**New
Technology
That's as
Easy as Pen
and Paper...**

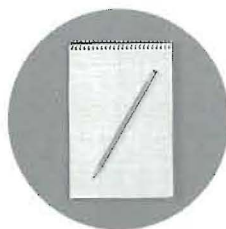

**with the
Logic Power
of a Computer...**

**and the Ability
to Connect to
the World!**

Radio Shack®

THE NEW TANDY® PDA

Travel light with your own Zoomer Personal Digital Assistant
—the smaller, better way to get things done!

It's a fantastic electronic notepad (and more!) that can eliminate thousands of pieces of paper from your life.

Find the perfect word with the built-in dictionary and thesaurus. There's also a spell checker and even a 26-language translator.

Palm Organizer software includes an electronic address book that will store hundreds of your personal entries.

Send a quick fax back to the office of the notes you made on the plane.* Add Motorola's EMBARCSM service to make Tandy's PDA a messaging pager.*

Included software lets you access America Online to get news, stock quotes—you can even send and receive E-mail.*

Optional PC software lets you transfer data between your PC and PDA—even from popular programs like Lotus Organizer.TM

As Easy as Pen and Paper.

Jot a name, draw a map, or scribble a phone number—it's as simple as that. The pen-based Tandy PDA is an incredible "information assistant" that can streamline the way you work, think and communicate. PalmPrintTM software can even read your writing!

The Logic Power of a Computer.

The GEOS[®] system software's easy-to-follow icons and menus make the PDA's power easy to use. And smart, powerful applications like Pocket QuickenTM give you simple ways to handle everyday details.

The Ability to Connect to the World!

Connect the Tandy PDA to your PC, and communicate with popular Windows applications.* Download your appointment calendar, or transfer expense account records from your last trip. Or, add a modem and communicate from your PDA... worldwide!

More Proof that Radio Shack Demystifies Technology!

Radio Shack even includes a helpful get-started video tape that will get you up and running fast! It couldn't be easier!
