BACKGROUND INFORMATION

TANDY CORPORATION

Tandy Corporation is America's largest retailer of consumer electronics and personal computers, with annual sales of more than \$4.6 billion and 41,000 employees worldwide. Tandy is distinctive in the consumer electronics industry in that it combines a broad retail distribution system with an extensive manufacturing base and import/export capabilities.

Tandy® products are sold through more than 7,000 stores and dealer/franchise outlets nationwide. These products are retailed through Radio Shack®, McDuff Electronics®, VideoConcepts®, The Edge in Electronics®, Computer City® SuperCenters and Incredible Universesm stores.

Tandy is a vertically integrated retailer with 25 manufacturing operations in the United States and overseas, producing more than \$1.3 billion of consumer electronics and personal computers primarily for Tandy's retail distribution system.

Consumer electronics are marketed under the company's well-known brands, including Tandy®, Optimus®, Realistic®, DUoFONE® and Archer®. Video products are sold under the famous Memorex® label. Personal computers are marketed under the company's Tandy®, GRiD® and Victor® brands, and through Original Equipment Manufacturer (OEM) agreements.

Tandy's long-standing retailing and product leadership reflects a strong technology base in audio, video, telephony, personal computers, handwriting recognition, magnetic media and digital recording. To support its development of leading-edge technologies and manufacturing techniques, Tandy maintains five major research and development and electronics design centers.

Tandy's leadership in pen-based technology and handwriting recognition is unparalleled. GRiD Systems Corporation, a Tandy subsidiary, introduced GRiDPAD® RF, the first pen computer with integrated wireless communications in October 1991 and the PalmPAD[™] personal computer, The First Wearable Pen Computersm, in March 1992.

In May 1992, Tandy Corporation and Casio Computer Co., Ltd. announced an initiative to design, develop, manufacture, market and distribute a new class of hand-held portable information devices which incorporate pen-based technology -- Personal Information Processors.

Other key Tandy divisions and subsidiaries are Radio Shack, Tandy Electronics, Memtek Products, O'Sullivan Industries, Inc., Tandy/GRiD Europe, The Edge in Electronics, and Computer SuperCenters International, Inc.

Tandy Corporation is headquartered in Fort Worth, Texas. Tandy is listed on the New York Stock Exchange (Ticker Symbol "TAN").
