Executive Office

The Executive Office is located at the front of the Tandy Store. This area contains several Tandy products used in a corporate environment—everything from a Tandy® 4000 SX computer and laser printer to the TANDYFAX® 1000 facsimile machine and WP-2 Portable Wordprocessor. A GRID® portable computer delivers impressive power for the field, and a compact stereo brings music and news to the office. Notice the office furniture—it is manufactured by O'Sullivan Industries—a Tandy company.

Home Office

The Home Office features many of the products today's professional uses to get the job done at home. A Tandy® 1000 TL/2 computer system, Tandy printer and DUOFONE® 2-line speakerphone are neatly arranged on the desk. A TANDYFAX 1000 links the home office to businesses and other home offices around the world. There are also products for recreation—a television, VCR and camcorder are placed in the entertainment center. Again, the furniture is by O'Sullivan.

Media Center

Across from the Executive Office is the Media Center. This room features Optimus® and Realistic® audio components, a VCR, wide-screen television, a universal remote and many other items available at Radio Shack or McDuff that will turn any family's living room or den into an outstanding entertainment area.

Tandy Corporation is a multifaceted company with a tradition of leadership in technology. And nowhere is Tandy's wide spectrum of interests more apparent than in The Tandy Store, located at 105 One Tandy Center. This beautifully decorated showplace displays the products of Tandy Technology in "real-life" vignettes. Even the sign over the entrance is a Tandy product, built by Tandy Sign—just one of many Tandy manufacturing facilities.

The Tandy Store Conference Room

A few steps past the Modern Kitchen, the Tandy Store Conference Room showcases Tandy products that can enhance any business meeting or presentation. This area is available to Tandy employees for small meetings.

Modern Kitchen

The Modern Kitchen contains state-of-the-art items from McDuff Electronics Supercenters. In addition to name-brand electronics products, McDuff carries appliances like refrigerators, microwaves and freezers. Radio Shack products are also included, such as a Realistic® under-the-counter TV, Weatheradio® and a Tandy® PC-compatible portable computer—ideal for storing recipes and home budgets.

O'Sullivan/Memtek Showroom

Just past the Media Center is the O'Sullivan/Memtek Showroom. Here the unique furniture products manufactured by O'Sullivan Industries are displayed. And because O'Sullivan furniture is distributed through retailers nationwide, this is the ideal place to view several O'Sullivan products at once.

Memtek products are also displayed in the same showroom. Memtek, a marketing company of Tandy Corporation, sells a comprehensive line of audio and video products under the well-known Memorex® label.

Museum Area

For a walk through Tandy history, visit the Museum Area. This area displays landmarks in technology, from vacuum-tube kit radios of the 1920s to TANDY THOR-CD™ in 1988. You'll see why Radio Shack is the leader in consumer electronics, and how Tandy—a company that "started on a shoe string"—has become a pre-eminent force in the design, manufacture and distribution of consumer electronics and computer products.

The TANDY Store is open to the public, free of charge, Monday through Friday, 10 a.m. to 5 p.m.
