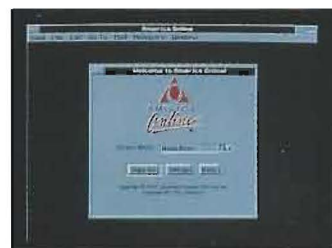

***WinMate***—Sensation's exclusive package of Windows-based applications. No other software makes Windows easier for your family—and no other computer has it!

***Microsoft Works***—Microsoft's popular collection of word processing, spreadsheet, database, graphics and communications, with animated tutorials that make it all easy.

***Microsoft Bookshelf for Windows***—Complete, illustrated editions of *The World Almanac and Book of Facts*, plus two books of famous quotations, a thesaurus, a dictionary, *The Concise Columbia Encyclopedia* and more.

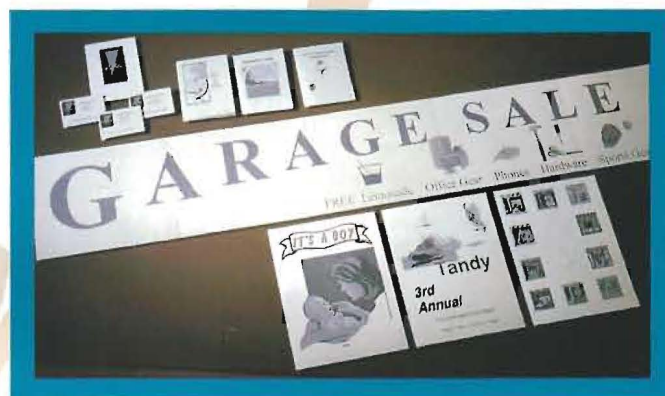

***America Online***—The colorful, easy-to-use online service that gives you access to a world of international business and sports news, activities, information and software.

# More than you'll ever put in.

## *In the Know!*

Add an optional Tandy PCTV adapter, and you can watch actual television broadcasts on your Sensation. Switch from the business report you're putting together to catch the latest world or financial news . . . or maybe just the score of the big game.

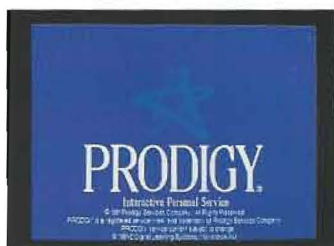

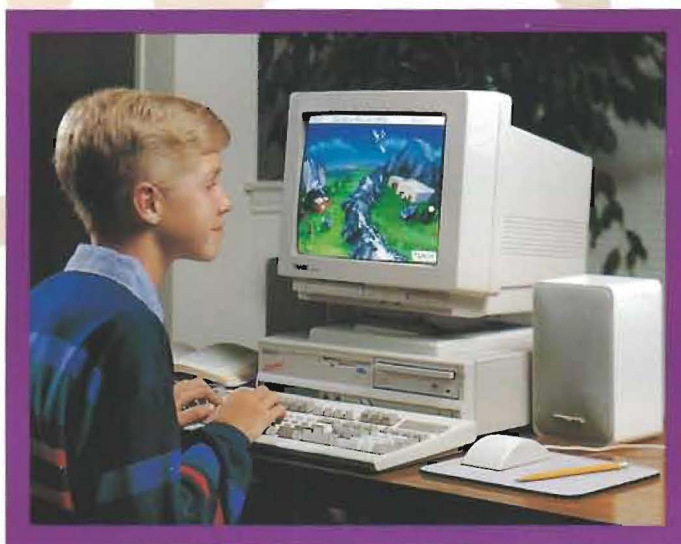

## *In Print!*

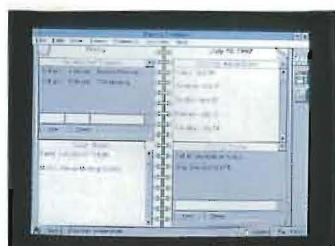

Make your mark with In Print, WinMate's easy desktop publisher. Create newsletters, signs, brochures and ads—all with a personal, professional touch. Add illustrations from the extensive clip art library and you're in business!

## *In Action!*

Explore new worlds with the Sierra Network—a new service from Sierra Online in which you can go online to play interactive computer games with others. You get 30 free hours of online playtime with your Sensation!

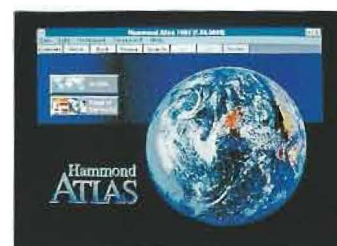

**The PRODIGY™ Interactive Personal Service**—lets up to six people in your household explore this popular, constantly growing selection of information and services.

**WinMate Calendar**—keep track of your appointments, then use the WinMate TeleMinder to have Sensation's voice synthesizer "read" your agenda to you over the telephone!

**WinMate TeleMinder**—A complete, computerized voicemail system. Use it as a telephone answering machine, leave talking "notes" for your family, and call your computer from anywhere in the world to check for messages.

**The Hammond Atlas**—just one of the useful features of the Microsoft Bookshelf for Windows. The Hammond Atlas takes you around the world with political and topographical maps, flags and other useful information.

# Anything else is just a PC.

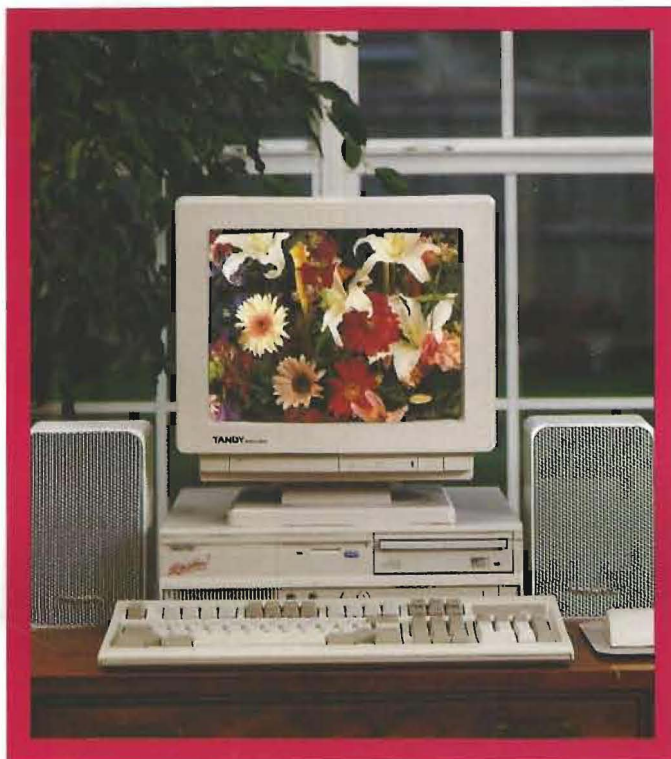

Powerful **Intel 486SX** Microprocessor, operating at 25MHz.

**107MB Hard Drive** provides massive storage and prompt access time.

Exclusive **Tandy Multimedia Palette Chip** displays up to 16 million colors simultaneously.
